*PLM Planning*

Dear Mr. Camacho:

On behalf of my client, and pursuant to Sections 61630 through 61634, Part 3, Article 6, Changes of Zones, Chapter 61 – Zoning Law, Title 21 Guam Code Annotated. I am submitting the enclosed zone change application for your review and consideration before the Guam Land Use Commission, for a Zone Change from “A” (Agricultural) to “R-2” (Multi-Family Dwelling) Zone

The property is located on the beach side and along Route No. 4, also known as Chalan Kanton Tasi in Inarajan. It also approximately 2 –miles south of Inarajan village. The property is well developed with a 3-storey structure, 24- studio units residential complex, a 2-storey, 5-unit residential housing for employees/staff. The existing amenities include a multi-purpose support facility/recreation, open pavilion, and a swimming pool as well administrative offices.

**Informational Data:**

**Lot area:** 158,826 square feet or 14, 755 square meters or 3.97 acres .(see attached survey map), Subject lots 90-2-1, 90-2-R1 & 90-1 was consolidated into Lot 91-1New in October 1989.  
**Parking:** 62 stalls proposed for 29 units on site with 3 ADA ; There's presently 49 existing parking stalls on site, see attached site plans.

Previous Land Use Commission Action(s):

1. Conditional Use, October 7, 1982 by Territorial Planning Commission (TPC)
2. Seashore Clearance – Dredging, November 18, 1982 by Territorial Planning Commission (TPC).
3. Conditional Use and Zone Variance, Approved February 23, 1989, Territorial Planning Commission - To construct a 24 unit dormitory with accessory uses in “A” (Rural) zone, with Conditions noted:
  - a. Archeological subsurface testing be done;
  - b. Parking be paved;
  - c. No conversion allowed to hotel use.

All conditions by the TPC were adhered to and was in full operation for many years by its former owners since its approval. It's a sprawling and well maintained complex and gated with beautiful landscaping near the seashore. Since acquired by clients, the units are unoccupied and is being upgraded for residential rentals/ apartment use and studio unit rentals.

**Attachment 2**

My clients intent to rezone the property and make it compatible with the same zoning for multi-family uses. The existing structures on site is well designed to conforms to current building codes and standards and to accommodate all required parking and loading, all drainage and other requirements by the zoning law and government permitting requirements for the intended use. My client will ensure all conditions and other requirements by permitting agencies are to be adhered to all other requirements for final occupancy for residential rentals. The rezoning of the property will not have any adverse impact within the surrounding properties, as the its already existing , with approved permits and commission approvals. If rezoned, the uses will only be for multi-family/residential rentals with accessory uses of amenities already in place for its tenants and occupants for long and short term occupancy.

The other current land uses in the immediate area are residential and vacant lots on the seashore and across the property. The structure on the lot is ready for residential uses and rentals for our local residents and transient residents who prefer a quiet surrounding near the beach and away from all commercial districts. Water, power, and paved roads are all existing within the facility and immediate area and along Chalan Kanton Tasi (Route No. 4). Public Sewer is not available on site. Any upgrade of existing support infrastructure ( wastewater disposal systems) on site will be adhered to by the applicants/owners to minimizes impacts to the environment and immediate surroundings.

We believe that the rezoning of the lot will not be out of character in the area. The site is not feasible for agricultural uses, many surrounding lots within the immediate area residential uses already. Rental units will be available in support of the anticipated military buildup in the next few years and is in line for additional public housing needs of our community as well.

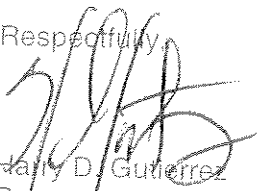

Section 61630 (GCA of the zoning law mandates that public necessity, general convenience, and public welfare are addressed and justified, that the Commission may recommend to the Governor for approval for an amendment of the zoning map. For the Commission's review and consideration on this application, these three important conditions are presented and justified below.

- A. **Public Necessity** : The existing residential type development on the property with amenities will accommodate a growing island population and the anticipated military build up to support housing requirements in the next few years and beyond. There will be a demand for more housing for locals and transient residents. This existing development will beneficial in providing additional public housing for our island community;
- B. **Public Convenience**: The existing residential units would be consistent with the current land uses in the immediate area. The location is along a major roadway and will provide public convenience for additional public housing for the southern areas and to the general public population. It is near schools and public facilities in the southern area;

- C. **General Welfare:** The proposed rezoning and existing uses will protect the general public, the immediate surroundings and properties by being consistent for residential activities that is on-going at the present time and for future requirements of additional public housing of the our growing community. The owners will ensure that all permitting requirements and conditions of the land use commission and all government agencies are adhered to as well as to minimizing impacts to the immediate surroundings and to the general public and specially to our environment and the seashore area.

Again, all performance standards and requirements by the Application Review Committee (ARC), and the Guam Land Use Commission will be complied with as well as submission of an Environmental Impact Assessment (EIA), is attached and any other requirements pursuant to Sections 61630 through 61634, Part 3, Article 6, Changes of Zones, Chapter 61 – Zoning Law, Title 21 Guam Code Annotated shall be complied with.

Enclosed are additional supporting information for the application and a copy of the survey map. On behalf of my clients, we hope that your consideration of this request will be favorable. Should you need additional information or clarification, please don't hesitate to call me.

Respectfully,  
  
Harry D. Gutierrez

**ENVIRONMENTAL IMPACT ASSESSMENT (SHORT FORM)**  
October 1999

GEPA has developed this EIA form for use by developers proposing projects or land use activities which may pose only insignificant environmental impacts. This form is provided as an alternative to the EIA standard format provided to satisfy the requirements of Executive Order 96-26. If potential environmental impacts and issues are assessed or determined to be significant either by the applicant or GEPA, a more detailed EIA may be required including a thorough presentation and discussion of alternatives as required by the *Guidelines for the Preparation of Environmental Impact Assessments and Statements* (GEPA October 1999).

This EIA format constitutes the minimum necessary assessment and disclosure of potential impacts for a project. This form may also be used as a preliminary scoping guide or checklist in consultation with the Agency.

19 Subdivision, Inarajan, containing an area of 63,885 square feet, and owned by  
20 John T. and Josephine M. Naputi, is hereby rezoned from Agricultural ("A") to  
21 Commercial ("C").

22 Section 18. Rezoning in Agat. Lots Nos. 194-2-2-1 and 194-2-2-2,  
23 situated in the Municipality of Agat, and containing areas of 8,361± square  
24 meters and 1,858± square meters, respectively, as shown on Land  
25 Management Check Map 370FY72, and belonging to Charles Makapugay,  
26 are hereby rezoned from Single Family Residential ("R-1") to Commercial  
27 ("C").

1 consolidate the zoning of her property to the zoning applicable to that port  
2 of the property parallel to Route 1 (Marine Drive). Mrs. Dueñas wishes  
3 utilize her property for commercial ventures to enable her to realize t  
4 benefits of the property handed down to her by her parents. However, wh  
5 Mrs. Dueñas went to the Territorial Land Use Commission ("TLUC") on th  
6 matter, she was informed that the process would take no less than six mont  
7 and that it would cost Mrs. Dueñas approximately \$25,000 to hire a lar  
8 consultant to prepare the applications and appropriate documentation fo  
9 action by the TLUC. The Legislature finds this unreasonable an  
10 unacceptable as the need for the rezoning was created by the governmer  
11 when it permitted the "split zoning". This section therefore amends th  
12 zoning map in order to provide just and consistent treatment of Mrs. Dueñas  
13 property.

14 (b) **Rezoning.** The following lots, situated along Route 1 in the  
15 Municipality of Yigo, are hereby rezoned from Agricultural ("A") to  
16 Commercial ("C"):

17	Lots:	Owner:

19	Lot No. 7023-1-2-2A-1	Mrs. Laurent F. Dueñas

20  Section 17. (a) **Legislative finding.** The Legislature finds that certain  
21 parcels of land in Inarajan were rezoned for the construction of the hotel  
22 known as "Inarajan Shores". Because of this rezoning, the Legislature has  
23 been petitioned by several residents in the area requesting equal treatment in  
24 the rezoning of their property in order that they may utilize it for its highest  
25 and best uses. The Legislature finds that the rezoning of such property in the  
26 same area as "Inarajan Shores" poses no problems as existing regulations

TO: Chairman, Guam Land Use Commission

FROM: Guam Chief Planner

SUBJECT: Staff Report - Application No. 2013-32, Zone Change,  
Lot 91-1NEW, Municipality of Inarajan;  
GLUC Meeting date of October 10, 2013

Website:  
<http://dlm.guam.gov>

1. **PURPOSE:**

A. **Application Summary:** The Applicants, Inarajan Garden House, Inc., and Hang Chieng Tan, (President/Director), represented by Harry D. Gutierrez, is requesting approval of a Zone Change from "A" (Agricultural) to "R-2" (Multi-Family-Dwelling) Zone, to allow multi-family uses for affordable rentals, and for short/long term transient accommodation, on Lot 91-1NEW, in the Municipality of Inarajan.

B. **Legal Authority:** Title 21, Guam Code Annotated, Chapter 61 Title 21, Guam Code Annotated, Chapter 61 Article 6, Part 3 (Changes of Zones), Sections 61630 thru 61638 (Zoning Law).

2. **FACTS:**

A. **Location:** The subject site is fronting Chalan Kantos Tasi (Route No. 4), Inarajan, and is approximately 2-miles south of Inarajan village, (See Map **ATTACHMENT**).

B. **Lot Area:** 14,75 Square meters or 158,826 square feet or 3.97 acres

C. **Present Zoning:** A" (Agricultural) Zone.

Public comments and concerns that were noted are as follows:

**Mr. Jesse Perez, Director, Historic Inalajan Foundation:**

Submitted a Resolution from the foundation *supporting the rezoning and welcoming their request as they promote and make the facilities available to cater to the people of Inarajan, the general public and the tourists industry here on island.. and..preserving the Chamorro culture and heritage, its customs and traditions. They have no objection to the rezoning and wishes Inarajan Garden Home success and progress.*

**Mrs. Judy Flores, Director, "Gef Pa'go Chamorro Cultural Village) :**

She supports the rezoning as they have continued for many years to avail the use of the multi-purpose pavilion for our cultural events for years and they created many jobs for our local people they will continue to provide more benefits for housing and contribute to our tourism industry and economy..

**Mr. Harry Gutierrez (representative):**

Mr. Gutierrez had further explained in detail that the complex have been idle for a few years and that renovations have been on-going to be able to operate the complex in full operations. The owners have spent so much money to upgrade all the residential units and amenities and beach front ..and all will be compliance for occupancy. The owners have been investing in Guam for many years and the acquisition of this development will provide more housing and create more new jobs in our the community.

**Ms Louise Nahollawaa( Neighbors):**

Asked if her land taxes will increase due to this rezoning.

**Response( from the Case Planner) :**

For your property...it should not affect or will increase your land taxes...it may increase the value of your home and property..

**Mayor Doris Flores Lujan:**

Our village community supports the rezoning and we welcome them as part of our community, as they will provide good benefits to our people, such as housing, use of their facilities for cultural events, and provide new jobs..

**GENERAL WELFARE**

The rezoning and existing uses and activities will protect the general public, the immediate surroundings and properties by being consistent for residential activities. The improvements that are that are on-going and future requirements for additional housing of our growing community will be available. That the owners will ensure that all permitting requirements and conditions of the government agencies, land use commission are adhered to as well as to minimizing impacts to immediate surroundings, the general public, and environment and seashore area. The development is fenced and well maintained, and landscaped and will present an orderly and appealing site.

In supporting multi-family uses, we find that the added note to the protection of the general welfare of the public is that the subject lot well developed and maintained and is ready for full operation for its intended uses. The result of a public hearing with favorable support of the community and no objection from Application Review Committee (ARC), as such, it is the position of DLM planning Staff that the rezoning to "R-2" is best and highest use for intended activities/uses.

5. **RECOMMENDATION:** Recommend approval and the applicants shall adhere to all ARC recommendations, conditions, and requirements relative to development restrictions as provided in the proposed zoning designation of "R-2" (Multi-Family Residential Dwelling).

The applicant, Inarajan Garden House, Inc. c/o Hang Chieng Tan and Harry D. Gutierrez, is requesting for a zone change from "A" agricultural to "R-2" multi-family residential in order to upgrade for residential rentals/apartment use and studio unit rentals. In 1989, the Territorial Land Use Commission approved the previous owner of the property to construct a 24-unit dormitory with accessory uses. The existing amenities include a multi-purpose recreation room, pavilion and swimming pool. With minor changes, the structures can be converted to residential/apartment uses.

The subject property is located approximately 2 miles south of Inarajan Village on the beach side along Route No. 4 also known as Chalan Kanton Tasi.

The subject lot has an area of 14,755 square meters or 3.97 acres. The surrounding land uses consist of predominantly single-family dwellings and family beach properties. Water, power, telephone, cable and paved roads are all existing within the facility and immediate area and along Chalan Kanton Tasi/Route No. 4. Public sewer is not available in the area.

The Bureau has completed its review of the attached application and has conducted a field inspection of the surrounding neighborhood. The Bureau offers the following comments based on its findings:

The proposed project is compatible with the surrounding area. In an R-2 zone, all permitted uses are also compatible with the surrounding area. Based on the lot area, the site has the potential to accommodate more units than what is presently on site. However, any additional units would be dependent on the availability of infrastructures and capacities and upon review and approval of the utility/infrastructure agencies and departments.

The Inarajan Garden House is listed as having public beach access to ocean shores. With the change of land use and zoning, the Bureau understands that the owners may have security concerns. We

want to ensure that the owners continue to provide the beach access.

Impacts from climate change and sea levels rise are becoming issues of concern. Because the owners obviously have investments and plans for improved returns as a result of the zone change, we suggest that the owners consider these issues as they move forward with this endeavor.

Based on what is contained in the zone change application and what was discussed at the Application Review Committee meeting, the Bureau has no objections and therefore recommends approval. Should the GLUC act favorably on the applicant's request for a zone change, we highly encourage the following be taken into consideration:

1. We highly encourage the applicant to work with the Department of Public Works (DPW), Traffic Division to determine if the proposed ingress/egress is in line with the existing Village Streets Master Plan. The Bureau is concerned with the increase in potential traffic resulting from the development. Will the proposed development adversely impact the existing traffic flow of Chalan Kanton Tasi during the project/landuse conversion and after the completion of the project for the new land use? Furthermore, we encourage the applicant to coordinate with DPW on flood zone matters to determine appropriate measures in order to mitigate for potential damage to property.
2. We highly encourage that the applicant works with the Guam Fire Department (GFD) to ensure that the access and access route to the subject establishment are sufficient and acceptable for emergency vehicles in the event of fire or an emergency.
3. The protection from invasive species is crucial in preserving Guam's native plant and animal species; thus, avoiding the use of invasive plants is encouraged. The applicant is highly encouraged to work with the Department of Agriculture's Division of Forestry and Soil Resources on using native plants for landscaping if needed to avoid invasive species outbreaks.
4. Stormwater management is a major factor in the protection of Guam's vital water resource. Surface runoff carries pollutants into Guam waters causing siltation, increasing sediment loads, which impairs receiving coral reefs. The BSP highly encourages the applicant to implement best management practices to reduce erosion and runoff during and after construction of the project. We further encourage the applicant to work with Guam Environmental Protection Agency for effective implementation of stormwater management practices. We refer the applicant to the CNMI and Guam Stormwater Management Manual, October 2006 specifically, sections:
  - a. 2.1 Construction Stormwater Treatment Criteria and Standards;
  - b. 2.2 Post-construction Stormwater Treatment Standards and Criteria;
  - c. 3.1 Erosion and Sediment Control for Construction Sites;
  - d. 3.2 Acceptable Post-Construction BMPs;

e. Figure 3-12 Bioretention diagram (dry swale)

f. and Figure 3-14 Wet Swale

5. Because the area is not served by public sewer, we encourage that the applicant to obtain concurrences from the Guam WaterWorks Authority and GEPA that the proposed development will have an adequate waste water facility to mitigate for the lack of public sewer services.
6. We high suggest that the owners provide signage indicating where the public beach access is located and make arrangements to ensure security of the development and the public's unrestricted access to the ocean shore work in harmony.
7. We suggest that all legitimate concerns that stems from the public hearing be appropriately addressed by the applicant.

Memorandum

To: Director, Department of Land Management

Attn: Executive Secretary, Guam Land Use Commission and Guam Seashore Protection Commission

From: Director of Agriculture

Subject: Document to address both the "Agricultural & Environmental Impact Statements" for a "Zone Change request on Lot 91-1NEW from "Agricultural to an R2". Ref. Case 2013-32 (Inarajan Garden House Inc.) in the Municipality of Inarajan.

Agriculture ADS Division has reviewed the subject Lot for a Zone Change request and has determined that there are no significant impacts on agriculture and to any protected flora and fauna species in the immediate area. Agriculture has no objections to the proposed zone change, but would like to recommend that following practices are incorporated into the current phase of the operation. If the area is to be developed further and nearer the shoreline it is vital that no foreign material and other debris is allowed to encroach into Guam waters therefore having any negative impacts to this valuable resource. It is vital that a mitigation plan and all the practices associated with running an operation of this sort follows the guidelines and safety measures designed to contain, prevent and clean up spillage as approved by Agriculture, Guam EPA and the U.S. EPA rules and regulations. The use of silt screens should be put into place in those sections of the lot where risks are higher.

Maintaining the current landscaping plan and further adding to it, to include native tree species that are adapted to both the southern environment and those adapted to live along shoreline areas that have higher salinity content and heavy wind periods throughout the year. We also recommend planting vetiver grass along the areas that are highly erodeable as this species grows deep into the soil structure binding it tightly together and preventing any landslides and heavy erosion from occurring. For assistance in implementing a windbreak and tree planting scheme using indigenous plants please consult our Forestry division at 300-7976/5.

Should you choose to add more fruit trees and vetiver grass to the current operation for windbreaks, shading and erosion control our nursery sells fruit trees for this purpose and provides free of charge the vetiver grass. Please consult the ADS division on the proper care and benefits of having fruit tree windbreaks incorporated into the property as well as vetiver stock available for use to farmers and those interested in protecting our vital resources. Contact our office at 300-7972/67 for further assistance and consultation. For questions and concerns regarding our agencies response please contact our office at 300-7973. Thank you in this regard.

Case Planner: Frank Taitano  
(Chairman Arroyo stated that more discussion was needed among the Commissioners; no action was taken at this time and will “pick” this up at a later time.)

Zone Change

- B. The Applicant, Texas A&M Foundation represented by Duenas, Camacho & Associates and Daniel Swavely; request for a **zone change** from “A” (Rural) to “PDD” (Planned Development District) zone on Lot Nos. 177-4-R2-1; 177-4-R2-R1 and Lot 177-4-R2-1, in the Municipalities of Yona, Asan and Ordot-Chalan Pago. Application No. 2013-04A (Continuation – GLUC meeting of 9/12/2013).  
Case Planners: Frank Taitano and Celine Cruz  
(The motion to approve Application No. 2013-04A zone change from “A” to “PDD” for Lot nos. 177-4-R2-5 (Sigua Town Center), 177-4-R2-2 (Lonfit), 177-4-R2-6 (Sigua Heights), 177-4-R2-1-1 (Batea) and Lot 177-4-R2-1-R1 (Pulantat) was approved unanimously subject to the following conditions:

1. These thresholds, ~~the~~ conditions within each of the five (5) parcels, shall adhere to certain general, but critical standards, ~~standards~~ that are in-line pursuant to the current ~~law~~ future planned development regulations and in particular Subsections (A) thru (H);
2. Criteria number 2 – that all parcels addressed certain footprint development schemes that would meet both 70% open space which includes the conservation areas and 30% footprint requirement and apply to the variety of land uses within each parcel.
3. That the applicant revise its plan and submit to the Chief Planner specifically for the Pulantat (177-4-R2-1-R1) which in its current plans submitted to the Commission has a footprint of 33% rather than 30%. That this plan be submitted to the Chief Planner within no less than 30 days from day of hearing.
4. With respect to infrastructure:
  - a. With respect to water, wastewater and power infrastructure systems improvements required for the issuance of a building permit, the owner of each project, as indicated on the building permit application, shall be solely responsible to comply with conditions set forth in the attached position statements specifically issued by GWA and GPA;
  - b. With respect to road and traffic related improvements required for the issuance of a building permit, the owner of each project as indicated on the building permit application shall be solely responsible to comply with conditions set forth in the position statement issued by DPW;
  - c. Project Owner for first project shall pave with asphaltic concrete or concrete the 225-foot long unpaved portion of the road connection between Pulantat and the Leo Palace access road as part of the initial development project, subject to the approval of the Director of DPW. Although the government shall bear the pre-requisite responsibility for securing government ownership or easement of the portion to be paved for this improvement that the owner shall work with DLM and DPW to identify the ownership of such property;
5. Environmental Protection requirements:
  - a. With respect to environmental protection requirements for the issuance of a building permit the owner of each project as indicated on the building permit application shall be solely responsible to comply with the conditions and requirements set forth in the attached position statements issued by the Guam EPA and Bureau of Statistics and Plans, and the attached revised position statement as issued by the Department of Agriculture.
6. Historical and Archeological requirements for the issuance of a building permit, the owner of each as indicated on the building permit application shall be solely responsible to comply with the conditions and requirements set forth in the attached (1) summary of meeting in response to DPR position statement January 31, 2013; (2) the attached August 21, 2013 letter entitled "Acknowledgement of Letter" dated March 16, 2013 regarding the summary of meeting in response in DPR position statement dated 1/31/2013 from the Director of Parks and Recreations.
7. Maximum number of residential units per parcel and maximum building height per parcel:
  - a. Lot 177-4-R2-5 (Sigua Town Center) maximum density of 925 units; additionally the maximum height shall not exceed 25 stories (or 250 feet for two structures only); 3 stories for one town center structure, and 3 to 8 stories for multiple residential structures not to exceed 80 feet;
  - b. Lot 177-4-R2-2 (Lonfit) maximum number of residential units per parcel shall not exceed 925 units; the height shall not exceed 15 stories (or 150 feet);
  - c. Lot 177-4-R2-6 (Sigua Heights) the density shall not exceed 1,300 units; each building shall not exceed 15 stories (or 150 feet);
  - d. Lot 177-4-R2-1-1 (Batea) the maximum number of density shall not exceed 925 units; and each building shall not exceed 15 stories (or 150-feet each); and,
  - e. Lot 177-4-R2-1-R1 (Pulantat) the maximum number of density shall not exceed 925 units; and each building shall not exceed 15 stores (or 150-feet in height).
8. Notifications:
  - a. The owner of each project shall notify, in writing, the Mayors of the villages of Yona, Chalan Pago-Ordot and Asan-Maina upon initiation of the design of improvements for each development project. In addition, as a courtesy, the Mayors shall be notified in writing upon initiation of construction of those improvements. A copy of this notification shall provided to the Chief Planner of the Department of Land Management and the Guam Land Use Commission; and,
  - b. The property owner for each parcel shall submit a status report in letter form to the Chief Planner of the Department of Land Management regarding on-going and proposed development. Such annual report shall be submitted no later than March 30 of each year for the preceding calendar year.

David V. Camacho, Acting Executive Secretary  
Vacant, Assistant Attorney General

9. For Lot 177-4-R2-5 (Sigua Town Center) –

- a. The Sigua Town Center PDD is permitted to increase its commercial area to an aggregate total of 180,000 square feet within the same footprint of development for Sigua Town Center per the revised Sigua Town Center land use plan as submitted by the applicant;
- b. The Sigua Town Center PDD shall set aside 50 rather than 35 acres for public facilities which may include educational facilities, fire station, satellite police station, museum or other public facilities approved by the Governor. To the maximum extent possible the 50 acres shall be located within the same footprint of development for Sigua Town Center as originally proposed and as submitted to the Commission as of date of this hearing;
- c. Notwithstanding other projects which may be planned as a result to responding to market demand on Guam, the 250 minimum density affordable housing for the elderly project shall be developed at Sigua Town Center parcel at the location noted in the revised Sigua Town Center land use plan as submitted to the Commission as of date of this hearing.

10. For Lots 177-4-R2-2 (Lonfit), 177-4-R2-6 (Sigua Heights), 177-4-R2-1-1 (Batea) and 177-4-R2-1-R1 (Pulantat) – those parcels shall be rezoned to Planned Development District on the basis of the land use plans in Application No. 2013-04A except that up to two acres shall be included in each parcel for commercial/public uses. The two acres for commercial/public uses shall be located within the proposed development footprint for each parcel at a location to be determined by the property owner which is convenient for residents and serves the purposes for which such commercial/public institutional uses are intended.

(Commission approves motion as stated unanimously; 5 – ayes , 0 – nay)

#### IV. New Business

##### Zone Variance

- C. The Applicant, Texas A&M Foundation represented by Duenas, Camacho & Associates and Daniel Swavely; request for a zone variance for height for two proposed buildings ranging from 15 to 25 feet for a portion of Lot 177-4-R2-R1 (Lonfit and Sigua Heights parcels) and Lot 177-4-R2-1 (Batea/Pulantat parcels), in the Municipalities of Yona, Asan and Ordot-Chalan Pago. Application No. 2013-4B.

(In light of the zone change to PDD to include height for Application 2013-04A, Application 2013-04B is moot)

##### Zone Change

- D. The Applicants, Joseph Chua, Rowena Tan and Harry P. Schnell Jr. represented by Harry D. Gutierrez; request for a zone change from “A” (Rural) to “M1” (Light Industrial) zone for a proposed warehouse, office, storage for construction materials and equipment, and rental storage units, on Lot No. 7-R1, Block 1, Tract 221, in the Municipality of Barrigada. Application No. 2011-74.

Case Planner: Penmer Gulac

(Motion to approve the zone change request to “M1” was approved unanimously by the Commission subject to adherence of the requirements/conditions as stated in the official ARC position statements; 5 – ayes, 0 – nay.)

- E. The Applicant, Hong Chieng Tan (Inarajan Garden House) represented by Harry D. Gutierrez; request for a zone change from "A" (Rural) to "R2" (Multi-Family Dwelling) zone to allow multi-family uses for affordable rentals and short/long term transient accommodations, on Lot No. 91-1NEW, in the Municipality of Inarajan. Application No. 2013-32.

Case Planner: Penmer Gulac

(Motion to approve the zone change request to "R2" was approved unanimously by the Commission subject to adherence of the requirements/conditions as stated in the official ARC position states; 5 – ayes, 0 – nay)

### Tentative Development Plan

- F. The Applicant, SOFInTek, Inc., (SkyDrenaline Zone) represented by W.B. Flores & Associates; request for a tentative development plan for a proposed vertical wind tunnel amusement attraction on a portion of Lot 5051-2NEW-6NEW-R3, in the Municipality of Tamuning, in an "H" (Hotel/Resort) zone. Application No. 2011-38B.

Case Planner: Celine Cruz

(Acting Chairman Arroyo stated that there were a few issues that the Commission needed to resolve with respect to the Tagada approval (NOA); the proposed project on the site may have an effect on a condition contained with the NOA. It was the order of the Chairman to continue the hearing of this application until after the Commission has had some time to further discuss with the Chief Planner and Tagada on the issues that are affecting the notice of approval of Tagada.

#### **V. Miscellaneous Matters**

#### **VI. Adjournment**

**Acting Chairman Arroyo** motion has been moved and seconded. Any discussion?

**Commissioner Limtiaco** Mr. Chair we do have a letter from I guess some of the residents opposing this application. I just want to address for the record, a couple of the Chief's reasons that some of the nearby residents are complaining. From what I gather reading this opposition letter these residents are objecting to spot zoning. Specifically that they would not like the Commission to spot zone this particular parcel to have more industry in this area in which they live. My point here is that the Chief Planner had included this in his report that this area unfortunately, is right under the flight path of the airplanes. I think that as our only international airport on Guam, our only airport on Guam where they have more air traffic rather than less air traffic that things are going to be bigger. Unfortunately, that situation to going to make this area even more right for possible accidents, noise related to the airlines (to the flights rather). So in this case I don't believe that we are about to do or what Mr. Park had motioned to approve this application is considered spot zoning. I think it that it is more of a (undecipherable) planning of what this area should be and what is the best and highest use of this area because we don't have an updated master use plan, and I would be remiss not to point that out in this meeting. So with that, I just wanted to point that out and share by thoughts.

**Commissioner Park** thank you for Commissioner Limtiaco's excellent comment. Actually, that was my opinion too.

**Acting Chairman Arroyo** great ... great to have it on the record. All in favor please say "aye" [Acting Chair Arroyo, Commissioners Park, Limtiaco, Bathan and Cruz] and those oppose say "nay."

(Motion passes; 5 ayes, 0 – nay)

#### **Zone Change**

- E. The Applicant, Hang Chieng Tan (Inarajan Garden House) represented by Harry D. Gutierrez; request for zone change from "A" (Rural) to "R2" (Multi-Family Dwelling) zone to allow for multi-family uses for affordable rentals and short/long term transient accommodations on Lot No. 91-1NEW, in the municipality of Inarajan under Application No. 2013-32.

Case Planner: Penmer Gulac

**Penmer Gulac** Mr. Chairman and Commissioners; basically this application is going before the Commission to legalize the uses that are existing already on the property from agricultural to multi-family dwelling uses. As stated by the Chief Planner it is going to be for affordable rentals and long/short transient accommodations. It is located in the beautiful village of Inarajan and the area is fully developed with all infrastructures in place.

(Mr. Gulac continues with the summarization of the staff report to include the public hearing results, staff analyses/discussion, recommendation and conditions.)

(Attachment E – Staff Report dated September 30, 2013)

**Acting Chairman Arroyo** questions for staff?

Commissioner Darian I have a question. On your report there were the previous actions that was in 1982 approved conditional use permit and March 22, 1989 for conditional use permit and variance for use as a dormitory. If this application gets approved today what happens to those previous actions? Are they replaced or not in affect anymore?

Marvin Aguilar it is superseded by this action.

Commissioner Cruz at this time my question is normally other action that goes before we also ask if there is a resolution from the Municipal Planning Council. And somehow, although I understand that the Mayor did testify supporting it. I know where this project is and I've seen it and everything and have no objection. The only thing is that we normally did ask something from the Mayor's Council resolution. Is there anything from the Mayor other than her public testimony?

Penner Gulac (Case Planner) she made it official that as the Mayor that she supports the application with no objection. And there were no objections from the agencies.

**(There was a brief discussion amongst the Commissioners regarding conditions on this zone change application.)**

Commissioner Park if we require a Municipal Council's resolution we may decide at the next meeting.

Commissioner Lintiaco does Inarajan have an MPC?

Penner Gulac yes they do Commissioner.

Commissioner Park I agree with Commissioner Cruz that we usually require that resolution, and we would like to proceed with the condition, but unfortunately we cannot put any condition in zone change.

Commissioner Cruz I understand. That's just so called FYI.

Acting Chairman Arroyo so any other questions of the staff? (None)

Harry Gutierrez I think the Chief Planner has explained everything efficiently. I was called into this to verify the zoning on this property and through a thorough research they have been issued an R2 license to operate apartments/hotel for the last 14 years. And everybody took upon themselves that it is an R2 and after doing a thorough research with the planners we found out that it's not. So, we just wanted to make it legal. The owner right now has upgraded everything to put the ADA requirements and put in additional parking stalls to meet the 29-units; we have more than enough parking stalls.

Acting Chairman Arroyo any questions?

Commissioner Cruz no questions.

Acting Chairman Arroyo I'd like to open it up for public comment. Is there anyone present who would like to say anything with respect to this application?

**(Public Comment – none noted; Acting Chair Arroyo closed public comment period)**

**Commissioner Bathan** I move to approve Application No. 2013-32 for a request for zone change from agriculture to R2 multi-family dwelling to low multi-family uses for affordable rentals and short/long term transient accommodations on Lot No. 91-1NEW in the municipality of Inarajan subject to staff conditions and ARC position statements.

**Acting Chairman Arroyo** I have a motion can I get a second. **(Motion is seconded by Commissioner Cruz)** Discussion?

**Commissioner Bathan** this is the right thing to do to change the zoning from "A" to "R2" since the project has already been in existence.

**Commissioner Park** as Commissioner Cruz mentioned about the municipality resolution. I think as we don't have any opposition from the public comment period and then we did not notice any objection opposing in the public hearing so I think we can maybe proceed.

**Acting Chairman Arroyo** any other discussion? (None) All in favor say "aye" [**Acting Chairman Arroyo, Commissioners Bathan, Cruz, Limtiaco and Park**] and those oppose say "nay."

**(Motion passes; 5 ayes, 0 nay)**

**Marvin Aguilar** reads the next agenda item –

#### **Tentative Development Plan**

- F. The Applicant, SOFInTek, Inc., (SkyDrenaline Zone) represented by W.B. Flores & Associates; request for a tentative development plan approval for a proposed vertical wind tunnel amusement attraction on a portion of Lot 5051-2NEW-6NEW-R3, in the Municipality of Tamuning, in an "H" (Hotel/Resort) zone, under Application No. 2011-38B.

Case Planner: Celine Cruz

**Celine Cruz** I would like for the record provide clarification; the date the application was accepted was June 25, 2013 and it was heard by the ARC on July 18, 2013. (Ms. Cruz continues with the summarization of the staff report to include the purpose, facts, staff analysis/discussion, and recommendation/conditions.

**(Attachment F – Staff Report dated September 23, 2013 and Attachment F-1 Supplemental Staff Report dated October 9, 2013.)**

**(Commission pauses to review the Supplemental Staff report that was given just prior to the beginning of today's hearing.)**

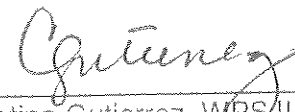

**Acting Chairman Arroyo** questions of the staff?

**Commissioner Park** I remember that we approved Tagada before which includes the lot in this application. So will be the amendment or whether the first application or the current application has to be amended before we entertain this application. Would you clarify please.

**DECISION GRANTING ZONE CHANGE**  
(with findings)

**Guam Land Use Commission**

**WHEREAS**, the following decision of the Guam Land Use Commission is made in accordance with 21 GCA §61630, now therefore;

**WHEREAS**, prior to consideration of the application by the Guam Land Use Commission, a hearing on the Zone Change was held on the 30<sup>th</sup> day of July 2013, in the Municipal District of Inarajan, where the property to be rezoned was located pursuant to Title 21GCA §61633.

**WHEREAS**, notice of the time and place of the hearing was published in a newspaper of general circulation on the 20<sup>th</sup> day of July, 2013 as evidenced by affidavit by an affidavit of publication attached as **Exhibit A**.

**Decision Granting Zone Change (with findings)**  
**Page 2**

**WHEREAS**, notice was mailed to the Mayor of the Municipal district concerned and to those landowners owning land within 500 feet of the property where the property to be rezoned is located as evidenced by the affidavit of mailing attached as Exhibit B.

**BE IT RESOLVED**, that on the 10<sup>th</sup> day of October, 2013, a hearing of the Guam Land Use Commission (GLUC) was held in accordance with notices duly issued to consider the application of : Inarajan Garden House & Hang Chieng Tan, (Lot 91-1New), for a **Zone Change of the aforementioned lot in the Municipality of Inarajan.**

A quorum of the Commission was present. In attendance were:

1. Mr. John Z. Arroyo, Chairperson, Acting
2. Mr. Victor F. Cruz, Commissioner
3. Ms. Conchita D. Bathan, Commissioner
4. Mr. Andrew Park, Commissioner
5. Ms. Tricee P. Lintiacco, Commissioner

Appearing for the applicant was: Mr. Harry D. Gutierrez, Consultant/Representative

Also appearing and testifying on the above project was:  
none in favor/against

After considering all the statements and testimony presented by interested parties the GLUC finds that the application for zone change is granted on the following grounds:  
(Note: All three (3) sections should be answered.)

- (A) **Public Necessity**: The following facts support a finding that public necessity justifies the zone change.

We, the Commission, find and agree to the zone change of the lot and existing multi-family /residential type development on the property with amenities will accommodate a growing island population for housing accommodations, and the anticipated military build up to support housing requirements in the next few years and beyond. There will be a demand for more housing for locals and transient residents. The Commission finds, the existing development will be beneficial in providing needed additional public housing for our island community;

**Decision Granting Zone Change (with findings)**  
**Page 3**

**(B). Public Convenience: The following facts support a finding that public convenience justifies the zone change.**

We the Commission, find, that the zone change of the lot with the existing residential units would be consistent with the current land uses in the immediate area. The location is along a major roadway (Route No. 4) Chalan Kanton Tasi, and easily accessible and will provide public convenience for the need of additional public housing for the southern areas and to the general public population. It is near schools and public facilities in the southern area;

**(C). General Welfare: The following facts support a finding that general welfare justifies the zone change.**

We, the Commission, find the zone change of the lot will protect the general public, the immediate surroundings and properties by being consistent for residential accommodations and related activities that is on-going at the present time and for future requirements of the community for additional public housing of the our growing community. The applicant/company will continue to employ residents and contribute to the economic tax base. The owners will ensure that all permitting requirements and conditions of the land use commission and all government agencies requirements are adhered to as well as to minimizing impacts to the immediate surroundings and to the general public and specially to our environment and the seashore area.

We, the Commission, further find that the rezoning this lot is best suited for residential type accommodations, currently existing facilities, and related type uses permitted by the zoning law.

The members, after due consideration voted to approve the application. The vote of the members was as follows:

5 Ayes 0 Nays 0 Abstentions

This decision was adopted this 10<sup>th</sup> day of October, 2013, and shall be submitted to the Governor for final approval pursuant to Title 21 GCA §61634.

Dear Sir/Madam:

An application has been filed with the Guam Land Use Commission (GLUC) by:

**The Applicant, Inarajan Garden House Inc., Hang Chieng Tan, President, represented by Harry D. Gutierrez, request for a Zone Change from "A" (Rural) to "R-2" (Multi-Family Dwelling) zone to allow multi-family uses for affordable rentals and for short/long transient accommodation, on Lot 91-1NEW, in the Municipality of Inarajan, under Application No. 2013-32.**

For any **Zone Change** requests, the Guam Land Use Commission is mandated by law to conduct a Public Hearing in the Municipal District where the property is located. Accordingly, a Public Hearing on this application is scheduled to be held:

**PLACE:** Inarajan Mayor's Office  
**DATE:** July 30, 2013, Tuesday  
**TIME:** 7:00 p.m.

As a property owner identified within 500 feet of this proposed development, we invite you to attend this Public Hearing and participate in the review process and to express your opinion on this application. If you are unable to attend the Public Hearing, please submit written comments to our office on or before, **July 29, 2013, Monday**. Written comments should be addressed to:

**Chairman, GLUC or Executive Secretary, GLUC**  
**c/o Department of Land Management**  
**Land Planning Division**  
*P.O. Box 2950, Hagatna, Guam 96932*

Accordingly, a GLUC Hearing for this application will be advertised in the Pacific Daily News open ad, Government meeting, and the website.
