Appearing before the Committee

Dr. Mary A. Y. Okada, President of the Guam Community College

- **Vice Speaker B.J. Cruz** stated that he would like to review the proposed procurement amendment, before he commits to it and he asked to provide an explanation for the amendment.

- **Speaker Won Pat, Ed.D.** stated that she intended to introduce a substitute bill to replace the original bill which would have included the procurement process, but a hearing date was set for the bill and to prevent further delay of the bill being heard, she recommended to President Okada that she provide testimony to include the amendments on to the bill.

- **Dr. Mary Okada** responded that currently GCC has implicit authority regarding procurement; however in recent months there have been issues with some of the bids. She stated that GCC was asked to identify where in the GCC legislation that GCC has the authority to procure. She stated that they have been following the same government of Guam and GSA procurement rules, GCC has hired a procurement chief procurement officer and supply administrator. She stated that at one point GCC had to get documentation from the Department of Public Works that GCC can enter into construction contracts, because it is not in GCC enabling legislation, but she explained that GCC has been doing this for years. She made it clear that this legislation is just to validate its authority; GCC does not intend to create its own procurement law or anything separate from the Guam Code Annotated. She ended by stating that it is just specifically give us the authority to procure.

- **Vice Chairman v.c. pangelinan** asked Dr. Okada why is there a need to form the GCC foundation separate from the endowment fund.

- **Dr. Mary Okada** replied that the GCC foundation already exists it has bylaws and charter, but the law does not say that, the foundation was created by a policy by the board. She elaborated that the proposed legislation would create it as a separate entity not under the authority of the board of trustees.

- **Senator Sam Mabini, Ph.D.** asked Dr. Okada specifically about manpower training section 32-104, if an amendment would improve the bill authorizing GCC to enter into a contract for testing programs.

- **Dr. Mary Okada** responded that the College currently enters into contracts with private and public organizations and so there are different kinds of training. This specifically identifies the workforce development component that the college offers through continuing education or through apprenticeship programs

- **Senator Sam Mabini, Ph.D.** asked Dr. Okada if there is no need to include testing programs.

- **Dr. Mary Okada** replied we can include it.

There being no further comments or questions for Dr. Mary Okada on Bill No. 176-31 (LS), Speaker Won Pat concluded the hearing on the bill.

III. FINDINGS & RECOMMENDATIONS

The Committee on Education and Public Libraries finds that the testimony presented by Dr. Okada requesting to add §33105 and §33106 to Chapter 33 of Title 17 Guam Code Annotated as amendments to Bill No. 176-31 (LS) is satisfactory, given that the Guam Community College has been managing its procurement by implicit authority for many years.

The Committee on Education and Public Libraries hereby reports out Bill No. 176-31 (LS), As Substituted by the Committee with the recommendation TO PASS.

Re: Testimony regarding Bill No. 176-31

Honorable Speaker Won Pat and Committee Members,

I would like to thank you for the opportunity to come before you today to present my testimony in support of Bill No. 176-31, relative to the Guam Community College.

Guam Community College is a multi-faceted public vocational educational institution, created by the Community College Act of 1977 to strengthen and consolidate what was previously known as vocational education on Guam. The College operates secondary and postsecondary vocational programs, adult and continuing education, community education, and short-term specialized training, as dictated by community and industry needs. Our programs are delivered both on and off-campus, in satellite programs and on site at businesses as needed. We offer over 50 programs of study, and prepare our students for entry-level employment in career and technical fields or transfer to four-year institutions of higher education.

GCC also offers a variety of community service and special programs to prepare students for Testimony college experiences including English as a Second Language, Adult Basic Education, General Education Development (GED) preparation and testing, and an Adult High School Diploma program.

The reason we are proposing the changes to the Guam Community College Act of 1977 is that in the language of the reauthorized Carl D. Perkins Vocational and Technical Act of 2006, the phrase "career and technical education" (CTE) was substituted for "vocational education" throughout the document. Even earlier, in 1998, the American Vocational Association became the Association for Career and Technical Education (ACTE) and members encouraged organizations and agencies to remove "vocational education" from documents and legislation and replace it with "career and technical education." Similarly, in Fall 2000, The Journal of Vocational and Technical Education changed its name to The Journal of Career and Technical Education.

In keeping with this change in language, GCC is now currently working to make this change in its internal documents.

The proposed changes outlined in Bill 176-31 correspond to the nationally encouraged and recognized adoption of the phrase "career and technical education" with regard to encompassing legislation. This legislation will transition the discussion of career preparation in educational institutions in order to merge the two previously traditional separate pathway ideas of either a higher education track or a CTE track into one unified career track, because both the education and business worlds now realize that the two cannot be separated: students need both education and skill sets in order to succeed in life.

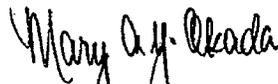

In addition, this legislation also provides GCC with procurement and leasing capabilities not previously granted in the original enabling legislation.

The legislation specifically authorizes its procurement authority for services, supplies, and construction contracts, pursuant to Guam Code Annotated.

This legislation also authorizes the College to enter into a renewable lease agreement with Guam Power Authority in order to develop educational opportunities to train workers for the emerging technologies related to sustainable and renewable energy, without requiring a separate piece of legislation.

Thank you for the opportunity to testify today. I will be happy to answer any questions you may have about the proposed changes to our enabling legislation at this time.

Senseramente,

Mary A. Y. Okada, Ed.D.
President

Footnotes:
1/ The Bill has a potential for additional funding impact in the designation of the Guam Community College (GCC) as the custodian of funds as per Section 10 of the Bill; the authorization of the Board of Trustees to establish a public not for profit corporation through the "Guam Community College Foundation"; and the authorization for GCC to use all revenues to include tuition payments and fees, upon resolution of the Board of Trustees. However, in its present form, that impact cannot be determined at this time.
