#### II. TESTIMONY & DISCUSSION

Chairman Michael San Nicolas: We do have a large turnout for Bill 87 and, in consideration for the individuals who are here for Bill 118, I would like to ask them to go first; if we could accommodate them, that way they can get their business done and we can move forward with Bill 87.I'd like to go ahead and call forward Lucia Perez, Phil Tydingco, Steve Ignacio and, with a short presentation, Rebecca Respicio and Audry Topasna. I would like to give some time to the author of the bill to go ahead and do his presentation on Bill 188. Senator Rodriguez.

Senator Dennis Rodriguez, Jr.: Thank you, Mister Chariman, and thank you for having this public hearing. The intent of this legislation is to give servers and sellers of alcoholic beverages basic knowledge and understanding of their responsibilities under the law. This legislation specifically calls for training to be conducted by non-profit organizations like GCC, for example. As an educational institution specializing in workforce training and skills development, they have a proven track record and can be trusted to but responsibility, training and public safety ahead of profits. Point of sale employees, whether at a bar, restaurant, supermarket, mom and pop store, gas station or other retailer, are the first line of defense against underage drinking, DUI and public intoxication; problems that eat up precious time of the police, prosecutors and the courts. What happens at the point of sales is, perhaps, the most crucial link in a more effective, community-wide partnership to make Guam safer and more enjoyable for all who live and visit here. To date, point of sale workers have been mostly overlooked in this effort. They certainly have not gotten the support they deserve form the rest of the community to help them do a better job. Server/seller training addresses this oversight. Server/seller training is a way to build confidence that the men and women our island has entrusted to dispense alcohol, whether by the glass or by the six pack. understand and comply with the responsibilities of their licensed occupation. Right now, because of the high number of alcohol related offenses our island experiences, especially those involving underage drinking, public intoxication and DUI, that confidence is lacking. Right now, there are different licensing standards for employees who serve at bars, clubs and restaurants then workers who sell at stores. This bill will level the playing field between these on-premise servers and off-premise sellers of alcohol by requiring all who serve and sell to be ABC-licensed alcohol employees. It will create parity among all workers who sell alcohol, no matter where they sell it. Efforts to ensure responsible sales and service are a natural fit with the existing "Drink Responsibly" campaign that various alcohol distributors promote. Point of sale employees are in a position to have substantial influence and impact on drunk driving, underage drinking and public intoxication, if they are properly educated and trained. Research has shown that training changes the attitudes of those serving or selling alcohol, and they are less likely to sell to someone who is underage or has already consumed too much. Historically, preventive education has been more effective and more cost-efficient than punitive actions, and responsible server/seller training is a proactive versus reactive or punitive approach to addressing alcohol-related problems. Additionally, the current process to get a Guam ABC card is complicated, cumbersome, time consuming, expensive and can be very frustrating. Applicants are required to get numerous government clearances that cost time and money. Yet, when all is said and done, all they receive for going through these hoops is a governmentissued card. Training creates added value to having a server/seller card. Currently, these licenses must be renewed every year. This legislation will make their licenses good for three years. Presently, licenses lack portability. The server that holds more than one job has to get a separate license for each place they work. They also have to go through the process of getting another license each time they change jobs. This legislation proposes to make licenses portable. One person, one license and it can be used to work at any establishment where alcoholic beverages are served or sold. Finally, the compliance and enforcement are not only cornerstones of successfully regulating the service and sales of alcoholic beverages but also key in efforts of ensuring a safer and more livable community. Upon development and implementation of the server/seller curriculum, and putting in the hands of a non-profit or government training entity such as those identified in this bill, ABC will be free of a purely administrative and bureaucratic task and become

better positioned to strengthen and fulfill its compliance and enforcement mission to the benefit of employees, employers, customers and the community at-large. Thank you very much, Mister Chair.

Chairman San Nicolas: Thank you, Senator Rodriguez. Miss Perez.

Ms. Lucia Perez: Good evening, Mister Chair, and Senators. I am serving as an appointed member of the Board. I do have history with the Board. I served as a former member. I took a couple of weeks off to rethink and regroup, and decide what I wanted to do and if I wanted to continue. With that decision, I'm going to continue on. One of the items we have been working on, with the previous Board and current Board and with the Senator's office and DYA and other members, is this bill. The Board members believe that this is a good bill. It also allows flexibility for our servers who will receive so, instead of becoming before the Board or before the Compliance Branch every year and having their license specific to one location, they can have it portable which gives them more opportunities to go out there and be a productive member of the community and also provide feedback to the community. There are some other items that we are looking into as already stipulated by the written testimony by the Director in terms of the number of days for implementation. We are asking that we take a look at that because it probably will take a little more than six months and, although you gave the administrator and the Board time to go through the curriculum, because of the number of the employees that are currently there. If we can complete that, then we'll be good but I would not want to say that we can stick to the timeline of the five months because when we roll out this project, I'd like to ensure that it's rolled out correctly and we give all existing and new servers the opportunity to get what is needed to come into compliance with this. From the Board members' perspective, this is a good bill. It's something that is long-awaited. It will help emphasize and help enforcement rules because then we not only leave the enforcement and compliance to just the employees of the Department of Revenue and Taxation but also all the individual employees, mangers, waitresses, servers out there. So, when you yourselves as parents, patrons or customers of these establishments go out there, or when your children who are under 21 go out to these sites, you will be more comfortable knowing that you've got servers who have been trained to spot and to know what to do and how to handle situations where alcohol is present. So, we believe this is a good bill. We would like to ask that you take a look at the implementation time so that it can be done properly but we support it.

**Chairman San Nicolas**: Thank you very much, Miss Perez. Officer Ignacio, I noticed that you check marked written testimony. Are you going to be reading that testimony for the record or do you have separate oral testimony?

Mr. Steve Ignacio: That is not necessary, sir.

Chairman San Nicolas: We will just go ahead and accept the written testimony. General Tydingco.

Mr. Phil Tydingco: Good evening. As you may or may not know, our office has been working with Senator Rodriguez on reviewing this bill. We support this bill. Any proactive and preventive measure is always helpful. As you may know, among our large categories and groups of cases the Office of the Attorney General has in the prosecutorial division, besides family violence, DUI is a big case group that we have. If I may share a little, I think that bills like this, which are proactive and provide the educational activities so that servers and all folks who sell alcohol, and I am especially pleased that we have identified cashiers; it's not simply the bars and restaurants. It's important that these stores and smaller establishments have that training too because, some of our evidence shows that, a great deal of those sales to folks that are clearly inebriated... for example, I have a case that I'm probably going to start in July, a homicide case in which the individual, who was in DUI court that morning, went out and got inebriated, bought the beer and killed a servicewoman, a motorcyclist going down the wrong side of the road in broad daylight. I think bills like this can have an impact and prevent, especially if we reach out to the stores where there are certain segments of our community who aren't patrons of, or not necessarily part of

the working class, middle class or people of a higher social economic status, to go to those establishments and buy alcohol. A great deal of that is done in those stores and establishments and this bill reaches those people. I think it is really important so I commend the Senators who are authors of this and supporters of this and we urge you to pass this bill.

**Chairman San Nicolas**: Thank you, General. You three are good to go unless there are any questions from any members of the panel; any members for these three? No. Thank you all very much. Audrey and Rebecca, are you two ladies ready to go? If I may ask that you attempt to keep this presentation within the five minute consideration timeline, please. Thank you.

**Ms. Rebecca Respicio**: I am a program coordinator with the Department of Youth Affairs and also a EUDL coordinator, which is the Enforcing Underage Drinking Laws grant. Additionally, I am also an RBS trainer.

**Ms. Audrey Topasna**: I am the Underage Drinking Prevention coordinator with the Guam Behavioral Health and Wellness Center.

#### (Ms. Respicio and Ms. Topasna make a Power Point presentation)

Ms. Respicio: We are here for obvious reasons. We work in the field of prevention and we have been working on establishing an RBS campaign here locally. Everyone knows the data and why there is a problem on our island, and Senator Rodriguez read the need for this kind of law and mandate. We fully support this RBS campaign because we feel there is an important responsibility that businesses do have. Businesses have a role in their community beyond providing goods and services to their customers. They have a responsibility to enforce laws here on island just like us as citizens. What we did was, in an effort to bring awareness to the community about the importance of an RBS training on Guam, we have a EUDL grant which enforces underage drinking laws locally and, in an Office of Juvenile Justice and Delinquency (OJJD) report, one of the high priority strategies was to educate merchants on the techniques and responsibilities. The effectiveness of that was that there is an effect in itself but that we recognize that there must be other efforts within our community that will tie into that which is why compliance checks are very important. That is something that we do work on. One thing that we do bring to the table is where it came from and as much as what we're doing. The U.S. Department of Justice has an office of OJJD Prevention which did create an Underage Drinking Enforcement Training Center. Locally, we have seven people who are trained by the Pacific Institute for Research and Evaluation (PIRE). We have only had a couple of trainings and we'll talk about the effectiveness of the trainings and how the participants felt. We had little to zero resistance from them, seeing how important this is for our community. Everyone who is trained does get certified by the DOJ because it is endorsed and recognized and that's important.

Ms. Topasna: I'm going to share with you a little about the two trainings we conducted on Guam. We held one in April and one in May. This is a glimpse of the different materials that each participant and establishment receives when they attend the trainings. They receive a bar sign, a door sign, a pin and also this packet that we have here. Out of the two trainings we held, there were 36 participants were trained and certified in RBS. The 36 represented 16 different establishments. Whenever we conduct training, we collect feedback from the trainees. That helps us identify areas to improve for success and sustainability. We wanted to share with you the highlights as to why the training is needed and wanted by these sellers. We asked our trainees if the materials presented would be useful to their daily situations at work. 64% strongly agreed, 36% agreed; slightly agreed and slightly disagreed were 0%. It was all positive. We asked if they would recommend the training to anyone. 92% said they strongly agreed that they would recommend this to others, 8% said they agreed. We asked how useful the information was. 83% said very useful and 17% said it was useful. Lastly, how satisfied were you with the overall quality of this training. 81% said that they were very satisfied and 19% said that they were satisfied. This indicates a want and a

need for this alcohol server/seller intervention training. You are hearing straight from the individuals that will have to go and obtain the alcohol license. We wanted to point out that Guam is not the first, and definitely not the last, to mandate alcohol server/seller intervention. In the U.S., over 35% of the states already mandate this training. You will see that the blue states already mandate it. The ones in purple are mandated and have volunteer trainings. The ones in pink have volunteer trainings. Overall, 73% of the states are implementing these alcohol server/seller trainings. This information is provided by the Alcohol Policy System. It is a project of the National Institute on Alcohol Abuse and Alcoholism. To reduce alcohol abuse and underage drinking requires a multi-strategic approach such as implementing individual and environmental level interventions. Individual would be school base or family based programs. Environmental level interventions include raising the price of alcohol, increasing the minimum drinking age and including alcohol server/seller intervention. Our island has dealt with far too many alcohol related motor vehicle crashes, family violence, cancer and suicide. We must continue to improve on Guam's environmental intervention and the passage of Bill 118 would be another significant environmental impact towards having a healthier and safer community.

**Ms. Respicio**: We just wanted to let you know of the other stakeholders: DYA; the PEACE Office from GBHWC; Sanctuary, Inc.; the Office of Public Safety at DPW; community volunteers, the NCD Consortium at DPHSS. We are in full support of this. It is something we had envisioned and hoped for. This mandate is going to help us educate the community and we, as government entities, also want to provide our support with that. We are open to sitting down and discussing how we can support and launch when this gets into law. We wanted to show you a commercial that has been playing about our RBS campaign. Additionally, it is a result or spin-off of our One Nation Alcohol-free campaign. Although we are in the field of prevention and recognize the need to promote an alcohol-free lifestyle, we also recognize the need to enforce the laws created to help keep our island safe. Once again, we support this and thank you for steeping up and being brave enough to try and make changes for our community.

#### (a short video is shown)

**Chairman San Nicolas**: Thank you very much for making the time. Please provide us a copy. We appreciate you expediting it. We want to give it our full consideration. Senator Aguon.

**Senator Frank Aguon, Jr.**: Thank you, Mister Chairman. I know that you glanced through it initially and it was part of your video clip but 17.7% of adults are binge drinkers and 22.8% of teenagers under 18 have access to alcohol. Despite the excellent presentation and the support for this legislation, that says why we need to move forward with legislation such as this. When 22.8% of individuals under 18 can access alcohol, then there's a challenge out there and we need to address it.

Chairman San Nicolas: Vice-Speaker Cruz.

**Vice Speaker Benjamin Cruz**: I send a FOIA request for federal grants from DYA, and I noted that you have a couple hundred thousand dollars left in EUDL funds and your grant is going to expire...

Ms. Respicio: We have an extension.

Vice Speaker Cruz: I just wanted to make sure that you had a plan to spend that money because I don't want that money being returned to the federal government.

Chairman San Nicolas: Thank you. Senator Rodriguez.

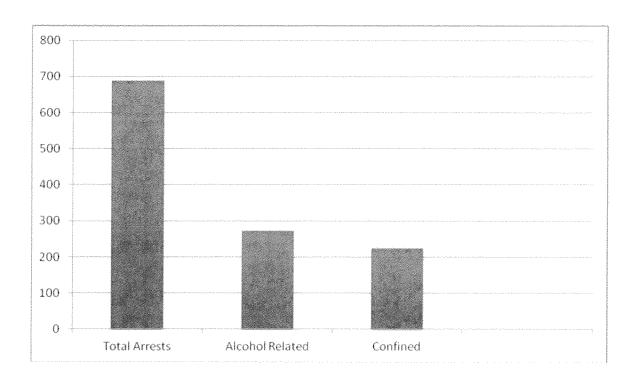

**Senator Rodriguez**: I just want to thank you for coming down and doing what you're doing. Even without this measure, you are already starting it. By mandating it, it will expand it and it does what it is intended to do.

**Chairman San Nicolas**: Thank you very much and thank you to all who came to testify on Bill 118. The hearing has now concluded.

#### III. FINDINGS AND RECOMMENDATIONS

The Committee finds that From January 1<sup>st</sup> through March 31<sup>st</sup> of this year 39% of all arrests by the Guam Police Department were alcohol related. Of all persons charged with alcohol related offenses at the time of their arrest 82% had to be confined.

Arrests by GPD Jan 01 through Mar 31, 2013

Total Arrests: 685

Total Arrests with Alcohol Related Charges: 268 Total Number of Those Arrestees Confined: 220

The Committee further finds that varied constituencies throughout our community have acted individually and together to address alcohol linked problems.

- **Lawmakers** raised the drinking age to 21 and reduced hours of operations for bars on weekends:
- **Regulators** enforcement actions such as Operation Dragon have highlighted the need to follow alcohol related laws;

- Law Enforcement driver check points and DUI messaging campaigns;
- **The Judiciary** stricter sentencing, increased fines, license revocations, DUI court, and mandatory treatment programs;
- **Schools** classroom discussion and lesson units at all levels: elementary, middle, high school, and college;
- Public Health Officials –awareness campaigns;
- Government, Faith Based and Secular Community Organizations Working Together public awareness campaigns, counseling, programs that specifically target youth, have been aided by the Non Communicable Disease Task Force, and other community partners;
- Private Sector –messages about responsibility in advertising by the adult beverage industry;
   access to confidential evaluation and counseling through Employee Assistance Programs and insurance covered treatment options offered by employers across all industries

While all of these efforts represent a positive step forward, testimony provided at the public hearing indicates that the missing component in these efforts is standardized training for the men and women who serve and sell alcoholic beverages at bars, clubs, restaurants, supermarkets, and convenience stores.

The Committee finds that the transactions these employees conduct across a bar, at a restaurant table, or store checkout line appear simple and ordinary. But the reality is there is much more to what they do than just take an order or put items in a grocery bag and hand back some change.

Guam law requires that each of these workers be responsible for knowing the difference between real and fraudulent Identification. The law also says they are responsible for saying "no" to individuals who may already be intoxicated but want to drink more.

The transactions these store clerks, bartenders and table servers conduct can have extraordinary, unintended, and even tragic consequences at the point sale and beyond. These workers are being asked to fill a vitally important role in keeping our island safe and livable.

As such, Guam law has given these workers the power to sell or deny the sale of alcoholic beverages; allow or deny entry to establishments that serve alcoholic beverages. These workers are at ground zero, the place where efforts to combat alcohol linked criminal and social problems should begin. The workers who serve and sell alcoholic beverages must be fully included in the existing community wide effort to combat alcohol-related crime, social, and health problems. This can be achieved by requiring that all people who serve or sell alcoholic beverages and who manage or supervise those servers and sellers successfully complete an approved responsible server/seller training course.

The Committee finds that server training has been demonstrated to change the attitudes of those serving or selling alcohol, making participants less likely to sell to someone who is underage or has already consumed too much. Responsible server/seller training is a proactive vs. reactive or punitive approach to addressing alcohol related problems.

Today it is not necessary to complete an approved training course to serve or sell or alcoholic beverages in Guam, nor is it necessary to complete a training course to supervise or manage those employees. The measure as proposed will also allow trained ABC servers increased portability of their license beyond any single location. The measure will also extend the term of licenses from 1 to 3 years.

Based on the Public Hearing held for the measure, consultation with various community stakeholders and experts; the Committee has included the following revisions in Substitute Bill 118-32(COR):

- The measure has been revised to permit the operation of a qualified server training program by a government entity. (page 4, line 11)
- Community stakeholders must now be consulted in the drafting of regulations pursuant to this measure. (page 4, line 16-18)
- Licensure fees collected beyond the cost of the training program must be deposited to the Alcoholic Beverage Compliance Fees and Fines Fund. These funds *must* be used to promote the compliance and enforcement of liquor laws. (page 5, line 7-12)

The Committee on Aviation, Ground Transportation, Regulatory Concerns and Future Generations hereby reports out Bill No. 118-32(COR), as substituted by the Committee on Aviation, Ground Transportation, Regulatory Concerns and Future Generations, with the recommendation To REPORT ONLY.

AN ACT RELATIVE TO ALCOHOL BEVERAGE CONTROL, TO BE KNOWN AS "THE RESPONSIBLE ALCOHOL SALES AND SERVICE ACT", BY ADDING NEW §§ 3123, 3124 AND 3125 TO ARTICLE 1, CHAPTER 3, 11 GCA; TO AMEND § 3207, AND ADD §§ 3212.1, 3230, 3231, AND 3232 TO ARTICLE 2, CHAPTER 3, 11 GCA; TO AMEND 11 GCA §3613; AND, ADD A NEW (a) TO §2105, ADD A NEW (b) TO §2107, AND ADD A NEW §2111, ALL OF 3 GAR CHAPTER 2 [ALCOHOLIC BEVERAGE CONTROL BOARD].

#### BE IT ENACTED BY THE PEOPLE OF GUAM:

Section 1. Legislative findings and intent. *I Mina'Trentai DOS Na Liheslaturan Guåhan* finds hundreds of bars, clubs, stores and restaurants across the island engage in the sale and service of alcoholic beverages thousands of times a day. For the individuals and corporations that hold these licenses the sale of alcoholic beverages can be a very lucrative business. These license holders also play a key role in the hospitality and retailing sectors of Guam's economy, providing jobs for our people and tax revenue for the government.

The privilege to sell alcoholic beverages also comes with certain responsibilities, including adherence to the rules and regulations the government enacts to protect the health and safety of all who live and visit here.

I Mina'Trentai DOS Na Liheslaturan Guåhan also finds that there is abundant statistical and anecdotal evidence pointing to unacceptably high levels of criminal and societal problems that can be traced to the irresponsible sale, service, and consumption of alcoholic beverages.

l

This evidence includes arrest data provided by GPD and the published results of unannounced and undercover enforcement actions conducted by ABC that shows there are many employees, both those who are licensed by ABC and those who are not ABC licensed, who routinely ignore, willfully violate, or fail to understand their legal responsibilities when serving or selling alcoholic beverages.

High on the list of complaints are service to minors, after hour sales, and sales to intoxicated individuals at both on-premises and off-premises licensed establishments.

I Mina'Trentai DOS Na Liheslaturan Guåhan finds further that there is growing public impatience with people who consume alcoholic beverages outside off-premise licensed stores and other public places where the consumption of alcoholic beverages is prohibited at all hours of the night and day.

I Mina'Trentai DOS Na Liheslaturan Guåhan finds that there is also great public concern about persistent problems such as drunk drivers who injure and/or kill people on our roadways; intoxicated individuals involved in assaults, fights, stabbings, shootings or other crimes, and underage drinking; including instances where these problems can be traced back to the irresponsible sale and service of alcoholic beverages.

There have been many efforts to combat these problems from both the public and private sectors of the community, but yet these problems still negatively impact the quality of life for those who live here and tarnish our island's reputation in the eyes of Guam's visitors.

I Mina'Trentai DOS Na Liheslaturan Guåhan finds that generally these alcohol enforcement programs overlook the importance of the proper education

and training of point of sale employees, both servers and sellers, their supervisors and managers.

Service.

It is the intent of *I Mina'Trentai DOS Na Liheslaturan Guåhan* to provide for the proper education and training of point of sale employees, both servers and sellers, their supervisors and managers, by joining the dozens of other U.S. states that mandate responsible server/seller training for workers who serve or sell alcoholic beverages, their supervisors, and managers.

It is the intent of *I Mina'Trentai DOS Na Liheslaturan Guåhan* to ensure that those licensed to serve or sell alcoholic beverages to the public, in particular holders of Class 4, 5, 6, 7, 9, 10, 11, and 12 ABC Licenses, have in their employ servers and sellers appropriately trained to comply with Guam's ABC laws.

Under the law employees who serve or sell alcoholic beverages have legally mandated responsibilities including but not limited to preventing the sale of alcoholic beverages to persons under 21 years of age, recognizing falsified identification documents, denial of service to intoxicated or unruly person, and the enforcement of hours of service and sale of alcoholic beverages.

The legislature recognizes that these employees are being asked to fill a vitally important role in keeping our island safe and the transactions they conduct can have extraordinary and even tragic consequences at the point of sale and beyond, yet there is no standardized classroom training to help them understand and execute their responsibilities or keep them mindful of the key role they play in the upholding of community standards related to the service and sale of alcoholic beverages.

It is the intent of *I Mina'Trentai DOS Na Liheslaturan Guåhan* for standardized server/seller classroom training to be widely available and easily accessible for employees who serve or sell alcoholic beverages workers and for that training to be a requirement for obtaining an ABC Alcohol Employee License.

**Section 2.** A new §3123, §3124, and §3125 are added to Article 1 of Chapter 3, Title 11, Guam Code Annotated, to read:

AN ACT RELATIVE TO ALCOHOL BEVERAGE CONTROL, TO BE KNOWN AS "THE RESPONSIBLE ALCOHOL SALES AND SERVICE ACT", BY ADDING NEW §§ 3123, 3124 AND 3125 TO ARTICLE 1, CHAPTER 3, 11 GCA; TO AMEND § 3207, AND ADD §§ 3212.1, 3230, 3231, AND 3232 TO ARTICLE 2, CHAPTER 3, 11 GCA; TO AMEND 11 GCA §3613; AND, ADD A NEW (h) TO §2105, ADD A NEW (c) TO § 2106, ADD A NEW (c) TO §2107, AND ADD A NEW §2111, ALL OF 3 GAR CHAPTER 2 [ALCOHOLIC BEVERAGE CONTROL BOARD].

#### BE IT ENACTED BY THE PEOPLE OF GUAM:

- Section 1. Legislative findings and intent. I Mina'Trentai Dos Na
  Liheslaturan Guåhan finds hundreds of bars, clubs, stores and restaurants across
  the island engage in the sale and service of alcoholic beverages thousands of times
  a day. For the individuals and corporations that hold these licenses the sale of
  alcoholic beverages can be a very lucrative business. These license holders also
  play a key role in the hospitality and retailing sectors of Guam's economy,
  providing jobs for our people and tax revenue for the government.
  - The privilege to sell alcoholic beverages also comes with certain

responsibilities, including adherence to the rules and regulations the government enacts to protect the health and safety of all who live and visit here.

*I Mina'Trentai Dos Na Liheslaturan Guåhan* also finds that there is abundant statistical and anecdotal evidence pointing to unacceptably high levels of criminal and societal problems that can be traced to the irresponsible sale, service, and consumption of alcoholic beverages.

This evidence includes arrest data provided by GPD and the published results of unannounced and undercover enforcement actions conducted by ABC that shows there are many employees, both those who are licensed by ABC and those who are not ABC licensed, who routinely ignore, willfully violate, or fail to understand their legal responsibilities when serving or selling alcoholic beverages.

High on the list of complaints are service to minors, after hour sales, and sales to intoxicated individuals at both on-premises and off-premises licensed establishments.

I Mina'Trentai Dos Na Liheslaturan Guåhan finds further that there is growing public impatience with people who consume alcoholic beverages outside off-premise licensed stores and other public places where the consumption of alcoholic beverages is prohibited at all hours of the night and day.

I Mina Trentai Dos Na Liheslaturan Guåhan finds that there is also great public concern about persistent problems such as drunk drivers who injure and/or kill people on our roadways; intoxicated individuals involved in assaults, fights, stabbings, shootings or other crimes, and underage drinking; including instances where these problems can be traced back to the irresponsible sale and service of alcoholic beverages.

There have been many efforts to combat these problems from both the public and private sectors of the community, but yet these problems still negatively impact the quality of life for those who live here and tarnish our island's reputation in the eyes of Guam's visitors.

I Mina'Trentai Dos Na Liheslaturan Guåhan finds that generally these alcohol enforcement programs overlook the importance of the proper education and training of point of sale employees, both servers and sellers, their supervisors and managers.

It is the intent of *I Mina'Trentai Dos Na Liheslaturan Guåhan* to provide for the proper education and training of point of sale employees, both servers and sellers, their supervisors and managers, by joining the dozens of other U.S. states that mandate responsible server/seller training for workers who serve or sell alcoholic beverages, their supervisors, and managers.

It is the intent of *I Mina 'Trentai Dos Na Liheslaturan Guåhan* to ensure that those licensed to serve or sell alcoholic beverages to the public, in particular holders of Class 4, 5, 6, 7, 9, 10, 11, and 12 ABC Licenses, have in their employ servers and sellers appropriately trained to comply with Guam's ABC laws.

Under the law employees who serve or sell alcoholic beverages have legally mandated responsibilities including but not limited to preventing the sale of alcoholic beverages to persons under 21 years of age, recognizing falsified identification documents, denial of service to intoxicated or unruly person, and the enforcement of hours of service and sale of alcoholic beverages.

The legislature recognizes that these employees are being asked to fill a vitally important role in keeping our island safe and the transactions they conduct can have extraordinary and even tragic consequences at the point of sale and beyond, yet there is no standardized classroom training to help them understand and execute their responsibilities or keep them mindful of the key role they play in the upholding of community standards related to the service and sale of alcoholic beverages.

It is the intent of *I Mina'Trentai Dos Na Liheslaturan Guåhan* for standardized server/seller classroom training to be widely available and easily accessible for employees who serve or sell alcoholic beverages workers and for

- that training to be a requirement for obtaining an ABC Alcohol Employee License.
- Section 2. A new §3123, §3124, and §3125 are added to Article 1 of Chapter 3, Title 11, Guam Code Annotated, to read:
- "§ 3123. Alcohol Employee. Alcohol employee means a person employed by any on-sale or off-sale Licensee who sells or serves alcoholic beverages, or who supervises others who sell or serve alcoholic beverages. This includes, but is not limited to, bartenders, waitresses, waiters, hostesses, hosts, cashiers, check out clerks, supervisors, and managers of holders of Class 4, 5, 6, 7, 9, 10, 11, and 12 ABC Licenses.
  - § 3124. Alcohol Server/Seller Training Program. Alcohol server/seller training program means a classroom only educational program offered by a non-profit organization, entity of the Government of Guam, community college, or university that has been approved by the Administrator under regulations promulgated by the Board. Such regulations *shall* include, but not be limited to, the content of the program, certification of instructors of the program, and testing and methods of presentation, and as further provided pursuant to 3 GAR Chapter 2 [Alcoholic Beverage Control Board]. The Board, in drafting such regulations, shall consult with community stakeholders and shall comply with the Administrative Ajudication Act.
  - **§3124.1. Delegation of Authority.** (a) The Administrator, with the approval of the Board, may enter into an agreement with a non-profit organization, community college, or university with an authorized program to conduct an Alcohol Server/Seller Training program on behalf of the Board, to include:
    - (1) Verification of qualifications;

(2) The collection of fees for application and licensure, as provided pursuant to §3207 of this Chapter, on behalf of the Board,

21	"§ 3230. Alcohol Employee License.	

(a) An Alcohol Employee License shall be required for all persons who sell or serve, supervise or manage those who sell or serve alcoholic beverages for holders of Class 4, 5, 6, 7, 9, 10, 11, and 12 ABC Licenses.

- (b) A Temporary Alcohol Employee License may be issued to an employee who has registered for an ABC Board approved Alcohol Server/Seller Training Program. The Temporary Alcohol Employee License expires in 30 days or when the Alcohol Employee License is issued, whichever is sooner.
  - (1) A dated receipt from an ABC Board approved Alcohol Server/Seller Training Program indicating enrollment and the scheduled date, time, and location of training shall be considered a Temporary Alcohol Employee License. The receipt shall also state, "Temporary Alcohol Employee License", and shall contain the notation that the temporary license *shall* expire within thirty (30) days of issuance.
- § 3231. Manager License. An Alcohol Beverage Control Manager License shall be required for all managers or assistant managers. Every manager must provide the Board and their employer with proof that the manager has successfully completed an ABC Board approved Alcohol Server/Seller Training Program. Proof for the employer shall be satisfied by the possession of a valid Alcohol Beverage Control Manager or Assistant Manager License which shall include the declaration, that the holder has completed and ABC Board approved "Alcohol Server/Seller Training Program.
- § 3232. Alcohol Server/Seller Training Program License. An Alcohol Server/Seller training program license shall be issued to alcohol server/seller training programs that have been approved by the administrator."
- SECTION 6: Section 3613 of Article 6, Chapter 3, Title 11, Guam Code
  Annotated, is amended, to read:

### "§ 3613. Same: Hearing.

- (a) The Board, upon receipt of the report required in §3612, shall, as soon as practicable, hold a hearing on such report.
  - (b) The Board shall impose a penalty on a licensee found guilty of violating any of the provisions of this Chapter amounting to One Thousand Five Hundred Dollars (\$1,500.00) for the first offense; Two Thousand Five Hundred Dollars (\$2,500.00) for the second offense; and Three Thousand Five Hundred Dollars (\$3,500.00) for the third offense. For the fourth offense, the Board may impose a penalty of up to Ten Thousand Dollars (\$10,000.00), but not less than Five Thousand Dollars (\$5,000.00), and a forty-eight (48) hour suspension for every subsequent offense. Contingent on the severity of any violation, the Board may use its discretion and suspend or revoke the license of any licensee found guilty of violating any of the provisions of this Chapter.
  - (c) In addition to the aforementioned fines in Subsection (b) of this Section, the Board shall suspend, for a period of not less than thirty (30) days and no more than ninety (90) days, the license of any licensee found guilty of violating §3413 of this Chapter as a second offense. The Board shall revoke the license of any licensee found guilty of violating §3413 of this Chapter as a third offense.
  - (d) The Board shall suspend an Alcohol Employee's license for Seven (7) days for a first offense of §3212.1(c) and (d), and/or §3230, of this Chapter; A suspension of an Alcohol Employee's license for Fourteen (14) days and a One Hundred Fifty Dollar (\$150) fine for a second offense, and revocation of the employee's Alcohol Employee Server/Seller Training Card for the third offense."
  - **Section 7:** A new Subsection (h) is added to §2105 of Chapter 2, Title 3, Guam Administrative Rules and Regulations, to read:

- "(h) Class 4, class 5, class 6, class 7, class 9, class 10, class 11 and class 12

32<sup>nd</sup> Guam Legislature

Buenas yan Hafa Adai! On behalf of the men and women of the Guam Police Department (GPD), we hereby strongly support the intent of Bill 118-32(COR): to have an standardized server/seller classroom training to be widely available and easily accessible for employees who serve or sell alcoholic beverages and for that training to be a requirement for obtaining an ABC Alcohol Employee License.

Last year, the Guam Police Department, in coordination with the Department of Public Health and Social Services, had made significant progress in apprehending individuals who sell liquors to minors. GPD and ABC investigators conducted the "Operation Dragon," where investigators covertly appear at selected bars to observe if there are minors who may be consuming alcohol, verify their identification, then identify the Server/Seller. As soon as a minor is identified, the result could be a fine or temporary closure pending further investigation by the Public Health.

Today, it is a regular scene to see a licensed drinking establishment hosts a fundraiser for a community organization, a baseball team, a medical fundraiser or a class reunion and I am sure that there have been minors that patronize the establishments.

This Server/Seller training will provide trained and qualified workers at bars, night clubs, restaurants and retail stores. They will be able to spot fraudulent identifications when carding to prevent minors from purchasing alcohol at their establishments. Trained and qualified workers

will also be able to spot signs of heavy intoxication and deny service and to follow the laws and regulations. This will surely have a tremendous impact and will have fewer impaired drivers on our road.

Lastly, Mr. Chairman, it is my recommendation that this Server/Seller training require that the students take an exam and must pass.

Thank you for the opportunity to provide comments on this very important and critical legislation.

#### Dear Senator San Nicolas:

My name is John P. Camacho. I am the Director of the Department of Revenue and Taxation. I am neither in favor nor against Bill No. 118-32.

My understanding of Bill 118-32 is that this bill proposes to mandate alcohol server training for both on sale licensees and off-sale licensees. An on sale license entitles the licensee to serve customers to consume alcoholic beverage within the premises of the business establishment. An off-sale license allow consumers to buy but not to consume alcohol beverages within the premises of the business establishment.

Alcohol server training is a form of <u>occupational education</u> typically provided to servers, sellers and consumers of <u>alcohol</u> to prevent <u>intoxication</u>, <u>drunk driving</u> and <u>underage drinking</u>. Our information indicates that fourteen (14) states mandate alcohol service training. Around sixteen (16) have some form of voluntary alcohol server training. The remainder do not regulate alcohol server training at all.

Establishments that train their employees benefit by reducing risk and creating a safer, more responsible work environment. The training can be used to mitigate <u>liability</u> during a <u>lawsuit</u> involving intoxication by providing evidence of intent on the part of the establishment that serves and sells alcoholic beverages - a "reasonable efforts defense." In addition, this training can possibly lower <u>liquor liability insurance</u> premiums

Effective training will enhance the fundamental people skills of servers, sellers, and consumers of alcohol. At the same time, the training should help individuals understand the difference between people enjoying themselves and those who are getting into trouble with alcohol consumption. Employees and manager who participate in this training are generally able to spot underage drinkers and prevent sales to minors, recognize signs of intoxication, effectively intervene to prevent problem situations, and handle refusal situations with greater confidence.

Some states mandates alcohol server training in classroom by certified trainers. Some states allow online alcohol server training. Some require different training for employees that sell for licensees with off sale license such as restaurants, bars, hotels and night clubs and another type of training for those that sell off sale or off premises such as grocery stores, liquor stores, or convenience stores, etc. It is our observation that Bill 118-32 makes no distinction for requiring alcohol service training for those selling alcohol beverages for both on sale and off sale licenses.

Our office is not aware if there are schools, colleges or universities that provide alcohol server training. To draft regulations, conduct public hearing and have the alcohol server training regulations be approved by the Guam Legislature may take more than six (6) months. Bill 118-32 does provide a transition period. However, we are not sure if at the end of this transition period, the regulations shall be in place.

We suggest the active involvement and participation of the public high schools particularly those with culinary arts program, the Guam Community College and including the University of Guam to offer alcohol server training as an elective subject to make this program work. The reason for the high school participation is to educate the youth particularly those below twenty one (21) years old the consequences of alcoholic consumption and for those above twenty (21) years old the need for moderate consumption for health and wellness reasons.

Given this huge task, our Regulatory Division, particularly the Compliance Division – which is down to four (4) inspectors - will not be able to contribute to this program due to lack of Compliance Inspectors and equipment to conduct the inspection. For this program alone, we need at a minimum three (3) Compliance Inspectors and one motor vehicle. Otherwise, this mandate will remain just an unfunded mandate with no prescription for success.

Due to the above given reasons our office neither support nor opposes this bill.

Sincerely,

JOHN P. CAMACHO

RE: Bill 118-32 (COR) – An Act relative to Alcohol Beverage Control, to be known as "The Responsible Alcohol Sales and Service Act"

Dear Senator Rodriguez,

Once again, we laud you on your ongoing leadership for our island's healthier future! We, the physicians and staff of Health Partners, LLC submit this testimony in strong support of Bill 118-32 (COR) – An Act relative to Alcohol Beverage Control, to be known as "The Responsible Alcohol Sales and Service Act."

Our local data documents the high socio-economic and health costs of harmful alcohol use. Heavy alcohol use directly contributes to liver cirrhosis, the 10th leading cause of death on Guam. In addition, alcohol is implicated in some types of cancer, stroke, suicide, and motor vehicle accidents and can exacerbate diabetes – these comprise 5 of the top 10 causes of death in our island. Alcohol also contributes to 3 (liver, colon and rectum and nasopharynx for men; breast, colon and rectum and cervix for women) of the top 5 causes of cancer deaths on Guam for both males and females.

Alcohol use has been implicated in criminal arrests, motor vehicle crashes, violent crime including family violence and suicide. Alcohol-related offenses accounted for 8.6% of all juvenile arrests in 2011, up from 5.3% in 2010. Traffic accidents and "Driving under the influence" (DUI) arrests decreased from 2010 to 2011; however, the number of traffic-related fatalities increased. Alcohol was a factor in 27.3% of traffic-related fatalities in 2011 (Guam Epi Profile, 2013).

As Chair for Guam's State Epidemiological Outcomes Workgroup, I can testify that evidence-based policies to reduce harmful alcohol use work very efficiently in Guam. For instance, the adult binge-drinking rate in Guam was increasing until 2010, when it dropped for the 1st time since 2001. Likewise, the youth binge-drinking rate dropped in 2011. These positive changes followed the landmark law legislating an increase in the legal minimum age for alcohol consumption from 18 to 21 years. Guam's youth binge drinking rate also decreased in 2003, following the legislated increase in alcohol taxes (Guam Epi Profile, 2012).

The US Department of Health and Human Services in 2002 identified the following as effective community interventions to reduce the harmful use of alcohol:

- Increased enforcement of laws prescribing the minimum legal drinking age (21 years);
- Implementation, increased publicity and enforcement of other laws to reduce alcohol-impaired driving;
- Restrictions on alcohol retail density;
- Increased price and excise taxes on alcoholic beverages; and,
- Responsible beverage service policies on social and commercial settings.

Guam recently enacted laws that address the 1<sup>st</sup> and 3<sup>rd</sup> bullet points and Guam has existing laws that address the 2<sup>nd</sup> bullet point. Bill 118-32 addresses the 5<sup>th</sup> bullet point.

Research results on responsible beverage service (RBS) and sales are mixed; however, studies point out that the most effective programs are those that are mandatory, include owners and managers as well as servers, and where there is active and visible enforcement. In a review of research on strategies to reduce youth access to alcohol, the Institute of Medicine recommends, "States should require all sellers and servers of alcohol to complete state-approved training as a condition of employment" (2004).

Bill 118-32 will reinforce the existing policy interventions to reduce the tragic consequences of harmful alcohol use. Mandating it for both managers and sellers is consistent with evidence-based practice. To maximize its impact, the research recommends:

- A training curriculum that is comprehensive, with information on the social impact of alcohol as well as its impact on the body, local laws on alcohol, techniques to (1) prevent service or sales to underage persons and (2) cutting off service and refusing sales to intoxicated patrons; the curriculum should include a skills development component with role playing.
- The training should include management policy development to reduce alcoholrelated harm to patrons. For example, management can require staff to check IDs
  for anyone under 30 or adopt practices that promote a safer environment for the
  establishment such as barring intoxicated persons from entering the outlet. Drink
  specials and promotions such as "all you can drink," "two-fers," ladies night,
  happy hours and the practice of last call encourage patrons to consume higher
  quantities of alcohol, even to intoxication, especially if these discounts are time
  limited (Erenberg and Hacker, 1997). Owners can prohibit these practices in their
  own establishments. They can also take action to provide a safer environment in
  their establishment. For example, some establishments apply crowd control
  policies in the establishment and for those waiting to enter, adequate lighting in
  parking lots, restroom hallways, etc. Potential benefits and incentives include

- safer bars, less damage/vandalism, lower economic costs, lower liability risk, reduced rates of insurance, and increased community support and patronage.
- Training should last a minimum of 4 hours, and should be offered by reputable sources. Towards this end, consider stipulating that course providers must guarantee they do not receive funding or other support from alcohol-related industries and groups. This will avoid conflicts of interest and potential credibility gaps of the RBS providers.
- Periodic refresher or booster training is ideal; consider requiring proof of annual re-training as a condition for continuation of licensure.
- Since the Behavioral Health and Wellness Center (formerly DMHSA) and the Department of Youth Affairs already have the curriculum and capacity to conduct RBS training, consider including them in the list of acceptable RBS training providers.

If legislated this bill will complement and reinforce the recent laws raising the minimum legal age for alcohol consumption and reducing the hours of sales of alcoholic beverages. For the greatest impact on our community, consistent and strong enforcement of these laws is necessary.

Thank you for your continued championship of health-related public policies. We sincerely appreciate all that you do to improve our island's health and welfare.

Sincerely,

Annette M. David

#### ALCOHOLIC BEVERAGE SEVER/SELLER TRAINING FAQS

#### What is server/seller training?

Server/seller training is a proactive, preventative approach to reducing alcohol related crime and social problems. It standardizes and professionalizes alcoholic beverage sale transactions, it teaches basic understanding of ABC law including server's and seller's legal responsibilities, it also teaches skills that help workers better respond to customers at the point of sale of alcoholic beverages in bars, restaurants, and retail stores. Training involves one classroom session lasting 3-4 hours.

## Don't we already have many programs to address social and criminal problems related to alcohol? Why do we need another one?

Yes, over the years all three branches of government, community groups, and the private sector have sponsored initiatives with some limited success. But these efforts, particularly enforcement programs, have largely overlooked what happens at the point of sale. Whether serving or selling, point of sale employees and their managers are in a position to have substantial influence and impact on issues such as underage drinking, public intoxication, over-service, and DUI if they are properly educated and trained.

Historically preventative education training is shown to be more effective and more cost efficient than punitive actions. The goal of server/seller training is to have trained, qualified workers who follow the law when serving and selling alcohol; not to rely on the threat of fines, license revocations, or other sanctions as a means of achieving better compliance. Server/Seller training is a proactive and preventative approach to problem solving. It is about prevention instead of punishment.

There is evidence that training changes the attitudes of those serving alcohol and they are less likely to sell to someone who is underage or has already consumed too much. This results in fewer minors obtaining access to alcohol, reduced incidents of public intoxication, and fewer impaired drivers on the road.

#### Why is server/seller training needed?

Under Guam law, employees who serve or sell alcoholic beverages have legally mandated responsibilities, such as identifying underage buyers and recognizing false identification, denying service to intoxicated or unruly persons, observing opening and closing times, to name just some. The transactions these store clerks, bartenders, and table servers conduct can have unintended, and even tragic consequences at the point sale and, down the road.

These workers are being asked to fill a vitally important, frontline role in keeping our island safe. It is a huge responsibility. Yet they receive little to no support from the community. Standardized, formal training to help them fully understand their role in upholding both the law

#### So what does it cost?

Nothing. This legislation has been written so the cost of training comes out of the ABC licensure fee for servers and sellers.

## Doesn't server/seller training create a barrier or disincentive for people to enter the workforce?

No, and actually this legislation includes incentives for workers by making their ABC license portable, it currently is not. It also does away with annual renewal in favor of a three-year licensure period. Server/seller training teaches workers skills that are transferable beyond the hospitality or retail setting, especially when offered through a qualified workforce development entity. An example of this might be Guam Community College. Server/seller training is a means of professionalizing the hospitality and retail industry workforce to the benefit of workers and their employers.

#### Shouldn't server/seller training be voluntary?

Guam has relied on voluntary server/seller training for years, and unfortunately, it has just not worked.

- Voluntary training is sold year-round by GHRA, including at its annual PHARE. The training is contracted out to a for-profit company at a cost of \$85 per person to GHRA member employees and \$110per person to non-members.
- This year free voluntary server/seller training became available to hospitality and retail employees through the Department of Mental Health and Department of Youth Affairs. The first official training session attracted just 19 participants. This is a grant funded program with no clear sustainability or continuity plan should that funding not be renewed.

Bill 118-32 not only mandates training, but also requires that it be conducted in a classroom setting by a qualified educational institution or non-profit at minimal cost. It will be self-sustaining because the cost of training is paid for out of ABC Alcohol Employee licensure fees.

#### Why does it matter if servers and sellers are trained?

Serving/Selling alcohol is a job that almost anyone can get hired and start immediately with little to no training. Most servers are ignorant of liquor regulations and the liability and responsibility that goes with serving someone alcohol. Training can give them the knowledge and tools to be able to handle situations that occur with the service of alcohol.

Server/Seller training is a preventative approach. For example, instead of violating an alcohol employee AFTER they have already served an underage or intoxicated person, training can help reduce those incidents from ever occurring.

it of employees because having a staff that has completed server/seller training often translates to lower liability insurance rates and helps shield business owners from third-party lawsuits. In Guam the GHRA promotes server/seller training to its membership. This legislation will formalize and standardize training for employees of on-premise and off-premise ABC license holders.

#### Shouldn't server/seller training be voluntary?

Guam has relied on voluntary server/seller training for years, and unfortunately, it has just not worked.

- Voluntary training is sold year-round by GHRA, including at its annual PHARE. The training is contracted out to a for-profit company at a cost of \$85 per person to GHRA member employees and \$110per person to non-members.
- This year free voluntary server/seller training became available to hospitality and retail employees through the Department of Mental Health and Department of Youth Affairs. The first official training session attracted just 19 participants. This is a grant funded program with no clear sustainability or continuity plan should that funding not be renewed.

Bill 118-32 not only mandates training, but also requires that it be conducted in a classroom setting by a qualified educational institution or non-profit at minimal cost. It will be self-sustaining because the cost of training is paid for out of ABC Alcohol Employee licensure fees.

#### Why does it matter if servers and sellers are trained?

Serving/Selling alcohol is a job that almost anyone can get hired and start immediately with little to no training. Most servers are ignorant of liquor regulations and the liability and responsibility that goes with serving someone alcohol. Training can give them the knowledge and tools to be able to handle situations that occur with the service of alcohol.

Server/Seller training is a preventative approach. For example, instead of violating an alcohol employee AFTER they have already served an underage or intoxicated person, training can help reduce those incidents from ever occurring.

it of employees because having a staff that has completed server/seller training often translates to lower liability insurance rates and helps shield business owners from third-party lawsuits. In Guam the GHRA promotes server/seller training to its membership. This legislation will formalize and standardize training for employees of on-premise and off-premise ABC license holders.

1/ The Bureau anticipates increases to the government's revenue base through applicable fees established by §
3207 of Article 2, Chapter 3, Title 12 and penalties per Sect 3613(d) of Article 6, Chapter 3, Title 11 GCA. The
projected impact involves the number of businesses requiring training and applicable licenses relative to the
number of employees/mangers employed by such business less tuition fee. The Bureau has contacted the
Department of Revenue and Taxation; however, information has not been received as of these comments.
