TITLE 10 OF THE GUAM CODE

COMMITTEE REPORT

BILL NO. 79 (EC)

AUTHOR: M. Cruz,
2nd M. Forbes

TITLE:

An act to re-establish the commission on licensure to practice the healing arts in Guam as provided for in section 12202 of Chapter 12, Article 2, Title 10 of the Guam Code Annotated.

Members present: Chairman Mike Cruz
Senator Adolpho Palacios
Senator Frank Aguon, Jr.

Other senators present: Senator Robert Klitzkie

Chairman Mike Cruz called the public hearing to order and advised that all present was to hear testimony on Bill No. 79, an act to re-establish the commission on licensure to practice the healing arts in Guam as provided for in section 12202 of Chapter 12, Article 2, Title 10 of the Guam Code Annotated. He welcomed senators Palacios and Aguon and proceeded to explain that, as the bill author, the re-establishment of this commission is important based on his experience as the most recent Chairman before its abolishment.

Senator M. Cruz noted that the commission had not met in a while, and explained that the purpose of the commission was to allow a venue for the chairs from each section of the healing arts to discuss common areas of similarities and/or differences. He noted that this would allow each section come together with others as "one greater healthcare team." He included that this commission only need to meet on a yearly basis.

Senator Cruz noted that no other type of health planning counsel exists. With the re-establishment, the different chairs from the various disciplines would be permitted to discuss shortcomings, try to help alleviate shortages, state recommendations or assist in the planning to ensure better healthcare. Senator Cruz stressed that without the commission there would be no opportunity for the "leaders" to come together.

Senator M. Cruz invited Doctor Loerzel, M.D., a representative for the Guam Board of Medical Examiners, to present his testimony.

Dr. Arthur Loerzel, M.D. thanked the Chairman and other senators for the opportunity to present oral testimony in favor of Bill 79. He stated that the Board of Medical Examiners agree to support Bill No. 79 as read by the Chairman. He sees only positive things coming out of the bill. He suggests some specific wording regarding the finances and the staffing pattern. Specifically, he states that there are problems with the board because of the licensure fees going to the general fund.

Chairman Cruz noted that in the past the Commission acted with the same staff that currently takes care of the different licensure boards. He pointed out that the shortage in staff is an issue that must be taken up with Public Health.

Senator Palacios questioned the appointment process of the members of this particular commission.

Chairman Cruz stated that the members are already appointed by the Governor.

Senator Palacios questioned if there were expiration dates for the different terms. He further questioned if the former commission members would be automatically reinstated when the re-establishment of the commission occurs.

Senator Klitzkie said that re-establishment of the board would not pick up the former members. He also noted that former members could become reinstated if Public Law 26-76 became ineffective with respect to this particular commission.

Chairman Cruz questioned how it would be possible that the terms all start anew with each of the different titled chairs as a re-establishment of the commission.

Senator Klitzkie asked how each member of the commission is chosen.

Chairman Cruz stated that members of the commission are appointed by the governor as follows: the director of Public Health and Social Services or his designee; and the chairpersons from the Boards of Nurse Examiners, Medicine, Dentistry, Pharmacy, and Allied Health. He noted they are already current chairs, and that the governor is giving an additional duty beyond the chairmanships.

Senator Klitzkie commented that if the statute needed action from the executive, then the executive would reappoint.

Chairman Cruz raised an issue regarding the appointment of the Chief Medical Officer of GMHA. He explains that there is no such officer and that is a needed change before the bill is reported out. He notes that there is only the President of the Medical Staff, the Associate Administrator of Medical Services, or the Medical Director. He asked for suggestions/ thoughts on the change that needs to be made.

Dr. Loerzel, M.D. noted that the title of "Medical Director" is not stable and tends to shift.

Chairman Cruz clarified that the title has always been Associate Administrator of Medical Services. He noted that the Chief Medical Officer would mean either the President of the Medical Staff or the Associate Administrator of Medical Services.

Dr. Loerzel, M.D. commented that it would be a "wash" and there could be pros and cons for each. He thinks that President of the Medical Staff is a good choice as well.

Chairman Cruz asked if the panel had anymore questions.

Senator Aguon thanked the chairman and apologized for not hearing the testimony. He noted that the process is unclear because it was a general provision in Public Law 26-76 that arbitrarily eliminated any commission/ board that has not met within the previous 12 months. He commented that the appointment process is a legal question because the provision was not specific. He suggests legal guidance and concluded stating that he is in full support of the provision because he believes that the chairman is in a position to recognize the need for this particular commission.

Chairman Cruz thanked Senator Aguon for the recommendation

Dr. Loerzel, M.D. wonders if making a new law would decrease confusion.

Senator Aguon stated that it's a legal technicality whether to recode it and re-establish it or whether the law is already sufficient to re-enact the particular provision.

Chairman Cruz asked if there are any other testimonies for Bill 79 – hearing none – he concluded the public hearing on Bill 79.

COMMITTEE FINDING: The Committee on Health and Human Services finds that it is necessary to re-establish the commission on licensure to practice the healing arts in Guam to allow the leadership of the various disciplines in the healing profession to properly govern themselves with regard to their rules and regulations, statutes and policies by which they adhere to in their duties to care for the people of Guam.

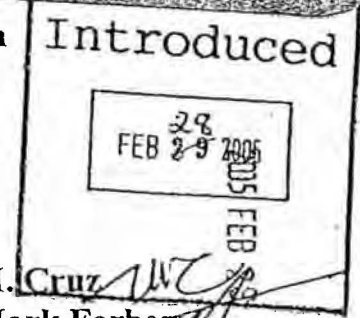

COMMITTEE RECOMNDATION: The Committee on Health and Human Services recommends that **Bill No. 79, an act to re-establish the commission on licensure to practice the healing arts in Guam as provided for in section 12202 of Chapter 12, Article 2, Title 10 of the Guam Code Annotated**, be submitted to I Mina Bente Ocho Na Liheslaturan Guahan with a recommendation **TO PASS**.
