IV. Public Comment

Evelyn Duenas: reported that the additional paratransit bus has made a positive impact on scheduling rides to the southern part of the island. E. Duenas reported that on Saturday, January 19, 2013 she requested from KEI dispatch to stay longer at her point of origin but was

informed by KEI that they could not accommodate her request due to the schedule was full. E. Duenas stated that later that afternoon two buses showed up at that location for one individual. E. Duenas stated that one of those buses could have transported her as it was in fact going to her requested destination. E. Duenas stated that we all need to work together to fix these kinds of problems, though small it causes a lot of problems every day.

Ben Gumataotao asked who E. Duenas spoke to that denied her ride. E. Duenas stated that she spoke to the dispatcher at KEI Paul Rabago. E. Duenas stated that she asked P. Rabago if KEI was able to accommodate her request and if not it was fine with her. E. Duenas reported that P. Rabago's response was no they were not able to because the schedule was tight.

Paul Rabago stated that he worked the morning shift and at that time there were no cancellations to the schedule to accommodate E. Duenas request.

Ginger Porter reported that on January 13, 2013 she had done some technical assistance with the dispatchers and schedulers and recommended that at the end of the day they look at the schedules to make sure that they can do adjustments to make it more efficient. This was not their normal protocol but they have been doing that as they go. G. Porter stated that what needs to be done is they need to spend 30 minutes when everything is finished so they have the whole picture. As cancellations come in they need to review the schedule again to see if there are any adjustments that can be made.

G. Porter stated that the software that GRTA is looking to purchase will be easier to see multiple schedules and help in the ability to make the adjustments needed.

Ben Servino (DISID Director): reported that he is speaking on behalf of an individual who called his office to complain about the scheduling issues with the contractor. DISID has also received a number of complaints from the DVR clients are having difficulties getting to work. The employer is now looking at possibly letting them go because of the lack of consistencies of coming to work on time. This presents a real problem for DVR when we are trying to reassure employers that our clients are willing to work but the problem being transportation.

G. Porter stated that she spoke to one of the riders who was having difficulty getting to work from Merizo. The information obtained was passed on to Rudy Cabana who coordinated with KEI to get him on a subscription service as he had established enough days to count towards that service.

Public Comments Continued

G. Porter reported that the individual also made some recommendations to the fixed route stop for Merizo and that information was provided to KEI and R. Cabana to take a look at. G. Porter asked the individual if there was a stop at that location would he be able to utilize the fix route system and was told yes.

G. Porter stated that as information comes to her from riders, where it is a matter of getting people to work together, that we follow appropriate policy to do a better job coordinating services, particularly for those who need it for employment.

4. Status Transit (Bus) Procurement

G. Porter asked the status of this project now that the AG has returned the documents with comments. What needs to be done to make document acceptable. G. Porter stated that Felix Dungca was to go back to Parsons-Brinckerhoff to get the corrections done. G. Porter stated that PB is asking for additional funding of \$80,000 to make clerical corrections based on the review of the AG. G. Porter stated that GRTA had already paid a lot of money for this project.

R. Cabana stated that GRTA has a balance \$4,000 which was not paid to PB but it is not going to do the math as far as completing the specifications.

M. Abaya stated that the MOU calls for putting together the specs, going to the AG for review. Upon review or revisions from the AG they would have to fix it until such time that GRTA is ready to procure it to give it to GSA for bid.

G. Porter asked where GRTA sits with that conversation with PB. R. Cabana stated that F. Dungca is currently working on making the corrections before giving to PB. G. Porter asked that the board get a report in two weeks if GRTA is moving forward and that it doesn't cost the agency more money.

7. Requesting additional board members

R. Cabana reported that there has been no word back from Mr. Erskin Sanchez as to his interest to serving on the board. G. Porter asked if Mr. Sanchez has been informed that the board is flexible to meet at a later time.

Appetizers — Mini-Conferences

Volunteer Transportation and Mobility Management

The theme of volunteer transportation and mobility management will run through all the programs and activities in this mini-conference. There will be presentations on specific issues – like different models of volunteer transportation, risk management and liability – but the focus will be on how volunteer transportation programs can fit into the framework of mobility management.

Tribal Transit Summit

MAP-21 is bringing about many changes to the world of Tribal Transit. Learn how these changes will impact your services and how to make the most of the enhanced tribal funding mechanism in Section 5311. Also discover new solutions to transit issues and share your insights and experiences with others.

To Go! Community Transportation Roadeo

On Sunday, June 2, 2013, we will celebrate our 24th annual National Community Transportation Roadeo. As always, the event features the best community and public transportation drivers in the nation, followed by a banquet in their honor and awards to the top competitors. All EXPO participants are invited to attend and recognize not only the best drivers in the nation, but the invaluable role drivers play in community and public transportation.

General Sessions

Each year at EXPO, we feature two general sessions that offer wide-ranging, expansive discussion from recognized experts on key community and public transportation topics. Led by CTAA Communications Director Scott Bogren, these sessions provide insightful dialogue and often involve audience questions and participation. Current ideas for these sessions revolve around analyzing transit's success at the local level in ballot initiatives and how to translate that success in your community. The second session will examine reframing the value of transit and changing the way we highlight the outcomes transit engenders.

Main Courses —

Professional Development Workshops

The best training sessions in the industry taught by recognized experts and with timely, useful topics is what makes EXPO so valuable. Each year we offer a wide variety of workshops with morning and afternoon sessions on Wednesday and Thursday (June 5 & 6) of EXPO week. These sessions are tailored to meet the specific needs of community and public transportation managers, officials and advocates. All EXPO registrants are able to participate in any session.
