There was no eviction in the month of December 2013.

### **Program Discrepancies/ Needs**

#### **October 2013**

- More than 50% of the shelter ceiling leaks (in the rooms, hallways, bathrooms, kitchens and living rooms).
- Water bubbles is also a problem in several parts of the facility.
- The leaks have caused electrical problems in the light fixture and ceiling fan in some rooms. Guma San Jose continues to communicate with GHURA and Arvin Builders regarding the leaks and problems caused by it. Arvin Builders water blasted the roof in September which created more leaks.

On October 8, 2013 the contractors started to work on the roof and then stopped because of the rains. The roof continues to leak during the heavy rains. Because of the construction starting and stopping:

- 3 rooms are still closed in the Right Wing.
- Dining area is closed in the RW.
- Living room area is closed in the RW.
- It is very challenging to work in a shelter that has more than 50% of the ceiling leaking. It's challenging to keep the floors dry and hoping that no one falls. It's a challenge to find a room that's dry when it starts raining. It's a challenge to keep clients in a shelter when all the dry rooms are taken or to put clients in a leaking room.

At this time Guma San Jose is waiting and hoping that the weather clears up, so Arvin Builders can continue fixing the leaking problems.

#### **November 2013**

- Arvin Builders stopped working at the shelter over 2 weeks ago. They need to complete the plastering of the ceiling and the painting. They also need to install the fans and light fixtures that they took down in the rooms and common areas. We will find out if the leaking problem is fixed when it starts to rain again.
- Three (3) rooms are still being closed because of the unfinished construction.
- Guma San Jose communicated the above to GHURA and Arvin Builders. Arvin Builders said that they will try to finish everything by next week. They also said that they don't have the money to finish the work.

#### **December 2013**

- Arvin Builders reported that they completed the work on the leaking roof. We'll find out if everything is fixed when the rainy season comes.
- Three (3) ACs are not working properly. The one is PM's office stopped working and the office is very hot.
- Arvin Builders need to complete the electrical work in both living rooms and in room S6. S6 is still closed.

We need fire exit signs, smoke detectors and electrical conduits for the emergency lights, 2 ceiling fans, 6 screen doors, 2 shower fixtures for both sides, reseal both toilets, 2 light fixtures, 2 stoves, 1 refrigerator, 1 washer, 1 dryer, and 87 (12'x2.5') tin roofs. The roof needs to be water blasted and repair leaks (contractor needed), popped up tiles need to be repaired, left side of building needs a plywood replaced, need locksmith to unlock typhoon shutters, all electrical to be checked by an electrician, service all air conditioners by a AC repair person, a complete paint job of the inside and outside of building, remove all trash, and a 24000 BTU AC unit needs to be relocated to Ordot from Barrigada.
- **PERMIT** – Joe Guevera, Administrator/Inspector for DPW reported that GSI does not need a permit to move into the Ordot House/Shelter.
- **TO DO LIST** - Support Service will have the Ordot House electricity certified, complete the plumbing work in the Left Wing shower, replace the tin roof in the front and back and replace the damaged wood, paint roof with silicone (since it's been water blasted), paint ceiling, repair front Left Wing window, unlock shutters, repair cabinets in left wing 2<sup>nd</sup> bedroom and repair sink in Left Wing. The following need to be purchased ASAP: 2 stoves, 1 refrigerator, 1 washer, 1 dryer, 6 screen doors, 2 smoke detectors and 1 fan. Move AC from Barrigada to Ordot.
