Notes:
 After the enactment of P.L. 30-46, the survey map of the property required by the Department of Land Management (DLM) found that the total area of "Government Alley" is actually 73± square meters. The proposed amendment seeks to accurately depict the size of "Government Alley" as authorized for sale. Section 2 of the proposed legislation indicates that the required two appraisals have already been conducted on the subject property. The property size authorized for sale increased by approximately 14.5± square meters, which translates to additional revenue to be received by the Government of Guam than originally expected during the passage of P.L. 30-46. However, the Bureau is unable to determine the approximate amount of additional revenue due to lack of appraisal information of the subject property. After the sale of "Government Alley" has been completed with the amended property size, revenues from the sale will be deposited into the Chamorro Land Trust Survey Fund established through P.L. 33-90. It should be noted that Bill No. 269-33 (LS) introduced by Senator V. Anthony Ada has the same intent as the subject legislation.
