### **COMMITTEE REPORT DIGEST**

### I. OVERVIEW

**Bill No. 230-32 (COR)** was introduced by M.F.Q. San Nicolas on November 27, 2013, and subsequently referred to the Committee on General Government Operations and Cultural Affairs on the same day.

The Committee on General Government Operations and Cultural Affairs convened a public hearing on Friday, December 13, 2013, at 2:00PM in the Guam Legislature Public Hearing Room of I Liheslatura. Among the items on the agenda was Bill No. 230-32 (COR)- M.F.Q. San Nicolas – An act to require that the Office of Technology establish a secure web-based communications protocol to allow agencies to securely share information with authorized recipients by adding a new subsection (j) to §20204.1 of Article 2, Chapter 20, Title 5, Guam Code Annotated.

The public hearing for Bill No. 230-32 (COR) was called to order at 6:01PM and ended at 6:07PM.

### **Public Notice Requirements**

All legal requirements for public notices were met, with requests for publication sent to all media and all Senators on December 5, 2013, and December 11, 2013, via email. Copies of the hearing notices are appended to the report.

### II. TESTIMONY & DISCUSSION

Senator Tina R. Muña Barnes announced Bill No. 230-32 (COR).

Senator Michael F.Q. San Nicolas gave his sponsor statement:

"Again, with respect to Bill 230-32 (COR), the Acting Chief Technology Officer [Joseph C. Manibusan] claims that it's redundant, but again it is not because this bill also specifies a 90-day timeline to enact what the bill intends to do. And what this particular bill does, Bill 230, is it requires the chief technology officer to establish a web-based communications protocol within the government. So that when we send out emails to each other, there is a standard and expectation for what needs to take place when we're sending those electronic communications. And what is most important is that oftentimes we have a lot of secure informationsensitive information—that needs to be transmitted online. And without the adoption of a protocol that determines exactly how we encrypt and protect those files, the likelihood of us having sensitive information circulating around through government emails that could eventually leak out into personal emails, very much exists. And having coming from the banking industry, the need for us to have this kind of communication protocols in place is paramount. And the Office of Technology has been in existence for seven months and we still don't have the enumerated web-based communications protocol. And the reason why that this bill came to be crafted is because my wife actually communicated with me, and she told me that she, in her capacity as a school administrator, needs to be sending sensitive information down to certain agencies, such as Child Protective Services. And Child Protective Services informed her and it is standard throughout the Department of Education that they are not willing to receive emails on client information, because they're sensitive; they actually have to put it in their car, drive it down to CPS and hand deliver it. And with the modern technology that we have and with the ability to encrypt and protect this kind of information, it will not only facilitate the free flow of information in a secure manner, but again it will reduce the congestion on the road, reduce the man hours that are being lost in the commute and save our people money on gas."

**Senator Barnes** stated that Vicki Gayer has signed up to provide oral testimony.

Vicki Gayer greeted the Committee members and thanked them for staying late for the

public hearing. She stated that the bill is "touchy" and must be "handled carefully", since the government has information on private citizens that can be exploited. She mentioned that private information may also be unlawfully extracted through the practice of smart metering and should be protected. She added that parties in possession of private information from smart metering data collection would "know everything, what time people go to bed, what they watch on television, how many times they get up to use the restroom [or] turn the lights on and off." She recommends that the individuals should give consent before the government electronically transmits their private information. She stated, however, that information pertaining to the criminal records of individuals, for example, who have been convicted of child molestation, should not be protected. She concluded her testimony by warning Committee members against the potential harm of passing a broad law.

**Senator Barnes**, on the account that there was no one else present to provide oral testimony, adjourned the public hearing for Bill No. 230-32 (COR).

### III. FINDINGS AND RECOMMENDATIONS

The Committee on General Government Operations and Cultural Affairs to which was referred "Bill No. 230-32 (COR) - M.F.Q. AN ACT TO REQUIRE THAT THE OFFICE OF WEB-TECHNOLOGY ESTABLISH A SECURE PROTOCOL COMMUNICATIONS BASED TO AGENCIES SECURELY ALLOW TO INFORMATION WITH AUTHORIZED RECIPIENTS BY ADDING A NEW SUBSECTION (i) TO \$20204.1 OF ARTICLE 2, CHAPTER 20, TITLE 5, GUAM CODE ANNOTATED.

### BE IT ENACTED BY THE PEOPLE OF GUAM:

2 Section 1. Short Title. This Act shall be referred to as the "Responsible 3 Secure Web-Based Communications Act".

Section 2. Legislative Findings and Intent. I Liheslaturan Guåhan finds that secure web-based communications has the potential to greatly increase the efficiency of government services, through improved inter-governmental communications, intra-governmental communications, and communications with people availing themselves of government services. There are agencies within the government of Guam which could benefit from efficient web-based communications for areas such as the referral of cases from employees of the Department of Education to Child Protective Services. Due to the confidentiality of such referrals, the current mechanism for transmission is hand delivery. The establishment of secure web-based communication protocols across the government would allow such communications to take place digitally.

I Liheslatura further finds that, under Public Law 32-10, the Chief Technology Officer of the Office of Technology has the responsibility to ensure the security of government information. There are discretionary duties which indicate that the Chief Technology Officer could mandate such secure communication protocols and I Liheslatura finds that it is imperative that the Chief Technology Officer do so to save government agencies and the people of Guam time, expense and effort.

l

It is therefore the intent of *I Liheslaturan Guåhan* to require the Chief Technology Officer to adopt standard security protocols for use by agencies of the government of Guam for the secure web-based transfer of confidential information from such agencies to authorized persons and agencies of the government of Guam and other governments, as applicable, by adding a new subsection (j) to §20204.1 of Article 2, Chapter 20, Title 5, Guam Code Annotated.

**Section 3. Secure Web-Based Communications Protocol Required.** A *new* subsection (j) to §20204.1 of Article 2, Chapter 20, Title 5, Guam Code Annotated, is hereby *added*, to read:

"(j) The Chief Technology Officer *shall* adopt standard security protocols for use by agencies of the government of Guam for the secure web-based transfer of confidential information from such agencies to authorized persons and agencies of the government of Guam and other governments, as applicable, within ninety (90) days from the enactment of this Act. The Chief Technology Officer shall determine the cost of implementation of secure web-based transfer of confidential information on a per agency basis and report such findings to *1 Liheslaturan Guåhan* to further determine financial feasibility of implementation."

RE: Testimony on:

- Bill 229-32 "Responsible Web-based Meetings Act"
- Bill 230-32 "Responsible Web-based Communications Act"

Hafa Adai Mr. Vice Speaker,

Thank you for this opportunity to provide testimony on the bills identified above.

I certainly support and advocate for applying new and modern technology to improve government operations and to enhance the delivery of services to the community. However, I believe that both of these bills are redundant with what is already stated in PL32-10 which established the Office of Technology.

There is language in various sections throughout PL32-10 which include but is not limited to the following:

- to develop an organized approach to information resource management,
- to develop mechanisms to replace paper with direct use of information equipment,
- to develop mechanisms where systems are linked and information is shared securely,
- to develop guidelines to establish efficient exchange of electronic information,

I wish to express my sincere appreciation to Senator Tommy Morrison, the author of PL32-10 for advocating for and supporting an organizational unit within GovGuam to oversee Information Technology from an enterprise perspective. We continue to work with Senator Morrison to address what is needed by the Office of Technology to carry out its mandates and responsibilities.

I respectfully request that the 32<sup>nd</sup> Guam Legislature not pass these two bills, and give the Office of Technology the support and resources it needs to carry out its duties and responsibilities.
