II. COMMITTEE PROCEEDINGS

Chairman Vicente (ben) C. Pangelinan: Bill NO. 209-32, introduced by Speaker Won Pat is an act to amend Section 1 of Public Law 31-234, relative to extending the deadline to obligate or expend American Recovery and Reinvestment Funds I have signed up Ms. Taling Taitano, Mr. Marcus Pido, and the board chairman Dr. Jose Cruz. The Speaker is not here at this time, she introduced this bill at the request of the Department, then the Department will speak for the need of this bill.

(a) Testimony

1. Ms. Taling Taitano, GDOE Deputy Superintendent

Ms. Taitano: Thank you Senator Pangelinan, Senators, my name is Taling Taitano and I am the Deputy Superintendent at the Guam Department of Education (GDOE) and written testimony was filed in support of this bill. Back in September of this year we met with the U.S. Department of Education (USDOE) and noted some concerns in regards to possible protest effects and their ability to fully obligate the funds at this time and they agreed to extend the obligation date through January 2014. We would ask that the obligation date of the local legislation mirror that extension. Additionally, we would like to ask that bill be amended to allow us to use the interest balance on the trust to reinvest it in the projects.

PANEL COMMENTS AND QUESTIONS

Chairman Vicente (ben) C. Pangelinan: The interest amounts to about...

Ms. Taitano: About \$79,000.

Chairman Vicente (ben) C. Pangelinan: Ok. Dr. Cruz do you want to add to that?

2. Dr. Jose Cruz, GEB Chairman

Dr. Cruz: Mr. Chairman, thank you. My name is Dr. Jose Cruz and I am the Chairman of the Board of Education and I wholeheartedly support the extension. The federal people nodded to this but my question is really the expenditures to date. I don't see any accounting to where the ARRA grant was really expended. Ms. Taitano has been providing it but it is in general terms and I would like to see it, so it could be pointed out to the community, where in essence did the money go in the particular schools. I am interested in the schools because – I was just at the Governors office today about Simon Sanchez and if there was a repair at Simon Sanchez, what was really done and what was the specification of that repair? I come here really as a public person who is really interested in that public interest that I really feel wasn't made. In that regard, I can assure the legislature, as a board member that I would really be asking that it be more itemized for the sake of the people of Guam and for the sake of the community that's out there. I think if we inform the schools then their particular stakeholders can own that in their particular perspective and it would be very laudable if we can provide that. I don't think Taling will disagree but that was in light of

the latest cutting edge participation where Simon Sanchez receive ARRA grants and there were some dimensions of the grant that were really not honored. Secondly, the rejection of the public auditor is important to really know because we don't know – I'm sorry I'm haven't really looked into it because it hasn't been brought to my ear, but the cutting edge discussion this morning actually presents a more focused attention to really open that up because there are a lot of monies that were already granted and I thank the legislature to allow to put it in a trust fund. I think, the expenditure portion, for the people of Guam and for the stake holders is very important and you should be aware for your own – you know election is coming up – I'm not making it a political thing but really it is, if we stand publically out there in the community and money is very important and that is the major role of the legislature. I think accountability of the funds is most important and reporting of the funds out into the community and I assure you that I will request that accountability be presented to the board. Thank you for listening to me.

PANEL COMMENTS AND QUESTIONS

Chairman Vicente (ben) C. Pangelinan: Thank you. Ms. Taitano, I saw the report that was sent out today, just before this hearing, I opened that report and I agree with Dr. Cruz. It shows the projects but it didn't really break it down by school so that the stake holders at those schools may not be aware, either the parents or these students, of these projects that are being funded by the ARRA grants and so perhaps a greater and more detailed accounting be made available in that report. That can be given to the board and of course placed on the GDOE website so we can make that information available to the public.

The extension of the date is January 2014 and the USDOE has agreed to that date, is that correct?

Ms. Taitano: Yes, we have a letter from USDOE that I would be happy to provide.

Chairman Vicente (ben) C. Pangelinan: Can you do that so we can have a complete record for the other Senators when the committee report is filed. Senator Ada?

Senator Tom Ada: I guess somewhat of a follow on to Dr. Cruz's question, what is the amount that remains to be obligated? I'm just wondering, from the time the bill got introduced and then shortly after that there was this procurement issue regarding the security alarms that was around \$600K that now \$500K is under protest. Is that the balance that remains to be obligated? Can you clear that?

Ms. Taitano: We have about \$364K that was unobligated that we were hoping to use as a contingency for ongoing projects, the Untalan projects have some civil work that is required and until they dig into the ground it's hard to know if there might be extra work involved. We were hoping it is less than 1% of the \$60M. The OPA recently voided a contract for the Southern fire alarm and sprinkler system and that was about \$500K.

Senator Tom Ada: So, with this extension is GDOE looking to reprogram that \$500K or are you hoping that GDOE will actually be able to recover from the protest of that particular contract?

Ms. Taitano: I spoke to the Superintendent before I came here and we want to look at all of our options. There are certainly many projects that went unfunded because we had limited amount of money and I think he wanted to look at where it would make sense to put it.

Senator Tom Ada: If GDOE was going to pursue this procurement with the alarm system, although the OPA has thrown it out - Mr. Peto have you looked at the time line as to whether 30-days is going to be sufficient to be able to recover from that or will GDOE chalk it off as a loss and reprogram the funds for something else?

3. Mr. Marcus Pido, GDOE Procurement Administrator

Mr. Pido: As Ms. Taitano alluded to, we need to look at our options, but it's possible because this is still a pending appeal. The decision from the OPA was whether a 'stay' was in place and the decision was a 'stay' remained in place and so the signing of the contract is voided but there is still the case of the appeal on the merits of an appeal. Depending on how that is ruled, we may be forced to go back and re-evaluate that bid. Other than that, the Superintendent will make that decision on where that will go, on the spending of the money.

Senator Tom Ada: Ok. I'm just concerned that there is still this ongoing process in trying to sort out this protest and by the time it gets sorted out, one way or the other, January 31st is going to roll around. If the case was to rebid it – quite frankly I'm not optimistic that GDOE can recover from this whole situation. Can GOE at this point say, 'We're pulling out we're going to void any bid that may be put out and then move on to another project,' or are you on the hook now? On the hook so that you have got to go through the process and if it doesn't get resolved until after January 31st, it is going to have to be local funds to pay for that.

Ms. Taitano: I can't speak to the specifics of that procurement but we do have two indefinite quantity bids that were used for this project. One was for air conditioners and one was to extend wireless connectivity through out the schools. Both of those projects needed additional funding and we have a mechanism to add to them so if push comes to shove and we ran out of time, which is what was sort of the plan before we knew we were going to get the extension, if the extension had not been granted we would have put the \$364K into one of those projects.

Senator Tom Ada: But you still have the pot of about \$500K, right?

Ms. Taitano: Right. And both those projects together would need more than that if we wanted to do the maximum plan. If we wanted to do it as planned then both projects would need more than the money available.

Senator Tom Ada: Mr. Pido, as the procurement administrator for GDOE, does GDOE have the option to unilaterally pulling out of this protest and saying 'that's it, we're not going to go forward with any procurement of alarm systems?' and take that money now and reprogram it to something else that we also know is needed?

Mr. Pido: I think our legal counsel will be better able to answer that. I'm not sure of the jurisdiction of the OPA at this point and her pending her review on the merits of the appeal and where we will be directed to go in her decision. That is certainly one of the options we are considering. As Ms. Taitano alluded to, we do have indefinite quantity bids that are available to us under the trust.

Senator Tom Ada: I wish you the best of luck in being able to favorable move forward on the procurement and the tying up of the \$500K. I'm afraid you're going to pass that deadline and you are going to be left holding the bag on it.

Chairman Vicente (ben) C. Pangelinan: Thank you very much Senator Ada. I would like to give the courtesy of the author of the legislation, we're in to the questioning round now.

Speaker Won Pat: Thank you Mr. Chairman. I would just like to say that we were in conversations with the superintendent and with Taling as well, with requests to this extension, but prior to that we have to get that (permission) from USDOE Washington. In the testimony however, the superintendent has now asked that beyond that the interest be considered as well for the department to use. What do you see, first of all, what is the amount of accumulated interest and what would those monies be used for?

Ms. Taitano: The amount of anticipated interest at this moment is \$79K, we do have a number of indefinite quantity bids. We have a number of on going projects and should there be any requirements to increase those costs because of unforeseen events, we would use that first but we do have the need to purchase additional air conditioners and we also have a wireless project in the schools that could be used. There are many needs throughout the department so the decision to use the money would be related on how much time is available.

Speaker Won Pat: Do you have an idea if there are some projects that you are seeing an increase of cost or is that just in anticipation of?

Ms. Taitano: Right now we are just closing up our fire alarm project and in some cases the fire department ask that we put in additional devices so that has required an increase for those projects. The other ongoing project, that I mentioned earlier, is Untalan and once the civil work begins, we're unsure what they may find once that process and construction begins that may require additional funds.

Speaker Won Pat: Thank you very much.

Chairman Vicente (ben) C. Pangelinan: Thank you very much. I would also like to thank Senator Muña-Barnes for joining us. Taling, one real quick question, did you reserve a

contingency on any of these projects that are ongoing at this time? Sometimes there is a 10% contingency, are there any of those projects with contingencies?

Ms. Taitano: That is an interesting question because we have been debating with our legal counsel and our procurement officer about how to build in contingencies and how to look at how the other governments contracts to see how that may be done and we haven't been able to identify a vehicle to do that. When we had discussed with USDOE, the Untalan project is the one of concern, we were concerned that we would not get far enough into the project to know what the final cost will be but we believe the civil work will be done in the next couple of months and we will be able to lock up those costs. Most of the projects are done, it's just the Untalan project that is out there.

Senator Duenas: Thank you Mr. Chairman. While I certainly support the legislation and of the federal favorable consideration but Mr. Pedro I just have one question, I know there is no representation at this public hearing by the third party. Is that an indication that you would be representing their views or do they have a view on this particular proposal?

Mr. Pido: We have brought to the table that the USDOE has approved the January obligation extension and we considered these local funds and so we didn't ask the third party to come with us to this hearing.

Senator Duenas: I would take it then that this would be another acknowledgement that things are under control. Mr. Chairman, would it be appropriate to at least as where we are at in terms of the time line being the third party is not present?

Chairman Vicente (ben) C. Pangelinan: Not at this time.

Senator Duenas: Ok. So, this would be an indication of a good mark from the federal perspective.

Mr. Pido: Yes, it shows confidence that we will be able to obligate it by January 2014.

Senator Duenas: Thank you Mr. Chairman.

Chairman Vicente (ben) C. Pangelinan: Senator Ada, do you have a follow up question?

Senator Tom Ada: Can you clarify, in the bill it is seeking to extend the time line from September 30th to January 31st otherwise the appropriation "shall expire if not obligated" and I am little concerned about that language because in other ARRA grants that I am familiar with there is a time line as to when you obligate it and a time line as to when you can expend it. You go beyond that and all the invoices that come in beyond that date will be on your nickel. Is that the correct language, "shall expire if not obligated" or "shall not expire if not expended by January 31st."

Ms. Taitano: The documentation we received from USDOE have only indicated obligation deadlines no expenditure deadlines, sir.

Senator Tom Ada: Conceivably then, the alarm issue is considered obligated, or it's not until you have awarded it.

Ms. Taitano: No, she (OPA) voided the contract. Once it is obligated we have met USDOE standards.

Senator Tom Ada: You are certain that the obligation is the only requirement then.

Ms. Taitano: Yes.

Chairman Vicente (ben) C. Pangelinan: With no further questions and no further testimony from the public on this matter, please be cognizant of the Chairman's request on the additional request, the committee will then conclude this hearing. The Committee will continue to remain open for the acceptance of any additional information or public testimony on the bill discussed. You can submit those testimonies to my office directly on Soledad Avenue, as well as the Guam Legislature or through any of the electronic processes either email at office@senbenp.com or through our website at www.senbenp.com.

This hearing is hereby adjourned.

RE: Bill 209-32 (COR), An Act to Amend Section 1 of Public Law 31-234, Relative to extending the
deadline to obligate or expend American Recovery and Reinvestment Funds

Hafa Adai Senator Pangelinan!

I want to thank Speaker Judith Won Pat for introducing this bill at my request. I respectfully ask that the bill be amended to allow the Guam Department of Education (GDOE) to use interest earned on the Adequate Education Trust Account (Trust) for projects identified in the legislation.

As a result of discussions in September 2013, US Department of Education (USDE) granted an extension of the obligation deadlines related to the Adequate Education Trust Account (Trust) to January 31, 2014. At that time, barring protests, I indicated that less than 1% of Trust would potentially be unobligated at the end of September 2013. Those remaining funds would be available for contingencies related to ongoing projects. However, earlier this month, the Office of the Public Auditor voided the contract for the Southern High Fire Alarm and Sprinkler System, deobligating almost \$500,000.

As you are aware, the amount of funds needed to be invested towards the renovation of our schools is upwards of \$89.9 million. I urge the speedy passage of Bill No. 209-32 to allow the GDOE the opportunity to allocate any remaining funds towards improving our aging school facilities.

Senseramente,

JON J. P. FERNANDEZ

Honorable Eddie Calvo
Governor of Guam
P.O. Box 2950
Hagåtña, Guam 96932

Dear Governor Calvo:

The purpose of this letter is to inform you that, subject to the conditions set forth in this letter, the U.S. Department of Education (Department) extends from September 30, 2013 to January 31, 2014 the date by which Guam may obligate funds under the Adequate Education Act Trust Account (Trust Account). This extension is based on information that Guam provided to the Department regarding its progress in obligating Trust Account funds. In a report sent to the Department on September 23, 2013, Guam indicated that approximately \$56 million of the \$60 million of Trust Account funds were obligated and that contracts were pending for the obligation of approximately \$3 million of additional funds.

The conditions for this extension are as follows:

- The Guam Department of Education will continue to have administrative responsibility for the Trust Account funds;
- Guam will obligate all Trust Account funds by January 31, 2014;
- By October 15, 2013, Guam will provide the Department with the amount of funds obligated by project as of September 30, 2013;
- On the 15th of each month, Guam will continue to provide the Department with a report on the progress in obligating funds and completing the relevant projects ;
- Guam will not oppose any steps by the Department to recover Trust Account funds not obligated by January 31, 2014; and
- Guam will not oppose any steps by the Department to rescind approval of the extension or to recover funds if Guam fails to provide the required reports by the dates noted above or does not make adequate progress in obligating the funds.

The Department will continue to work with Guam to ensure that public school children in Guam benefit from the timely obligation of the Trust Account funds.

Comments:

The subject Bill proposes to amend Section 1(b) of P.L. 31-234, relative to extending the deadline to obligate funds deposited and appropriated from the Adequate Education Act Trust Fund to January 31, 2014. This extension is required in order for the Guam Department of Education to utilize approximately \$364,358 in unobligated funds remaining in the aforementioned trust fund and is consistent with the extension authorized by the U.S. Department of Education on September 26, 2013.
