See attached comments.

BUREAU OF BUDGET AND MANAGEMENT RESEARCH
COMMENTS ON BILL NO. 254-33 (LS) thru 262-33 (LS)

The proposed legislations intend to transfer nine lots of Tract 3620 (specifically Lot Nos. 9 thru 17) in the municipality of Inarajan with an aggregate area of 8,391.2± square meters from the Chamorro Land Trust Commission's (CLTC) land inventory to the administrative jurisdiction of the Inarajan Mayor's Office for the purpose of constructing a recreational sports facility. The subject property was leased to the Inarajan Mayor's Office on March 30, 2000 in order to construct the sports facility.

Transferring the subject property to the administrative jurisdiction of the Inarajan Mayor's Office will have several fiscal impacts involving multiple parties. By transferring the subject property to the Inarajan Mayor's Office, the CLTC will not be able to collect lease payments resulting in a loss of revenue. However, by enabling the construction project to commence, revenues in the form of building permits for the sports facility can be anticipated to be received by the Department of Public Works (DPW). Subsequently, when the sports facility is operational, the Inarajan Mayor's Office can assess fees for use of the facility (i.e. basketball leagues, team practices, etc.).

Due to lack of sufficient information regarding the current lease agreement of the subject property and the specifics on the design of the new sports facility, the Bureau is unable to determine an approximate dollar amount of potential revenues lost for the CLTC in lease payments and gained by the DPW through the issuance of building permits.

In addition, the construction of the sports facility would increase the total aggregate assessed value of real property on Guam. Per the Certified 2013 Real Property Tax Assessment roll mandated by §24518, Chapter 24, Title 11 GCA, the total land and building aggregate assessed values are \$5.959 Billion and \$5.629 Billion, respectively. The combination of both the land and building assessed values creates the base for the Government of Guam's debt service ceiling, which is ten percent (10%) of the total assessed value. The construction of new facilities on the cited lot will increase the total building assessed value, thus increasing the base for the Government of Guam's debt service ceiling.

It should be noted that the proposed legislations include reversionary clauses upon inaction. If the construction of the recreational sports facility is not completed two years after the passage and enactment of the proposed legislations, all the subject properties will revert back to the CLTC land inventory.
