Dear Senator Calvo:

Please find attached Bill No. 174 (EC), "AN ACT MAKING APPROPRIATIONS FOR THE OPERATIONS OF THE EXECUTIVE, LEGISLATIVE AND JUDICIAL BRANCHES OF THE GOVERNMENT OF GUAM FOR THE FISCAL YEAR ENDING SEPTEMBER 30, 2008, MAKING OTHER APPROPRIATIONS, AND ENACTING MISCELLANEOUS AND ADMINISTRATIVE PROVISIONS," which I have signed into law as Public Law 29-19.

With less than one week remaining until the start of Fiscal Year 2008, the Guam Legislature transmitted to my office the final, passed and approved budget plan for the government of Guam for Fiscal Year 2008. As this budget plan represents a significant departure from the comprehensive plan I submitted with the revised Fiscal Year 2008 budget, there are several issues of concern that have yet to be addressed in order to prepare this government and our island for the economic growth anticipated over the next decade and beyond. However, I have signed Bill No. 174 (EC) into law to prevent the shutdown of this government on October 1, 2007.

As well, I believe that this budget is an important first step in the right direction toward addressing the serious and difficult issues of paying down the \$524 million deficit and strengthening this government's ability to support and encourage sustainable economic growth for Guam.

This first step must be followed by a collaborative commitment to address the structural imbalances that remain in the budgeting practices of the government in a comprehensive manner that must include targeted growth in expenditure levels in critical need areas, an expansion of the government's revenue base to support the growing demand for services, and a long-term plan to pay down the deficit.

Operational Shortfalls

Based on my Administration's analysis of this budget, even before one dollar is spent for Fiscal Year 2008, this budget is deficient over \$50 million for the fiscal year. Cuts to critical health, safety and education agencies and programs amount to more than \$45 million; \$33.5 million in cuts to healthcare, \$4.3 million in cuts to safety and \$7.2 million to education.

Health:

GMH	\$ 3,766,838
Public Health	\$ 1,605,668
Mental Health	\$ 750,000
Mental Health (Permanent Injunction)	\$ 3,000,000
MIP	\$ 6,538,600
Medicaid	\$ 8,413,415
Retirement (Health Insurance cost increase)	\$ 8,514,009
Chief Medical Examiner	\$ 3,1047
TOTAL HEALTH CUTS:	\$33,563,453

Safety:

Agriculture (Conservation Officers)	\$ 598,608
DOC	\$ 2,691,753
DPR (Park Patrol)	\$ 118,018
GPD	\$ 778,935
DYA	\$ 179,601
TOTAL SAFETY CUTS:	\$ 4,366,915

Education:

GPSS	\$ 7,268,067
KGTF	\$ 22,238
TOTAL EDUCATION CUTS:	\$ 7,290,305

GRAND TOTAL IN CUTS TO CRITICAL AREAS: \$45,220,673

The budget also failed to address the \$11.5 million needed for the EITC settlement. In addition, against strong warnings from Standard & Poor's, the government's financial advisors and the bond underwriters, the Legislature has authorized \$13.4 million in carry-over appropriations from FY 2007 for spending in FY 2008. Given our deficit position, these carry-over authorizations will negatively impact the cash flow and can only add to the deficit and operational funding shortfalls in future years.

While authority to refinance a portion of the government's deficit has been provided within this budget act, it does not make any provisions to cover the debt service. The GRT pledge for the bond debt service will cause a void in the resources directly attributed to critical areas, such as education, health, and safety. In addition, this budget requires the use of \$14 million in bond proceeds to cover operational requirements for

Fiscal Year 2008. This could be viewed by Standard & Poor's and the entire financial market as a blatant disregard of the chronic structural imbalance that has led to exactly our present situation.

Deficit Refinancing

The deficit refinancing component of this budget, without any initiative to address the debt service impact, and the absence of any revenue enhancement initiatives, demonstrates the unwillingness of the Guam Legislature to acknowledge the impact the deficit is having on basic operations of this government as well as our ability to prepare for the growth in demand for government services in the coming years.

I have been a strong proponent of refinancing in order to begin to pay down the government's huge deficit, improve our assets, and to begin creating reserves for our government. The refinancing of the 93 General Obligation Bond and the additional \$115 million in deficit refinancing takes us in that direction. However, the inclusion of FY 2008 operational funding in the bond proceeds simply delays the inevitable which is the need to bring revenues in line with the cost of providing basic operations to our people. Furthermore, relying on floating a bond to fund critical operational needs is risky as we saw how the government failed to secure \$35 million in bond financing for GPSS in FY 2007 which has translated to the present depressed state of affairs with education

The refinancing addressed in this budget has several benefits, addressing the court ordered COLA payments, paying out a portion of prior years' tax refunds, addressing capital needs for GPSS and GMH and partially funding the permanent injunction for DMHSA and DISID. However, refinancing as the single component towards deficit reduction is not enough and initiatives that borrow for operations only takes the structural imbalance from bad to worse.

I have also attached several correspondence from Bank of America Securities, UBS and CitiCorp again reiterating the vital need to bring structural balance to the budget and to provide a comprehensive and detailed deficit elimination plan that addresses both the short-term and long-term commitments of this government (both Executive and Legislative) to the fiscal discipline necessary to put our financial house in order.

Comprehensive Deficit Elimination Plan

I was encouraged by the healthy and open debate that took place during the Committee of the Whole during this past budget session. The transparency in discussing the realities we face, the financial challenges before us led to the acknowledgement by several members of the Legislature, as well as economists from UOG and GDOL, that cutting government at a time when we are preparing for the largest economic growth since World War II, lacks vision and not a direction that makes sense at this juncture of our development . Now is the time to strengthen government services in the areas that will encourage greater and more sustainable growth for decades to come.

Adjustments to the deficit elimination pro-forma reflecting the adopted revenues, the spending plan, and the bond initiatives contained in Bill 174 show that by Fiscal Year 2014, this government will still be facing a deficit close to \$400 million. This represents a projection that could conceivably increase if nothing else is done to give this government the resources it needs to meet both past and current obligations. My deficit elimination plan would have seen the deficit substantially reduced and begin to create reserves by Fiscal Year 2014. The longer the Legislature waits to address the ongoing structural imbalance, the larger the deficit growth potential and the more severe the consequences will be to our overall economic viability.

I am encouraging you and the members of the Legislature to work with my Administration to develop a deficit elimination and economic development plan that puts the future of our people as its highest priority. Let us continue the open dialogue you started and begin to address the difficult issues now. We are at the crossroads where we must bear some sacrifices today, so our people will reap the benefits of those sacrifices sooner rather than later.

While you have extended the deadline for the Tax Review Commission until June 2008, I urge you to begin that work immediately so that we can review all possible alternatives to expanding the revenue base of this government in a comprehensive and transparent manner.

Also, as many members of the Legislature have only now received the deficit elimination plan I transmitted to you with my revised Fiscal Year 2008 budget (Bill No. 143), I encourage you to facilitate open discussions to continue to adjust and develop a comprehensive deficit elimination plan that is mutually acceptable and that will serve as a blueprint for collaborative efforts going forward. It is a necessary component of all future financial planning and is critical to the success of all future bonds. I look forward to beginning work on the deficit elimination plan immediately as it may affect this government's ability to issue the bonds authorized in this budget act.

Sustainable Economic Growth

A few weeks ago, the Department of Defense hosted an industry forum on that was attended by more than 800 off-island and on-island investors. The mood of the participants was very positive and all were bullish about Guam's future. On October 8 and 9, 2007 the Department of Interior will be hosting an investment conference here, as well, which is anticipated to draw even more national and international participants.

Clearly there will be growth in our economy from the military build-up, the re-positioning of our tourism industry and other multi-million dollar investments. There is little doubt that in the next decade we will see tremendous economic activity with accelerated construction activities and development industries presence.

The question before us all, as leaders on this island, is whether we have the collective will today to make the difficult decisions and take the necessary actions to bring this

government's finances in to order so that we can begin to prepare our people not just for the opportunities of the next decade, but for sustainable economic growth beyond the construction boom. Already our social, physical and regulatory infrastructures are taxed beyond their capacity.

It is our responsibility to strengthen these areas to meet the current demand and to prepare for significant growth in that demand. Services in education, health and safety are critical. But if this government is to facilitate sustainable growth, we also must shore up our regulatory functions within the Guam Environmental Protection Agency, the Department of Public Health and Social Services, the Department of Customs and Quarantine, the Department of Labor and the Department of Revenue and Taxation.

We must fund the development of strong workforce development programs to prepare our people for highly skilled technical jobs that will be in demand in our new economy. Our roads, water system, power system and seaport must be improved and expanded. More doctors, nurses, teachers, police officers, fire fighters, corrections offices, customs officers, environmental specialists, health inspectors, data managers, revenue agents, engineers and so many others must be hired and trained to ensure that as investments come to our island and our population increases, this government is facilitating economic growth not impeding it.

I also strongly urge the Legislature to reconsider the moratorium placed on the issuance or renewal of all Qualifying Certificates, with the exception of those for Captive Insurance, found in Section 73 of Chapter IV of this act.

This section poses many challenges and falls far short of the intended purpose of reexamining and strengthening the Qualifying Certificate (QC) program. First, this moratorium offers no provision that would take into account those qualifying certificate applications that have been submitted and are under processing. Placing a moratorium on these applications may place the government of Guam and the Guam Economic Development and Commerce Authority (GEDCA) into litigation once Bill 174 (EC) is signed into law.

Additionally, the qualifying certificate program is the "only" investment tool Guam offers in the now highly competitive global market. The suspension of the QC program, albeit temporary will send a negative message to potential investors that Guam is no longer a friendly investment domicile during a time when Guam has increased its profile globally.

While I agree that a review of the program is necessary to refocus investment incentives for the new economy, such a review does not require a suspension of the program during this critical time of economic development. In fact, GEDCA has been conducting an internal review of the program and is preparing draft amendments to the current QC law and rules. Their review, conducted under the auspices of the administrative adjudication law, requires that GEDCA recommendations go through the public hearing process and inevitably the legislative process providing ample opportunity for collaborative input

from the public and private sectors to update the QC program in order to balance the needs of new investors and the island community.

The QC program has and will continue to be a vital marketing tool that Guam can use to create long-term sustainable industries to complement our tourism and military but that would also result in the creation of employment with higher paying, family supporting wages and benefits. Placing a moratorium on the program now would only be robbing our island of this effective investment incentive and the opportunities that new investments bring to our people.

I anticipate that it may be necessary to revisit the Fiscal Year 2008 budget. The Fiscal Realignment Plan requirement contained in the budget is a welcomed provision as it will allow for spending adjustments when revenues fall short of expectations. However, more than \$40 million of critical funding needs are not even a part of the spending plan contained in this budget and, therefore, not supported by the revenues adopted therein. These include \$11.5 million for the EITC settlement, \$8.4 million for retirees' insurance increase, \$15 million for the MIP / Medicaid Program, and \$4.6 million of interest only payments on behalf of GPSS and GMH. Demands in these areas in FY 2008 will severely compromise the government's financial stability and ability to maintain critical services.

In closing, I would like to note that a technical amendment is required. Section 91 of Chapter VI refers to sums appropriated in Section 28 of this Chapter in order to appropriate \$3.1 million to Public Health. However, Section 28 of this Chapter or Chapter VI is not an appropriation provision but rather an administrative provision related to government audits. The correct reference should be Section 28 of Chapter V and not this Chapter,

Again, I have signed Bill No. 174 (EC) into law as Public Law 29-19, but much work still lies ahead for all of us. I look for meaningful, collaborative, and constructive discussions in the coming months to deal with our financial challenges.

Re: Deficit Financing

To reiterate our comments over the last few days, any deficit bonds should be issued in combination with a coherent fiscal plan to eliminate the accumulated deficit and prevent additional deficits from recurring. Lack of an ongoing deficit reduction plan will make obtaining a decent rating and marketing of the bonds more difficult and will likely result in increased interest cost to the Government, as well as negatively impact GovGuam's current rating.

It is apparent that, absent this borrowing, the Government has no opportunity to pay these debts and stop the interest accrual that is accumulating. It is also apparent that the development of a plan to pay back the debt service on the bonds, as well as pay down the remainder of the obligations owed, continues to be a work-in-progress that cannot be done in a vacuum. Authorization of the borrowing, as one of the components of a deficit reduction plan, should demonstrate a clear intent and commitment to the market and to the people of Guam. The rest of the deficit elimination plan should be developed in conjunction with the Legislature and other representatives of Guam's community in order to provide the most comprehensive plan possible. Thus, we believe that legislation recognizing the need to borrow to pay these obligations, whatever the final amount may be, is a step toward progress.

The Government's ability to pay debt service on the bonds is obviously dependent on projections of revenue growth that will occur in Guam in both the near term and over the life of the bonds. If expenditures grow slower than revenues (and if expenditures are capped at a percentage of revenues) then the structural deficit will be automatically eliminated and the accumulated deficit will automatically decrease. We have received feedback from Standard & Poor's, UBS Investment Bank and Citigroup, two of the Government's senior underwriters on these matters. Standard & Poor's agreed that a political consensus toward implementation of a fiscal plan is a step in the right direction and that the rating committee understands that the plan is a work in progress. They caveat, however, that the "devil is in the details" and that any plan must have specific details on the tough decisions that must be made in order to address these liabilities. Both UBS Investment Bank and Citigroup (the top two municipal bond underwriters nationwide) agree that a deficit reduction plan is a critical component to the issuance of any bonds as a component of the plan. It is important to remember that, in a sense, this is GovGuam's last shot

at borrowing to pay these types of obligations; therefore, we must ensure that these liabilities do not further accrue.

If the deficit bond issue is authorized by the Legislature in this Budget Bill, we can then work with the Administration and Legislature to develop a plan that is prudent, marketable and in Guam's best interest. We do not recommend actually going to market until both the Administration and the Legislature sign off on a comprehensive plan. As development of plan is underway, approximately \$36 million of tax refunds and COLA payments will circulate in the economy, as authorized under the budget-neutral restructuring of the 1993 General Obligation Bonds. We believe this is a good start to addressing the problem, but it does not address the entire problem, nor does it prevent future problems.

With respect to some of the provisions in the proposed legislation, we recommend keeping the GRT security and structure in place, as well as the other transaction parameters, until we have a draft plan that will allow us to structure the financing around the Government's needs. In addition, we recommend that some of the proposed provisions are included in any deficit reduction plan considered by the Government and the Legislature. These include an expenditure cap based on projected and/or actual revenues and the creation of reserves for emergency and liquidity purposes. We also recommend enhancing allotment controls and elimination of carry over appropriations, to the extent possible. Given GovGuam's historic performance of spending beyond its means, fiscal measures such as these are critical to enforcing any deficit reduction plan.

In conclusion, the Government and Legislature should bear in mind several factors when considering passage of the Budget Bill with an authorization to borrow for these obligations:

- GovGuam does not otherwise have the funds to pay the obligations and with respect to the COLA payments, GovGuam is mandated to pay these amounts in full
- GovGuam continues to accrue interest at higher rates than it can borrow in the bond market (latest figures include approximately \$42 million in interest from Dept. of Revenue and Taxation)
- In order to successfully issue the bonds and improve the Government's credit rating for the long term, the Government must have a plan in place to address the remainder of the deficit as well as prevent future deficits
- This plan must include projections of revenue growth, impact of any reorganization, ongoing cost containment and expenditure limitation provisions and any planned revenue enhancements (if necessary)
- The plan must be signed off on by the Legislature and the Administration, and adopted as policy
- The plan can be altered as Guam's economic condition improves, and as the need for expenditure cuts and/or revenue increases changes
- *An initial consensus that any deficit reduction plan includes a borrowing component, and passage of that component, shows progress toward a common goal and would likely be viewed as a "credit positive" which will assist in maintenance of the Government's rating in the near future*

Dear Mr. Blaz and Ms. Garcia:

UBS, as the senior manager for the Government's deficit bond issue, agrees with Bank of America's marketing and structuring recommendations for the proposed bond sale. Importantly, it is critical for the Government to devise an overall deficit elimination plan (of which the deficit borrowing is only one component) to instill confidence from the investor community. Such a plan would demonstrate the Government's willingness and ability to address the ongoing fiscal imbalance it has faced. While the proposed GRT-backed security pledge is attractive to investors, that structure alone will not lead Guam back to an investment grade rating – which must be the ultimate objective.

Dear Tony,

We are writing to provide our thoughts and comments to the ongoing budget discussions, the development of a deficit reduction plan and the potential issuance of bonds in the coming months relating to those issues.

We believe the first step in the process of officially presenting the Government's credit in the coming months is the passage of a sound budget that addresses the current financial situation. A well-formulated budget that provides the tools to address the deficit situation will be critical to that process. As currently contemplated, those budget tools include the issuance of bonds to help the Government effectively manage the current deficit situation.

While not necessarily required as part of the budget passage, we would anticipate a comprehensive deficit reduction plan be prepared by the Government to facilitate the issuance of bonds as part of managing the current financial situation. Our experience with credit analysts and potential investors has been that specific details for any deficit reduction plan are a helpful component to their acceptance of the issuance of any bonds as a component of an overall plan. These details typically include specific expenditure reductions, specific revenue enhancements (if any), and very specific mechanics on capturing certain revenues for debt repayment.

We look forward to continuing our work with the Government and encourage the timely completion of the budget process as the important first step. We will continue to work with the Government on a comprehensive deficit reduction plan and look forward to presenting that plan to the market as a part of the issuance of any bonds to facilitate that plan.

We hope this input is helpful in your discussions. Please do not hesitate to contact either of us if you have any questions or if we can be of further assistance.

25 *annual and sick leave and compensatory time for the purposes of a medical*
26 *emergency or for personal reasons. Leave transferred from donors whose*
27 *hourly rates of pay or salaries are lower than the recipient shall be paid at*

1 the hourly rate *or* salary of the donor. Leave transferred from donors whose
2 hourly rates of pay *or* salaries are higher than the recipient, *shall* be paid at
3 the hourly rate *or* salary of the recipient. A formal written request *shall* be
4 made by the donor employee to that person's payroll supervisor, stating the

7 supervisor, *or* to any person above that employee in the supervisory chain,
8 *or* to a member of the supervisor's *or* such supervisory person's immediate
9 family. *If* the donor has sufficient hours of leave accrued to cover the
10 donation, the payroll supervisor *shall* notify the Payroll Division to transfer
11 the approved number of hours to the recipient. Upon receipt of the notice of
12 transfer, the receiving employee may then submit a leave request for the
13 number of hours of leave, sick *or* annual, that the employee needs and the
14 department head *shall* then approve the leave request. Leave may not be
15 transferred to another employee *if* as a recipient that employee intends to use
16 it for credit towards retirement *or* accumulated leave. This transfer of leave
17 *shall* be strictly on a voluntary basis. Leave transferred *shall* be used as

19 entirety, it may be re-transferred to the person who originally earned it. In
20 no event *shall* transferred leave be converted to cash *or* retirement credit by
21 the person to whom it is transferred. Participation in the leave sharing

18 Basketball Court and adjacent restroom facility.

19 **Section 98. Expenditure of Public Funds for Landfill. (a) Legislative**
20 **Findings and Intent.** *I Liheslaturan Guåhan* finds that the government’s proposed
21 landfill site identified as *Dandan or Layon* is privately owned and that the
22 government of Guam, upon final selection thereof, must purchase it. Failure to
23 acquire the property before the government solicits a landfill design specific to that
24 site will increase the market value of the property.

25 *I Liheslaturan Guåhan* additionally finds that a site-specific fiscal
26 plan must be prepared that describes all the costs of the landfill project, including
27 property acquisition; site mitigation requirements; infrastructure needs such as

1 power, water, wastewater and roadways; construction of the landfill itself; and a
2 detailed personnel budget. Therefore, *I Liheslaturan Guåhan* intends to save
3 millions of dollars by ensuring that the government acquires the property for a new
4 landfill before making site-specific expenditures and to determine the total cost of
5 constructing a landfill and preparing it for use.

6 **(b) Prohibition on Expending Public Funds.** All government of Guam
7 agencies, departments, bureaus, boards, commissions, public corporations,
8 autonomous and semi-autonomous agencies, including the A. B. Won Pat
9 International Airport Authority, Guam, the Guam Power Authority, the Guam
10 Housing and Urban Renewal Authority, the Guam Housing Corporation, the Guam
11 Economic Development and Commerce Authority, the Guam Memorial Hospital
12 Authority, the University of Guam, the Jose D. Leon Guerrero Commercial Port,
13 the Guam Waterworks Authority, the Government of Guam Retirement Fund, and
14 the Guam Visitors Bureau, and all other government instrumentalities, *shall* not
15 expend funds on site-specific preparation, design work, mitigation, infrastructure
16 upgrade *or* installation, *or* construction of a new landfill, *unless* the government of
17 Guam has acquired and recorded fee simple ownership of the property in question.

18 **(c)** Within sixty (60) days of the effective date of this Act, the Director of
19 Public Works *shall* submit to *I Maga'lahaen Guåhan* and *I Liheslaturan Guåhan* a
20 financing plan enumerating in detail all costs associated with the new landfill,
21 including, but *not limited to*:

- 22 (1) purchase of the property;
- 23 (2) environmental mitigation within the landfill footprint, buffer
24 zone, and other affected areas, including, *but not limited to*, water
25 sources, rivers, streams, tributaries, wetlands, surface water, ground
26 water, drainage, and erosion;

1 (3) infrastructure needs, including, *but not limited to*, power, water,
2 wastewater and roadways, including climbing lanes for trucks,
3 mitigation of blind-curves and other hazards, shoulder widening,
4 roadway widening, addition of new traffic lanes, traffic management,
5 drainage and storm drainage improvements, access and utility roads,
6 upgrading road markings and signage, and upgrading bridges;

7 (4) landfill construction; and

8 (5) annual landfill operation and maintenance costs.

9 (d) The Director of Public Works, the Administrator of the Guam
10 Environmental Protection Agency, and any other head of an executive
11 branch *or* agency that has expended funds on a new landfill *shall*, within
12 thirty (30) days of passage of this Act, submit a report regarding the purpose,
13 amount and source of that expenditure to the Speaker of *I Liheslatura*
14 *Guåhan*.

15 **Section 99. Guam State Clearinghouse.** (a) Title 5 Guam Code Annotated

18 contracts, contributions, advances, direct Federal development *or* other
19 Federal funding for the financial impact on the government of Guam’s
20 General Fund *or* special funds used to fund the local matching requirement
21 as prescribed by Federal law; and the financial impact on the government of
22 Guam of continuing the Federal program by the government of Guam *if* the
23 Federal funding expires. Said analysis *shall* describe the indirect costs the
24 grantee is eligible for, the amounts applied for and received from each grant,
25 the previous year’s funding level and funding estimate for future years. Said
26 analyses *shall* be performed as an integral part of the state clearinghouse
27 process and submitted to the Speaker of *I Liheslaturan Guåhan*, the

1 Chairperson of the Special Accounting Service, the Chairperson of the
2 Special Economic Service and the Director of the Bureau of Budget and

15 unexpended balance of funds appropriated to *I Liheslaturan Guåhan* for Fiscal
16 Year 2007 *shall* not lapse and is available to *I Liheslaturan Guåhan* for
17 expenditures in Fiscal Year 2008.

18 **Section 102. Continuing Appropriation for the Office of Finance and**
19 **Budget.** The unexpended balance of funds appropriated to *I Liheslaturan Guåhan*
20 for the Office of Finance and Budget for Fiscal Year 2007 *shall* not lapse and is
21 available to *I Liheslaturan Guåhan* for the Office of Finance and Budget for
22 expenditures in Fiscal Year 2008.

1 **(b)** The director of any government agency receiving funds pursuant to this
2 Act, regardless of the source of the agency's appropriations and revenue, *shall*
3 have his gross salary per pay period and the gross salaries per pay period of his

5 remainder of the Fiscal Year 2008 for failing to comply with any reporting
6 requirements mandated by this Chapter. Copies of any personnel actions
7 evidencing said salary reductions *shall* be provided to the Speaker of *I Liheslatura*,
8 and the Public Auditor and posted on the agency's website. Beginning with the
9 first quarter of Fiscal Year 2008, the Public Auditor *shall* notify all directors of
10 their responsibility under this Section three (3) days before the end of each quarter.
11 The Public Auditor *shall* prepare a memorandum attesting to a failure to comply
12 that caused a salary reduction pursuant hereto for placement in each of the
13 aforementioned officials' respective personnel files. For the purposes of this
14 Section, a director *shall* include the head of a department, agency, autonomous
15 agency, semi-autonomous agency, *or* public corporation, including, *but not limited*
16 to, the Superintendent of Education, the President of the University of Guam, the

19 Library System, the Executive Director of the Mayors Council of Guam, the
20 Executive Director of *I Liheslaturan Guåhan* and the Administrator of the Courts
21 of Guam.

22 Any official who undergoes a reduction in salary pursuant hereto and who is
23 transferred to a position in another department, agency, *or* instrumentality of the

13 issuance of such bonds not already included in an existing
14 appropriation for or the regular budget of any government agency or
15 instrumentality or public corporation providing any service in
16 connection with the issuance of such bonds; *provided, however,* that

20 **(b) Terms and Conditions Determined by Certificate or**
21 **Indenture.** The terms and conditions of the bonds *shall* be as

17 require interest only payments for Fiscal Years 2008 and 2009. All
18 officers charged by law with any duty in the collection of the revenues
19 of the government from which debt service on the bonds will be
20 payable *shall* do every lawful thing necessary to collect such sum.

7 subject to said lien and pledge without physical delivery thereof *or*
8 further act, and said lien and pledge *shall* be valid and binding against
9 all parties having claims of any kind in tort, contract *or* otherwise
10 against the government of Guam *or* such trustee, depository *or*
11 custodian, regardless of whether the parties have notice hereof. The
12 indenture *or* certificate by which the bonds are issued and said pledge
13 is created need not be recorded. Said pledge *shall* be a first lien, and
14 *shall* not be subordinate to any other use of said Revenues.

15 **(e) Appropriation of Revenues.** All said Revenues are hereby
16 appropriated to pay the principal and interest on the bonds issued
17 pursuant to this Section and the obligations incurred by the
18 government pursuant to subsections (i) and (j) hereof, provided that
19 the Revenues from Fiscal Years 2008 and 2009 are hereby

11 such banks, insurance companies *or* other financial institutions as he
12 determines are necessary *or* desirable to improve the security and

16 institutions for advances they make to pay principal of *or* interest on
17 the bonds and to indemnify any such banks, insurance companies *or*
18 other financial institutions for costs and expenses incurred in
19 connection with any such advance. Any such reimbursement
20 obligation and any other obligations of the government under such
21 contracts *or* agreements *shall* be general obligations of the
22 government of Guam and *shall* be secured by a pledge of Revenues,
