1. APPLICATION SUMMARY:

Mr. and Mrs. Curt Cruz, the owner, requests approval for rezoning Lot 17, Block 7, Barrigada from "R-1" (Single-Family Dwelling) to "R-2" (Multi-Family Dwelling) Zone in order to allow construction of a 2-storey Duplex and for future expansion to 4-units for family and rentals.

2. JUSTIFICATION : The criteria of **PUBLIC NECESSITY, CONVENIENCE and GENERAL WELFARE AND SAFETY** must be justified.

We provide the following:

**PUBLIC NECESSITY and CONVENIENCE**

The requested zone change is from "R-1 to "R-2" for the purpose of future development/construction of a Duplex and multi-family units for family and public rental units. In this regard, applicants have cited primary purpose for residential uses for their children family. One primary purpose of this program (Summary Zone Change) is to allow the property owners to rezone their properties in order to utilize their property in a manner that enhances their livability or livelihood unlike those major zone changes that result in major developments.

We find that the rezoning is required for zoning conformance in order for the Applicants to realize future construction/expansion for increase in density and for rentals to the general public and still provide housing for their siblings and their immediate families.

**GENERAL WELFARE AND SAFETY**

We have concluded our site inspection and did physically find that water, power, sewer, roadways and other utilities are existing and available near the lot and along the public easement. DPW, GWA, GPA, BoPS and DPR/HPO have submitted their certification and have no objections. While we have not received certifications from Guam EPA, we note that water and sewer are within the immediate area located along the public easement. It will be obvious that during the permitting phase, that requirements/clearance for water and sewer/waste water connections will be required for the proposed development of the subject lot. Connection to public sewer ensured protection of the waterlens and public health and welfare.

**NOTICE OF ACTION  
SUMMARY ZONE CHANGE**

**Application No. 2014-06**

**Lot 17, Block 7, Barrigada**

**Date of Preparation of NOA: April 18, 2014**

**Page 3 of 5**

Relative to the rezoning action, we find that there are no objections to the request. That neighbors signed a petition supporting the zone change and a Barrigada MPC Resolution was submitted by the Mayor supporting the zone change. That the proposed rezoning and development is conducive to the immediate land uses of single-family and multi-family residences within immediate and nearby surroundings, all infrastructure are all available and we therefore, find that there will be no significant impact on existing infrastructure and surrounding neighborhood, and will further provide housing for their family and the general public.

**Therefore, it is our conclusion that the criteria as cited above has been satisfied.**

**3. DIRECTORS'S DECISION: APPROVED WITH CONDITIONS**

**4. CONDITIONS OF APPROVAL: Applicant(s) shall:**

- a. Comply with all permitting Agency Conditions and requirements; and
- b. That any revisions of Building construction Site Development Plan shall show details of structure location, parking layout, landscaping plan, sewage disposal type and connection; and further, that a copy of the floor plans shall be submitted to the Guam Chief Planner; and
- c. That any future increase in dwelling units or on the "intensity of use" from the approved revised plans shall require the Applicant to resubmit a new request and the proposed new Site Development Plan to the Chief Planner, Land Management for his reevaluation; and
- d. That such reevaluation may include another review by the appropriate Application Review Committee Agency and/or by the Municipal Planning Council to determine the physical, social and environmental impacts of the revised changes; and
- e. That under this Zone Change process, it shall not include conversions to: HORIZONTAL PROPERTY REGIMES (under 21 GCA, Chapters 45); TIME SHARE OWNERSHIP (under 21 GCA, Chapter 47); HOTELS/MOTELS; and RESIDENTIAL COMMERCIAL ACTIVITIES SUCH AS LAUNDRY ROOMS, GIFT SHOPS, AND THE LIKE; and TEMPORARY WORKFORCE HOUSING FACILITIES; and
- f. That the development be hooked up to public sewer and comply with GEPA's wastewater disposal system requirements and conditions; and
- g. That the Development shall be service with a Government approved Trash Receptacle; and

4. **DISCUSSION AND ANALYSIS:** The criteria of **PUBLIC NECESSITY, CONVENIENCE and GENERAL WELFARE AND SAFETY** must be justified.

We provide the following:

**PUBLIC NECESSITY and CONVENIENCE**

The requested zone change is from "R-1" (Single-Family Dwelling) to "R-2" (Multi-Family Dwelling) zone for the purpose of allowing the construction of a residential duplex and for future expansion for family and rentals. In this regard, applicants have cited primary purpose for residential uses for family members. One primary purpose of this program (Summary Zone Change) is to allow the property owners to rezone their properties in order to utilize their property in a manner that enhances their livability or livelihood and also to provide affordable housing rental for the community.

We find that the rezoning is required for zoning conformance in order for the Applicants to realize future expansion for increase in density for future rentals to the general public and still provide housing for their siblings and or their immediate families.

**GENERAL WELFARE AND SAFETY**

We have concluded our site inspection and did physically find that water, power, sewer, roadways fronting the property. GPA, DPW, GWA, DPR/HPO & BOPS all have submitted their official certification with no objection. The proposed structure will be connected to public sewer to ensure a safe environment for the applicants and the adjacent neighbors. While we have not received certification from Guam EPA, we note that there is public water and sewer connections are fronting the property. It will be obvious that during the permitting phase, that requirements for new water and sewer connections will be required for the propose development.

Relative to rezoning action, we found no objections from immediate neighbors and or immediate lot owners. A petition of support from neighbors and Barrigada MPC Resolution was received supporting there zone change. The proposed rezoning and development is conducive to the immediate land uses of single-family and multi-family residences as well commercial land uses within the immediate or nearby, all infrastructure are available and we therefore, find that there will be no significant impact on existing infrastructure and surrounding neighborhood .

Therefore, it is our conclusion that the criteria for the rezoning as cited above has been satisfied.

5. **STAFF RECOMMENDATION:** Planning Staff recommends **Approval** of the Summary Zone Change request with the following conditions:
- a. Comply with all permitting Agency Conditions and requirements; and
  - b. That any revised Building construction Site Development Plan shall show details of structure location, parking layout, landscaping plan, sewage disposal type and connection; and further, that a copy of the floor plans shall be submitted to the Guam Chief Planner; and

Also, the Barrigada Municipal Planning Council finds that neighbors residing in and around Lot No. 17 Block 7, Barrigada, support the zone change and application of the property owners.

Furthermore, the Guam Waterworks Authority has reviewed the SZC application and has determined the following:

1. that there is an existing 8.0" sewer line and an 8.0" water line located along Tiyan Place fronting the subject lot; and
2. the applicant is subject to the "Water and wastewater Development Fees" would be applicable at the time of building permit issuance.

A formal MPC resolution will be forwarded to you once adopted by the Council.

More importantly, the Barrigada Municipal Planning Council has reviewed the request and finds the following:

1. Based on GPA's preliminary inspection of the site, electrical facilities may require upgrading to meet the demand of the proposed project. The applicant and not the government, will be responsible for the costs of any required system upgrade.

2. Government services facilities and infrastructure currently services the area, including but not limited to: power lines, poles and facilities; water pump lines, pumps and facilities; sewer and liquid waste disposal; storm water disposal; solid waste disposal; telephone lines and facilities. The applicant and not the government, will be responsible for the costs of any required system upgrade.
3. Once the rezone request is approved, the applicant should take appropriate measures to ensure that the property will be landscaped in such a way as to reduce storm water runoff, while at the same time provide a buffer between his property and the neighborhood.

MEMORANDUM

To: Chairperson, Guam Land Use Commission

Via: Executive Secretary, Department of Land Management

From: Director, Bureau of Statistics and Plans

Subject: Position Statement on **Application No. SZC 2014-06**; Curt and Michelle Cruz;  
Lot No. 17, Block No. 7; Barrigada; Summary Zone Change; Proposed Use:  
Residential: residential duplex with future expansion to 4 units.

Pursuant to Public Law 21-82, Section 4, as amended by Public Law 21-144, Section 8, the applicants, Mr. and Mrs. Curt and Michelle Cruz, are requesting a summary zone change of Lot No. 17, Block No. 7 in the municipality of Barrigada from an "R-1" Single-family residential to "R-2" multi-family residential. The rezoning of the subject lot will allow for the construction of a 2-storey duplex. In the future, the applicants intend to convert the structure into 4-units for family and for future rentals. The subject lot has an area of 929 square meters, and is served by the basic infrastructure of sewer, power and water. The surrounding land uses consist predominantly of single family residences, some duplexes and multi-family dwellings.

Based on our review of the subject application as submitted, the Bureau provides the following comments and/or concerns.

1. Should the zone change be approved, the Bureau recommends that there are measures to ensure that the property will be landscaped in such a way to provide a buffer between the subject lot and the other residential dwellings as this will help reduce storm water runoff and improve the area aesthetically. It is recommended that native plants be used in the landscaping.
2. Based on our calculations, the applicants meet the parking requirement on-site for the proposed units. There is a possibility of overflow parking, but we feel it would not be a major impact to the neighborhood.
3. The applicants have circulated a petition of support in the surrounding neighborhood, and thus the community is made aware of the plans to rezone for the proposed duplex with future plans for 4-units.

In light of the points presented in the application, the Bureau finds the proposed summary zone change request to be adequately presented and believes that the rezoning of this lot will not have adverse effects on the surrounding neighborhood. The Bureau therefore recommends approval. Si Yu'os Ma'ase.

**Subject:** Summary Zone Change Application on Lot 17, Block 7, Tract N/A,  
Municipality of Barrigada.

Dear Sir,

Pursuant to Public Law 21-82, (as amended by P.L. 1-144), We are submitting an application for a Summary Zone Change on the above property.

**A. What is the current zone on the property?**

The current zone on the property is "R-1" (single family).

**B. Who currently owns the property?**

My wife, Michelle Nicole Brown Cruz, and I, Curt William Aguon Cruz, are the current owners of the property.

**C. How did you acquire the property?**

We have acquired this property Deeded to us through Gift.

**D. What is currently on the property?**

Currently, the property has an old house that is to be demolished

**E. Is/Are your structure(s) serviced by public sewer or by an individual septic tank/leaching field?**

Individual septic tank/leaching field but public sewer is available along the road fronting property; will be connecting to public sewer with the approval of GWA.

**F. What are our intentions or plans?**

Our reason for applying for a zone change is to build a duplex home and for future expansion up to four units for family and rentals.

**G. Surrounding uses: Briefly identify other types of uses or structures in the immediate vicinity surrounding your property. (i.e., to the north is a duplex, to the south is a retail store, or vacant, etc.).**

Structures surrounding our property mostly consist of single family dwellings with a few duplex homes. Just southwest of our property is a vacant lot and a duplex home. In the immediate area just west of us is another duplex home.

750ft north are commercial buildings that consist of restaurants and retail stores. slightly northwest you will find a large vacant lot with single family dwellings surrounding it. A church is located at northeast of our property at about the 750ft marker.

To the east are more single family dwellings but further east, at the 750ft mark, is a Community Center that has a playground area, a basketball court, a volleyball court, and a public library.

South of our property are more single family dwellings with several vacant lots stretching from the southwest to the southeast.

**H. Topography:** Describe the topography of your property.

The property is relatively flat.

**I. Soil composition:** Very briefly describe your soil using layman's language. (i.e., rocky, clay, sand, mixed, etc.).

The soil composition of our lot consists sand.

**J. Access:** Describe the legal access to your property.

The access to the property is serviced by a 20ft wide coral based entrance road.

**K. All others:** Lastly, mention any other attributes of your property that will help us evaluate your application.

The subject lot has all the major elements required by an R-2 zone. Size of lot, existing access, and availability of public sewer and storm drain. As for its intended use to build a multi-family dwelling, it is consistent with its surrounding use. Development of the proposed duplex will be within the requirements of GovGuam agencies: such as parking, setbacks, recreation area, and utility capacity.

Thank you for taking time to evaluate our Summary Zone Change application and we hope you consider our request to rezone.

Senseramente,

Re: Support of Summary Zone Change for CURT W.A. CRUZ & MICHELLE M.B. CRUZ on  
Lot/Block/Tract 17 / 7 in the Municipality of BARRIGADA

Dear Sir:

I (*Print Name*), \_\_\_\_\_ a resident/property owner have been advised that CURT & MICHELLE CRUZ owner of Lot 17 Block 7 Tract N/A and a long time resident of this village of BARRIGADA has applied for a Zone Change with your Department under the **"Fast Track Zone Change Program" (P.L. 21-82:4)**. He/She plans to build a DUPLEX single-family residence/apartment complex to provide for his/her children. I want to go on record as supporting his/her children. I want to go on record as supporting his/her application as acknowledged by my signature below.

I know or have known CURT & MICHELLE for \_\_\_\_\_ years and believe he/she is a person of good moral character, responsible and dedicated to both his/her family and community. I believe that his/her plans to develop his/her property will benefit \_\_\_\_\_ and will not be detrimental in any way.

Lastly, as a resident of Guåhan, born and raised on Guåhan, I strongly feel that CURT & MICHELLE CRUZ should be given the opportunity rarely afforded to the average resident of Guåhan, but is all too often afforded to developers.

Therefore, I stand in support on his/her Zone Change Application.
