**SUBJECT:** US Department of Energy - American Recovery and Reinvestment Act (ARRA) Grants

2010 AUG -4 AM 10:08 [Signature]

Hafa Adai Dr. Underwood:

In response to your letter dated July 16, 2010, the Guam Energy Office (GEO) did receive multiple ARRA grants; the first being from the State Energy Program (SEP) and the second being the Energy Efficiency and Conservation Block Grant (EECBG). With the SEP grant, we received stringent guidelines that made it unable for us to allocate funds that would benefit your department.

We are in the process of finalizing the EECBG grant, which has more flexibility in terms of the scope of work allowed. With that, we have targeted the Department of Education to be a part of EECBG. The grant was pre-awarded for administrative costs but the activities for EECBG were to be determined. The Department of Education is part of the activities that we have submitted to US Department of Energy for approval. Once given the approval, we can then begin the assessment process, which involves energy auditing and then retrofitting your department. We do not expect approval to be granted at/or about the end of August.

We look forward to the working with the Department of Education as we continue our effort to Keep Guam Green. If you have any questions, please contact Lucy Kono at 646-4361 or myself at 475-1658.
