Relative to recognizing the observance of "Engineers, Architects, and Land Surveyors Week" from February 20 to February 26, 2022, with this year's theme: *Reimagining the Possible*; and commending the Engineers, Architects, and Land Surveyors of Guam for their tremendous contributions to making a difference on Guam and improving the quality of life for all in our island community.

BE IT RESOLVED BY THE COMMITTEE ON RULES OF I MINA'TRENTAI SAIS NA LIHESLATURAN GUAHAN:

WHEREAS, the principles and practices of Engineering, Architecture, and Land Surveying have served humankind in its creation of social, cultural, and economic systems through a disciplined approach to physical developments for over two thousand (2,000) years; and

WHEREAS, Engineers, Architects, and Land Surveyors contributed greatly to the rebuilding of our island after World War II; and their expertise can be seen in many homes, school buildings, newly-constructed roads, and water and power lines servicing our community; and

WHEREAS, our Pacific island paradise has been greatly transformed since the time our ancestors lived in latte-supported huts and built the fastest *proas* in the world. History books tell us tales of the structures built by our ancestors, and about the dexterity of the ancient *CHamorro* people; and

WHEREAS, now in the twenty-first (21st) century, we see the ingenuity and creativity in the work of Guam's Engineers, Architects, and Land Surveyors; and the power of their creativity, imagination, mathematics, science, and technology to enhance our quality of life, build better communities, and promote our culture through historical preservation; and their touch can be seen in any home, school building, newly-constructed road, water and power lines, or military facility, with their talents ensuring growth and progress within our community; and it is the result of countless hours of work by dedicated private sector, government, and military Engineers, Architects, and Land Surveyors that has led to the enhanced quality of life we enjoy every day; and

WHEREAS, during the celebration of "Engineers, Architects, and Land Surveyors Week," the social impact of this event increases public dialogue about the need for the expertise of our Engineers, Architects, and Land Surveyors, spreading education to youth, educators, and parents, and serving as the catalyst that sparks organizations and volunteers to make a difference by engaging students in engineering, architecture, and land surveying, and celebrating the profession; and

WHEREAS, "Engineers, Architects, and Land Surveyors Week" also promotes the values of good design and work within the community, and the allied professionals that create a safer, more sustainable environment, as well as maintain the rich heritage of the island; and

WHEREAS, Engineers, Architects, and Land Surveyors provide services and products that touch many aspects of life, including the health, welfare, and safety of Guam's people for a better future; and they help to turn ideas into reality, design the building environment from concept to completion, and help to support the President's and Governor's vision of improving our island's students in the fields of Science, Technology, Engineering, and Mathematics, also known as STEM; and

WHEREAS, Engineers, Architects, and Land Surveyors stepped into 2022 more educated about doing business in a very abnormal environment with the COVID-19 pandemic; and striving to stay healthy and safe at worksites and in the office, and refining how to remain resilient in a world that has changed everyone. They know that the year will bring more challenges, but it will also bring successes, new milestones, new discoveries, and will require renewed energy to take on whatever continues to be thrown their way, along with a determination to keep putting one foot in front of the other to keep moving forward; and Engineers, Architects, and Land Surveyors will continue to provide and serve the community to the best of their abilities in 2022; and

WHEREAS, this year's "Engineers, Architects, and Land Surveyors Week" theme, *Reimagining the Possible*, recognizes the integrity, skill, and commitment of Guam's engineers, architects, and land surveyors. The countless hours of work done by these dedicated professionals in the private sector, government, and military make a world of difference. Just as they have played a vital role in development for over two thousand (2,000) years - from helping rebuild our island after World War II, to implementing today's sustainable design - Engineers, Architects, and Land Surveyors will continue to inspire innovative thinking and design; and

WHEREAS, "Engineers, Architects, and Land Surveyors Week" is an annual event that helps bring awareness to the works and contributions of our nation and island's Engineers, Architects, and Land Surveyors; and is a week filled with activities for the adults and youth of our island community, helping to advance the image of engineering, architecture, and land surveying, and getting them involved in the professions; now therefore, be it

RESOLVED, that the Committee on Rules of I Mina'trentai Sais Na Liheslaturan Guahan does hereby, on behalf of I Liheslaturan Guahan and the people of Guam, recognize the observance of "Engineers, Architects, and Land Surveyors Week" from February 20 to February 26, 2022, with this year's theme: *Reimagining the Possible*, and commend the Engineers, Architects, and Land Surveyors of Guam for their tremendous contributions to making a difference on Guam and improving the quality of life for all in our island community; and be it further

RESOLVED, that the Speaker and the Chairperson of the Committee on Rules certify, and the Legislative Secretary attest to, the adoption hereof, and that copies of the same be thereafter transmitted to Brent Wiese, Chairperson of the Guam Building Code Council; to Maria Cristi, Chairperson of the Guam Professional Engineers, Architects, and Land Surveyors; to Gabriel Jugo, President of the Guam Society of Professional Engineers; to Scott Thompson, President of the Society of American Military Engineers; and to the Honorable Lourdes A. Leon Guerrero, I Moga'hagan Guahan.

DULY AND REGULARLY ADOPTED BY THE COMMITTEE ON RULES OF I MINA'TRENTAI SAIS NA LIHESLATURAN GUAHAN ON THE 16TH DAY OF FEBRUARY 2022.
