16		Section 3. Authorization to Pay and Prioritize the Payment of Ta	ax Refunds.
17		(a) Prioritization of Additional Child Tax Credit (ACTC)	Reimbursements.
18		The Provisional Set Aside for tax refunds includes the Additional C	Child Tax Credit
19		(ACTC), which is a refundable tax credit that is reimbursed to Guar	n by the Federal
20		Government after refund payments are made to Guam taxpayers that	claim the ACTC.
21		Lack of prioritization of ACTC refund payments creates lost opportun	nity for Guam to
22		receive reimbursed ACTC funds that can then be used to pay more refur	nds or support the
23		operations of the government.	
24		(b) Prioritization of Earned Income Tax Credit Data. The Ea	rned Income Tax
25		Credit (EITC) is another Federal initiative where taxpayers can claim a	credit equal to a

percentage of their income, depending on employment and socioeconomic status. The Internal Revenue Service describes the EITC as "a refundable federal income tax credit for low to moderate income working individuals and families. Congress originally approved the tax credit legislation in 1975, in part to offset the burden of increase in social security taxes and to provide an incentive to work. When EITC exceeds the amount of taxes, owed, it results in a tax refund to those who claim and qualify for the credit." The intent of the EITC is to encourage the move of welfare recipients from welfare to workfare by incentivizing them to work by supplementing their wages with a year-end tax refund "bonus".

According to the Director of the Department of Revenue and Taxation, the current annual liability for the EITC is approximately Forty Million Dollars (\$40,000,000) a year. Understanding the trend of EITC is critical to long term and annual budget planning for the government of Guam that necessitates timely and accurate reports about the frequency and amount of individuals that claim this credit each tax year. The EITC liability for 2010 and 2011 will likely remain at *or* exceed current levels. Most recipients of the EITC pay little to no income tax into the Guam Treasury, which requires Guam to use taxes and revenues from other sources to pay for the EITC program. A Guam Supreme Court decision ruled that Guam taxpayers must be paid the EITC as a requirement of the "mirror image jurisdiction" of the IRS code. The result is an inadequate collection of taxes to support the programs and services required for all the residents of Guam, including timely tax refund payments.

The Committee on Appropriations *does not* support raising taxes and fees in order to pay EITC because then it becomes a redistribution of income between classes, which is contrary to the intent of the EITC, which seeks to promote individual achievement and self sufficiency. Raising taxes will only bring those eligible for EITC toward the poverty line and potentially hamper economic growth by taking resources away from investment activity.

For future planning purposes, by December 31, 2010, the Director of the Department of Revenue and Taxation *shall* provide a report to *I Maga'lahen Guåhan* and the Speaker of *I Liheslaturan Guåhan* certifying the total amount of EITC paid for each

tax year and fiscal year dating back to Fiscal Year 2003. The report *shall* include the total number of EITC recipients categorized within the standard income brackets used by the IRS for reporting purposes.

- (c) Prioritization of Tax Refund Payments. In previous fiscal year budget acts, deficit spending has occurred by the underpayment of tax refunds. Even in Fiscal Year 2008 when a small surplus was realized, total tax refund liability for the period exceeded the budgeted provisional set aside for refunds which increased the deficit. Thus, in order to minimize interest accrual, *I Liheslaturan Guåhan* finds it necessary to authorize and prioritize the payment of Tax Years 2007, 2008, 2009 and 2010 refunds in the order of the following amounts and priority:
 - (1) The tax refund disbursement amounts authorized in this Section *shall* be within the following classification of return status designations and amounts:

Refunds with ACTC and MWPC claims for Tax Years:

2007	A Status Returns	\$5,000,000		
2008	A Status Returns	\$10,000,000		
2009	A Status Returns	\$65,000,000		
2010	A Status Returns	\$15,000,000		
Emergency Refunds:				

2009 Emergency A Status Returns \$2,000,000 2010 Emergency A Status Returns \$3,062,184

- (2) The tax refund disbursement procedure authorized in this Section *shall* be the filer with the lowest taxable income, followed by the next lowest and repeating this disbursement methodology until all the funds authorized are exhausted in each group of return status designations at the end of each processing week.
- (3) Emergency refunds may be paid at anytime during the Fiscal Year 2011 and are subject to the prioritization of return status designation and amounts.
- (4) The Director of the Department of Revenue and Taxation *shall* submit a status report to *I Maga'lahen Guåhan* and the Speaker of *I Liheslaturan*

Guåhan by the 20th of each month that contains the number of tax refunds paid and amounts by each return status designation group.

- (5) No less than fifty percent (50%) of all ACTC reimbursements shall be deposited directly into the Income Tax Refund Efficient Payment Trust Fund (Fund), of Chapter 51, Title 11, Guam Code Annotated, and applied to 2008 and prior A Status returns. Interest earned in the Fund may be used to hire seasonal employees to assist with income tax processing.
- (6) No less than ten percent (10%) of all ACTC reimbursements shall be earmarked to fund vacancies and overtime for the Department of Revenue and Taxation Income Tax Processing and Income Tax Enforcement Division, as outlined in Chapter V, Section 2 (i)(3).

Section 4. Make Work Pay Tax Credit Reconciliation.

(a) **Legislative Intent.** It is the intent of *I Liheslaturan Guåhan* that reconciliation of individual income tax returns be performed with utmost urgency. *I Liheslaturan Guåhan* acknowledges that accounting standards provide the framework whereby government revenues are recognized. Without timely reconciliation of individual income tax returns, revenues realized by the government of Guam cannot be recognized.

I Liheslaturan Guåhan recognizes that the reconciliation of individual income tax returns is within the purview and authority of the Department of Revenue and Taxation, and that any delays in reconciling individual income tax returns, especially as they relate to Treasury warrants, have an adverse impact to the financial capacity of the government of Guam.

It is further the intent of *I Liheslaturan Guåhan* that timely reconciliation of individual income tax returns be performed pursuant to the timeline specified in Chapter I, Section 4(b) of this Act as it relates to Make Work Pay Tax Credit, and recognizes the inability of the Department of Revenue and Taxation to process them accordingly, which hinders the ability of *I Liheslaturan Guåhan* to properly forecast revenues.

Therefore, *I Liheslaturan Guåhan* intends to mandate the Department of Revenue and Taxation to provide a reconciliation of the Make Work Pay Tax Credit based on the timelines specified in Chapter I, Section 4(b) of this Act.

(b) The Department of Revenue and Taxation Reconciliation Timeline. The Department of Revenue and Taxation *shall* determine the method of the reconciliation. The only criterion required by *I Liheslaturan Guåhan* is that the method *shall* provide reasonable assurance to external auditors and that the portions of the Make Work Pay Tax Credit be recognized as revenue.

The timeline whereby the reconciliation *shall* occur is as follows:

- (1) By December 31, 2010, the Director of the Department of Revenue and Taxation *shall* provide a report to *I Maga'lahen Guåhan* and the Speaker of *I Liheslaturan Guåhan* certifying the total amount of Make Work Pay Tax Credit received in Tax Year 2009, as substantiated by the documented request to and the remittance from the Department of Treasury. From this total amount received, the breakdown as to the portions of the Make Work Pay Tax Credit *shall* be recognized as revenue from Tax Year 2009.
- (2) By May 31, 2011, the Director of the Department of Revenue and Taxation *shall* provide a report to *I Maga'lahen Guåhan* and the Speaker of *I Liheslaturan Guåhan* certifying the total amount of Make Work Pay Tax Credit received in Tax Year 2010, as substantiated by the documented request to and remittance from the Department of Treasury. From this total amount received, the breakdown as to the portions of the Make Work Pay Tax Credit *shall* be recognized as revenue from Tax Year 2010.
- (3) By July 31, 2011, the Director of the Department of Revenue and Taxation *shall* provide a report to *I Maga'lahen Guåhan* and the Speaker of *I Liheslaturan Guåhan* certifying the total amount of Make Work Pay Tax Credit received in Tax Year 2010 as substantiated by the documented request to and remittance from the Department of Treasury. From this total amount received, the breakdown as to the portions of the Make Work Pay Tax Credit *shall* be recognized as revenue from Tax Year 2010.

Section 5. Make Work Pay Tax Credit Extension. It is the intent of *I Liheslatura*n *Guåhan* that the government of Guam reserve seventy-five percent (75%) of all future advance payments received from the Department of Treasury for the Make Work Pay Tax Credit. Should the Make Work Pay Tax Credit be extended for Tax Year 2011, the Department of Administration and the Department of Revenue and Taxation *shall* deposit seventy-five percent (75%) of all Make Work Pay Treasury Warrants directly into the Income Tax Refund Efficient Payment Trust Fund for the purpose of paying tax refunds.

Section 6. Prioritization of Revenue Collections in Excess of Monthly Collections.

(a) Legislative Intent. I Liheslaturan Guåhan recognizes the strain of the unfunded Federal mandates, such as the Earned Income Tax Credit (EITC), and also acknowledges that upon enactment of this Act, the United States Congress and the President of the United States may enact tax legislation into law that could enhance, reduce or have no effect on the collection of income and withholding taxes. Therefore, I Liheslaturan Guåhan intends to earmark specific funding sources to organize and prioritize discretionary past due obligations within the structural deficit, as well as future obligation proposals necessary to maintain a stable, competitive government work force that will attract and retain the best employees to deliver programs and services to Guam residents and visitors to Guam.

I Liheslaturan Guåhan also recognizes the burden placed on the community of Guam due to past due tax refunds and prior year obligations, and wishes to address the existing structural deficit prior to spending the anticipated increase in General Fund revenues that may be realized as a result of the proposed military buildup on Guam. In order to achieve this objective, I Liheslaturan Guåhan requires a long-term strategic plan to systematically bring transparency and a sharp focus to improve the financial health of the government of Guam. The strategic Plan shall recognize the debts owed by the government to its citizens and shall receive the highest priority in accordance with the funding sources earmarked for payment of these debts.

I Liheslaturan Guåhan also acknowledges the urgency to address prior year obligations. Rather than confront these challenges on a yearly basis, I Liheslaturan

Guåhan shall require a vehicle to minimize all debts owed, both to internal and external stakeholders. I Liheslaturan Guåhan seeks to reaffirm its position as the government's appropriating authority and to set forth the current and future operational spending plan through the passage of this Act.

I Liheslaturan Guåhan recognizes that excess resources received by the government of Guam are under the vested authority and guidance of I Liheslaturan Guåhan, and that the separation of powers reserves the right of the Executive Branch, through the Office of I Maga'lahen Guåhan, to allocate and release the resources as appropriated by I Liheslaturan Guåhan.

(b) **Income Tax Refunds.**

- (1) Within thirty (30) days upon enactment of this Act, the Department of Revenue and Taxation *shall* provide a full accounting of the total income tax liability of the government and *shall* be submitted to *I Maga'lahen Guåhan* and the Speaker of *I Liheslaturan Guåhan*.
- (2) The Director of the Bureau of Budget and Management Research *shall* create a General Fund twelve (12) month revenue budget based on the revenue estimates in Chapter I, Section 2, relative to a statistical weighting of historical collections by month by collection category in the General Fund Combined Comparative Statement of Revenues report. The report *shall* be submitted to *I Maga'lahen Guåhan* and the Speaker of *I Liheslaturan Guåhan* within thirty (30) days upon enactment of this Act.
- (3) Notwithstanding any other provision of law, monthly revenue collections in excess of the monthly revenue budget in Chapter I, Section 6(b)(2) of this Act from the categories defined in Chapter I, Section 6(b)(4) of this Act as Income Tax revenues are hereby appropriated for the payment of tax liabilities defined as: (A) Individual Income Tax Refund and Interest payment; and (B) Corporate Income Tax Refund and Interest payment, and hereby prioritized according to Chapter I, Section 3(c) of this Act.
- (4) The funding source for tax liabilities *shall* be income tax revenues reported by the Department of Administration on cash basis for the individual

income tax, the withholding tax, and the corporate income tax. Revenues for the 1 2 purpose of this Act represent cash or cash instruments with a maturity term of less 3 than ninety (90) days that are available and earned by the government of Guam 4 within the current fiscal year. (5) Available excess income tax revenues are available for expenditure 5 when no third party claims, pledges, encumbrances, appropriations, or liens exist 6 against such excess income tax revenues. If any outside party asserts claims over 7 8 such resources, the matter *shall* be resolved at the appropriate legal jurisdiction. 9 (6) The identification and recordation of available excess revenues 10 shall be performed by the Department of Administration, in coordination with the Bureau of Budget and Management Research and the Department of Revenue and 11 Taxation. 12 (7) It is important to coordinate the financial resources of the 13 14 government of Guam to ensure synchronous deployment of resources. The 15 Department Administration shall submit the following reports to I Maga'lahen 16 *Guåhan* and the Speaker of *I Liheslaturan Guåhan* on the 25th of each month: quarterly statement of revenues, expenditures and changes 17 (A) 18 in fund balance for the major funds; monthly bank statements for all major funds; 19 (B) 20 (C) monthly bank reconciliation for all major funds; and (D) an explanation of any material variances resulting between 21 22 revenues reported on the quarterly statement of revenues, expenditures, and fund balance and the cash reported in the bank statements. The 23 24 explanation shall provide detailed disclosures in the statement of revenues, 25 expenditures, and changes in fund balance. (8) Available excess revenues identified in Chapter I, Section 6(b)(6) 26 27 of this Act shall be deposited by the Department of Administration into the 28 Income Tax Refund Efficient Payment Trust Fund for payment of past due tax

refunds as outlined Chapter I, Section 3(c) of this Act.

(9) Thirty (30) days after the close of the current fiscal year, the 1 Department of Administration shall provide a detailed reconciliation of the 2 3 payment of income tax refunds through available excess revenues for the current 4 fiscal year to I Maga'lahen Guåhan and the Speaker of I Liheslaturan Guåhan. The Department of Revenue and Taxation shall develop a strategic 5 plan to be submitted to I Maga'lahen Guåhan and the Speaker of I Liheslaturan 6 Guåhan within six (6) months after the enactment of this Act. The Plan shall 7 8 include computations and recommendations as to the best use of government resources for payment of past due refunds to minimize the interest expense. 9 Prior Year Obligations and Future Obligation Proposals. 10 Section 7. **Legislative Intent.** I Liheslaturan Guåhan recognizes the importance of 11 (a) 12 providing a mechanism to address prior year obligations incurred through operational deficits, unbudgeted expenditures, or authorized legislative statutes. 13 **Prior Year Obligation Report**. Within thirty (30) days upon enactment 14 of this Act, the Department of Administration shall provide a report of a full accounting 15 16 of the prior year obligations of the government, and shall be submitted to I Maga'lahen Guåhan, the Speaker of I Liheslaturan Guåhan, and the Office of Finance and Budget. 17 18 (c) Excess Available Business Privilege Tax Revenue. Notwithstanding any other provision of law, monthly revenue collections in excess of the monthly revenue 19

budget in Chapter I, Section 6(b)(2) of this Act from the categories defined in Chapter I,

Section 7(d) of this Act as Business Privilege Tax revenues shall be appropriated for the

payment of Prior Year Obligations and Future Obligation Proposals as defined and

I, Section 7(e) of this Act shall be appropriated for payment of principal and

interest obligations pursuant to Rios v. Camacho, Superior Court No. SP0206-93.

I, Section 7(e) of this Act shall be appropriated for payment of principal and

interest obligations pursuant to Guam Federation of Teachers v. Government of

Guam, et. al., Superior Court Case No. SP 0009-07.

Section 8. Income Tax Refund Compensation Plan.

(a) **Legislative Intent**. It is the intent of *I Liheslaturan Guåhan* that the processing and disbursement of tax refunds are made a priority of the government of Guam, and recognizes that the government of Guam serves as a fiduciary agent in its custody over these funds on behalf of the taxpayers of the island. It is, further, the intent of *I Liheslaturan Guåhan* to promote the timely processing and payment of these refunds to ensure that the funds are returned to the taxpayers, and that the interest incurred by the government of Guam is minimized. As such, *I Liheslaturan Guåhan* recognizes that the timely processing and disbursement of refunds *shall* occur to disburse any excess revenues that become available.

I Liheslaturan Guåhan realizes that the processing and payment of refunds are constrained by the availability of funds and the productivity of the Department of Revenue and Taxation. Although the availability of funds is the responsibility of policymakers, I Liheslaturan Guåhan recognizes the hard working public servants at the Department of Revenue and Taxation for the work they perform for the timely processing and disbursement of refunds.

(b) *I Liheslaturan Guåhan* wishes to emphasize the urgency of processing refunds by incentivizing the employees at the Department of Revenue and Taxation. The Income Tax Refund Compensation Plan (Plan) based on Merit Bonus, as delineated in §6203, Chapter 6, Title 4, Guam Code Annotated, *shall* be developed by the Director of the Department of Revenue and Taxation.

CHAPTER II

2 EDUCATION

PART I – GUAM DEPARTMENT OF EDUCATION (GDOE)

Section 1. Legislative Findings and Intent. *I Liheslaturan Guåhan* finds that the U.S. Congress has provided nearly One Hundred Million Dollars (\$100,000,000) in additional grants to the Guam Department of Education (GDOE) through the American Recovery and Reinvestment Act (ARRA) stimulus grants and most recently HR 1586, The Education Jobs Funds, providing over Twenty Million Dollars (\$20,000,000) specifically to pay wages and benefits of education employees in FY 2011.

It is the intent of *I Liheslaturan Guåhan* to direct the GDOE to support, wherever possible, the operations of the GDOE with federal funds to relieve the General Fund. *I Liheslaturan Guåhan* has assigned the highest priority to raising the standard of education available to the students in the elementary, secondary and higher education *or* post-secondary institutions on Guam. However, there are numerous financial challenges associated with appropriating to the GDOE the financial resources it would need to maintain the FY 2010 manpower level, respective of the teacher-student ratio and other contractual requirements in the collective bargaining agreement between the Guam Education Policy Board (GEBP) and the Guam Federation of Teachers (GFT). This situation is worsened by the unanticipated delay in the economic surge expected from the Department of Defense. Revenues projected fell short thus forcing *I Liheslaturan Guåhan* to seek further reduction in government operations spending. The government of Guam is currently allocating eighty-five percent (85%) of its available revenues to personnel costs, while a large share of the remaining revenues are allocated to the government's debt-service obligations and the cost of operations.

This is the current state of affairs in Guam, as well as in many other communities throughout the United States, and educational institutions are *not* spared *or* insulated from the financial hardship impacting practically every State and local government throughout the Nation. The current recession has placed tremendous financial (budgetary) pressure on State governments, thus compelling the U.S. Congress to enact certain provisions in H.R. 1586 in an effort to provide financial relief to governments in need. Guam was awarded slightly over Twenty Million Dollars (\$20,000,000) for FY 2010-2011 through this Congressional

appropriation, and funds are to be allocated for the maintenance of effort to keep teaching personnel in the classrooms by avoiding layoffs and furloughs, and to recall *or* rehire former employees. Funds may also be used to hire new teachers to provide early childhood, elementary, *or* secondary educational and related services. The primary outlay of such funds however, *shall* be for the salaries and benefits expenses of the GDOE.

The government of Guam lacks the financial capacity to maintain its current *or* prior operating level, which is critical to keeping all GDOE teachers employed. The GDOE is encountering insurmountable challenges in meeting the policy requirements and standards of the GEPB, *I Liheslaturan Guåhan*, and the people of Guam due to the current state of financial hardship plaguing Guam, the region and most municipalities in the mainland.

The United States Congress has appropriated financial relief for the States, territories, and other municipalities of the United States through H.R. 1586, whereby an extension of the ARRA will allow teaching jobs to be maintained, and additional hiring of teachers for elementary, secondary, early childhood, and post-secondary positions is authorized.

I Liheslaturan Guåhan wishes to fully participate in the application of H.R. 1586 in order to avoid any disruption in the delivery of educational services to the people of Guam, and to preserve and retain the invaluable human resources of the GDOE.

With the local appropriations contained in this Act, when added to federal formula consolidated grants, ARRA stimulus grants and the Education Jobs Funds allocations, the GDOE will receive close to Three Hundred Million Dollars (\$300,000,000) for its operations in FY 2011; which is more than adequate to meet the needs of the students for the upcoming school year.

It is the intent of *I Liheslaturan Guahan* that external funds available to agencies and departments *shall* be taken into consideration to determine the current appropriation level needed. As to maximize the use of these funds, *I Liheslaturan Guahan* intends that material external funds received *shall* be used to maximize services and programs of the agencies through pursuit of indirect cost reimbursements and use of ARRA funding to reduce the local funding where applicable. *I Liheslaturan Guahan* also aspires for complete transparency in the financial reporting of these funds to the citizens of Guam. For FY 2011 the Guam Department of Education will be the recipient of the following federal funds below:

4	Section 1.	Legislative Intent. It is the intent of <i>I Liheslaturan Guåhan</i>

Section 1. Legislative Intent. It is the intent of *I Liheslaturan Guåhan* to provide a lump sum appropriation to the Guam Memorial Hospital Authority (GMHA). The funds *shall* be expended in accordance to the budget request submitted and the priorities stipulated by the GMHA Board of Trustees (Board) and the GMHA's management.

I Liheslaturan Guåhan is resolved to continue to support and establish policies which are in the best interest of the GMHA and its mission. The Board's request to reduce the credits applied against the appropriations to the Guam Memorial Hospital Authority Pharmaceuticals Fund towards the payment of bills for services incurred by qualified Medically Indigent Program (MIP) recipients will help increase GMHA revenues. The removal of credit towards the MIP patient billing may result in over Seven Million Dollars (\$7,000,000) of additional cash payments to the GMHA above the previous year.

Furthermore, *I Liheslaturan Guåhan* has increased its support to the GMHA from the Healthy Futures Funds with additional direct support for operations of Two Million Four Hundred Thirty-five Thousand Seven Hundred Seven Dollars (\$2,435,707), and One Million Dollars (\$1,000,000) per year, allowing GMHA the immediate ability to draw upon its authorized Twelve Million Dollars (\$12,000,000) line of credit to meet cash requirements for critical resources for patient care.

Section 2. §26208 of Chapter 26 of Title 11, Guam Code Annotated, is hereby *amended* to read:

"§26208. Creation of the Guam Memorial Hospital Authority Pharmaceuticals Fund. There is hereby created, separate and apart from other funds of the government of Guam, a fund known as the "Guam Memorial Hospital Authority Pharmaceuticals Fund." This Fund *shall not* be commingled with the General Fund and *shall* be kept in a separate bank account of which GMHA will be authorized to withdraw from the funds. Four percent (4%) of all Business Privilege Taxes collected in Guam *shall* be deposited in the Guam Memorial Hospital Authority Pharmaceuticals Fund and *shall* be appropriated by *I Liheslaturan Guåhan* to fund all pharmaceutical, drug, medical

supplies, medical equipment, blood and blood products, and medicine requirements for Guam Memorial Hospital. The Department of Administration *shall* deposit, on the last day of each month, a sum equal to four percent (4%) of all Business Privilege Taxes collected for that month in the Guam Memorial Hospital Authority Pharmaceuticals Fund. The Department of Administration *shall* be required to first and foremost fund the Guam Memorial Hospital Authority Pharmaceuticals Fund *prior to* distribution to any other source in accordance with the provisions of this requirement. The Guam Memorial Hospital Authority Pharmaceutical Fund will *not* be subject to *I Maga'lahen Guåhan's* transfer authority or any method of withholding of appropriations that may be imposed by the Bureau of Budget and Management Research (BBMR)."

CHAPTER V

EXECUTIVE BRANCH

Section 1. Legislative Findings and Intents. *I Liheslaturan Guåhan* finds that the Fiscal Year 2011 Budget submitted by the Administration on January 29, 2010 contains information and assumptions requiring adjustments based upon the most recent financial reports compiled by various executive branch agencies and the Office of Finance and Budget. The financial team representing the Administration in a public hearing on the revenue projections contained in the Fiscal Year 2011 budget submittal revised downward the estimated revenues, factoring in most current financial reports. The Office of Finance and Budget, along with the Special Economic Services and the Special Accounting Services work groups, independently reviewed the additional information and concur that a reduction in revenue estimates is necessary.

To manage the gap between the adopted revenue estimates and the actual revenues collected during Fiscal Year 2010, the Administration has determined its priorities for the various departments and agencies by the implementation of a reserve allotment schedule for the expenditures of the appropriations approved in the Fiscal Year 2010 Budget.

The revised revenue estimates correspondingly require an adjustment in the budget allocations for all departments and agencies receiving support from the General Fund from the levels presented in the Administration's Fiscal Year 2011 budget submittal. While challenged with this task, *I Liheslaturan Guåhan*, in arriving at the funding levels contained herein, is guided by the priorities of the Administration as reflected in its reserve of the allotment released of the authorized appropriations for Fiscal Year 2010.

Section 2. Appropriation. The amounts specified in the Summary of Base Operational Appropriation in Subsections (a) through (dd) are hereby appropriated and authorized out of the General Fund, Special Funds and Federal Matching Grants-in-Aid, specified in the respective Summary of Base Operational Appropriation Funding Source, to the agencies, departments and offices in each Subsection for its operations in Fiscal Year 2011. This appropriation *shall* be expended in accordance with object class allocations outlined below.

(1) **Legislative Intent.** Ambulance Fee Schedule Implementation Plan. *I Liheslaturan Guåhan* recognizes the importance of working available ambulances for our community. Without the benefit of working available ambulances, the community is placed in a precarious situation and any time lost or delayed could result in a matter of life and death. The people of Guam should never be placed at risk due to non-functioning ambulances.

Currently, the Guam Fire Department (GFD) works in consultation with emergency room physicians and staff of the Guam Memorial Hospital (GMH) to respond to emergencies in the community. This partnership has worked to the advantage of both GFD and GMH.

I Liheslaturan Guåhan understands that GFD has in place an adopted fee schedule and is authorized to bill for its services, including ambulance services, which is deposited to the Fire, Life and Medical Emergency (FLAME) Fund. However, for numerous reasons GFD is unable to bill and collect accordingly.

The Fire, Life and Medical Emergency (FLAME) Fund is primarily used to support the operations of the GFD, including the repair and maintenance of ambulances. The collection of fees will ensure that working ambulances will be available and the threat of the lack of emergency services will be diminished.

I Liheslaturan Guåhan desires to implement a billing system as soon as practicable and wishes to authorize the GFD to enter into an agreement with third parties to accomplish this goal and immediately make available the revenues to the GFD to support its operations.

I Liheslaturan Guåhan finds there is an urgent need for the Guam Fire Department to have the ability to obtain grants in support of its operations. I

Liheslaturan Guåhan authorizes that one (1) full-time employee from the existing Guam Fire Department staffing pattern may be dedicated for grant writing purposes.

(2) Authority to Enter Into Agreement or Contract. Upon enactment of the Annual Appropriations Act, the GFD and the GMH *shall* immediately convene a Working Group to determine the feasibility of entering into a Memorandum of Understanding between GMH and GFD, in which GMH will be responsible for the issuance of bills for ambulance services provided by the GFD, receive and accept payments for such services and remit collections for deposit to the FLAME Fund. GFD is authorized to pay GMH from the collections an administrative fee for billing services rendered under the Memorandum of Understanding. *If* the Working Group determines such an arrangement is feasible, it *shall* be implemented by March 1, 2011.

If GMH is unable to enter into a Memorandum of Understanding, GFD shall issue an RFP for a third party administrator to act as an agent for GFD in billing and collection of fees for ambulance services.

(3) Appropriation from the FLAME Fund from the Ambulance Services Collection. The sum of Six Hundred Thousand Dollars (\$600,000) is hereby appropriated from the Fire, Life and Medical Emergency (FLAME) Fund to GFD Miscellaneous Object Category 290.

The BBMR *shall not* release allotments for expenditures of the appropriation in this Subsection, *if* the GFD does *not* have a Memorandum of Understanding with GMH or a third party administrator in place by March 1, 2011 for the billing and collection of ambulance services.

Section 7. The Government of Guam Competitive Wage Act of 2011.

(a) **Legislative Findings and Intent**. It is the finding of *I Liheslaturan Guåhan* that the government of Guam, as the largest employer on island, has a duty to examine and evaluate its human resources demands in the face of an ever-increasing global economy.

I Liheslaturan Guåhan finds that the government of Guam does not operate in a vacuum, but must compete with other employers, such as the federal and private sector, for the island's supply of professionals in all fields. As an organization, the government of Guam must ensure it has the necessary tools to address the increasing complexity of the government operations and changes in the economic environment of the island.

I Liheslaturan Guåhan recognizes that the proposed military buildup will result in the inflation of the price of commodities and services on the island, including the wages. As such, I Liheslaturan Guåhan plans to adopt a proactive approach in light of the recent exodus of professional staff, and the shortage of credentialed and experienced applicants due to the increasingly competitive job market. The delivery of government services occurs at the front lines and recruitment and retention of such employees is paramount to the delivery of services, particularly in light of the fact that the government of Guam has not changed its Unified Pay Structure in over eighteen (18) years.

The first phase adjustment of the Unified Pay Structure as proposed by the Department of Administration will affect approximately five thousand nine hundred twenty-nine (5,929) employees within the government of Guam. The estimated fiscal impact can be categorized as (1) the cost to bring employees who are below the minimum of the recommended salary ranges to the minimum of those ranges; (2) placing employees who are in the recommended salary range at the appropriate position salary range; and (3) for employees whose current salary is between the range minimum and midpoint; this is the cost of placing employees at the next highest step in the new salary range.

- (b) Implementation of the Government-wide Position Classification, Compensation & Benefits Study. The sum of Thirteen Million One Hundred Fourteen Thousand Five Hundred Ninety-six Dollars (\$13,114,596) is appropriated from the General Fund to the Department of Administration for the purpose of implementing the salary adjustments in Fiscal Year 2011, as recommended by the comprehensive Government-wide Position, Classification, Compensation and Benefits Study Plan, conducted by the Hay Group, Inc. pursuant to Section 13 of Public Law No. 29-52, and the Governor's Executive Order No. 2006-21. This appropriation precedes transmittal by I Maga'lahi to I Liheslatura of a final, implementable Plan to adjust compensation, classification and benefits; and notwithstanding any other provision of law or this Act, this Subsection (b) shall be effective only upon formal adoption by I Maga'lahi of a Plan consistent with the Hay Group, Inc. recommendations and consistent with this Act.
 - permanent classified personnel filling authorized full-time equivalent (FTE) positions, as approved in the department or agency's Fiscal Year 2010 budget, or under this Act, and as recommended in the Comprehensive Government-wide Positions, Classifications, and Benefits Study Plan pursuant to Section 13 of Public Law 29-52, and Executive Order 2006-21. It is the intent of *I Liheslaturan Guåhan* to *not* include position(s) such as unclassified personnel, limited term appointees or any personnel under non-permanent status, as part of the Government-wide pay adjustment authorized herein, and to disallow the use of the funds appropriated in Subsection (b) of this Section for such use.

- Section 8. Appropriation to Department of Mental Health & Substance Abuse. The sum of Fifty Thousand Dollars (\$50,000.00) is appropriated from the General Fund to the Department of Mental Health and Substance Abuse for the OASIS Empowerment Center for Women Alcohol Substance and Homeless Program. This appropriation is *not* subject to any transfer authority.
- Section 9. Public Law 30-55, Section 8 of Chapter X is amended to read

 "Section 8. Appropriations to Traditions About Seafaring Islands (TASI).

 The sum of One Hundred Thousand Dollars (\$100,000) is appropriated from the General

 Fund to the Guam Visitors Bureau for the operations of the Traditions About Seafaring

 Islands (TASI)."
