Hafa Adai Madam Speaker,

This letter is to respectfully notify you that the Guam State Clearinghouse (GSC) has received a federal grant application from the Bureau of Statistics and Plans. The GSC has accepted the application, assigned the State Application Identifier (SAI) 90005161157Y and has initiated the process for an intergovernmental review. An abstract of the project is provided below.

Grantor: National Oceanic and Atmospheric Administration, U.S. Department of Commerce

Grant Title/

Project Title: Pacific Fisheries Data Program Cooperative Agreement - FY 16-18

Details: The Bureau of Statistics and Plans (BSP) submitted a federal grant application requesting funds to continue collecting and providing fisheries data under the Western Pacific Fishery Information Network (WPacFIN). Funding will provide the salary of (1) Data Control Clerk II to include retirement fund, life and health insurance. Computer and office equipment will be needed along with contractual services for maintenance and repair of computer and office equipment, computer-to-computer telecommunications, automobile maintenance and repair, and copier lease. Other costs will include telephone links.

Start Date: 07/01/2016

End Date: 06/30/2019

Federal Grant: \$174,000.00

GSC conducts intergovernmental reviews and solicits comments through electronic communication and this notice is sent to you as a part of the review process. A digital copy of the grant proposal is attached for your perusal. Please submit any comments you may have pertaining to this proposal to Melissa Tayama by **July 20, 2016** via email at melissa.tayama@guam.gov.

Subject: **INTERGOVERNMENTAL REVIEW: PACIFIC FISHERIES DATA PROGRAM COOPERATIVE AGREEMENT GRANT APPLICATION - FY 2016 to FY 2018**

Hafa Adai! Submitted for your review and consideration is the multi-year grant application to implement the Cooperative Agreement between the National Marine Fisheries Service and the Bureau of Statistics and Plans to collect and provide fisheries data under the Western Pacific Fishery Information Network (WPacFIN). The Bureau is requesting \$58,000 annually in federal funds for fiscal years 2016 to 2018 for a total of \$174,000, from the National Oceanic and Atmospheric Administration's (NOAA) National Marine Fisheries Service. The local match requirement has been waived.

The National Oceanic and Atmospheric Administration (NOAA) Fisheries issues multi-year awards for those programs identified as having recurrent (annual) awards and have minimal changes in funding levels year-after-year. We respectfully request a concurrent review on this grant application so that we may be able to secure funding for the next three years.

Guam continues to participate in this on-going partnership with member agencies to provide fisheries information when, where, and in the quality needed by the National Marine Fisheries Service and the Western Pacific Regional Fishery Management Council. Through this cooperative effort, data collection activities, analysis, processing and meeting reporting requirements will continue to support the program's main objective to develop and evaluate sound fishery management plans for the Western Pacific Region.

If you should have any questions regarding this matter, please do not hesitate to contact me or Ms. Monica Guerrero, Planner IV, at 472-4201/2/3.

ASSURANCES - NON-CONSTRUCTION PROGRAMS

Public reporting burden for this collection of information is estimated to average 15 minutes per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding the burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to the Office of Management and Budget, Paperwork Reduction Project (0348-0040), Washington, DC 20503.

PLEASE DO NOT RETURN YOUR COMPLETED FORM TO THE OFFICE OF MANAGEMENT AND BUDGET. SEND IT TO THE ADDRESS PROVIDED BY THE SPONSORING AGENCY.

NOTE: Certain of these assurances may not be applicable to your project or program. If you have questions, please contact the awarding agency. Further, certain Federal awarding agencies may require applicants to certify to additional assurances. If such is the case, you will be notified.

As the duly authorized representative of the applicant, I certify that the applicant:

1. Has the legal authority to apply for Federal assistance and the institutional, managerial and financial capability (including funds sufficient to pay the non-Federal share of project cost) to ensure proper planning, management and completion of the project described in this application.
2. Will give the awarding agency, the Comptroller General of the United States and, if appropriate, the State, through any authorized representative, access to and the right to examine all records, books, papers, or documents related to the award; and will establish a proper accounting system in accordance with generally accepted accounting standards or agency directives.
3. Will establish safeguards to prohibit employees from using their positions for a purpose that constitutes or presents the appearance of personal or organizational conflict of interest, or personal gain.
4. Will initiate and complete the work within the applicable time frame after receipt of approval of the awarding agency.
5. Will comply with the Intergovernmental Personnel Act of 1970 (42 U.S.C. §§4728-4763) relating to prescribed standards for merit systems for programs funded under one of the 19 statutes or regulations specified in Appendix A of OPM's Standards for a Merit System of Personnel Administration (5 C.F.R. 900, Subpart F).

Applicants should also review the instructions for certification included in the regulations before completing this form. Signature on this form provides for compliance with certification requirements under 15 CFR Part 28, 'New Restrictions on Lobbying.' The certifications shall be treated as a material representation of fact upon which reliance will be placed when the Department of Commerce determines to award the covered transaction, grant, or cooperative agreement.

LOBBYING

As required by Section 1352, Title 31 of the U.S. Code, and implemented at 15 CFR Part 28, for persons entering into a grant, cooperative agreement or contract over \$100,000 or a loan or loan guarantee over \$150,000 as defined at 15 CFR Part 28, Sections 28.105 and 28.110, the applicant certifies that to the best of his or her knowledge and belief, that:

(1) No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

(2) If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, 'Disclosure Form to Report Lobbying,' in accordance with its instructions.

(3) The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by section 1352, title 31, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than \$10,000 and not more than \$100,000 for each such failure occurring on or before October 23, 1996, and of not less than \$11,000 and not more than \$110,000 for each such failure occurring after October 23, 1996.

As the duly authorized representative of the applicant, I hereby certify that the applicant will comply with the above applicable certification.

COOPERATIVE AGREEMENT BETWEEN THE NOAA NMFS AND THE
GUAM BUREAU OF STATISTICS AND PLANS**

PROJECT TITLE: Western Pacific Fishery Information Network Cooperative Agreement Between NOAA National Marine Fisheries Service (NMFS) and the Guam Bureau of Statistics and Plans

APPLICANT NAME: Bureau of Statistics and Plans, Government of Guam

PROGRAM NAME: Western Pacific Fishery Information Network

PROJECT PERIOD: July 1, 2016 to June 30, 2019

DATE OF SUBMITTAL: April 1, 2016

I. PROJECT SUMMARY

This project provides technical and financial support to the Guam Bureau of Statistics and Plans' Fisheries staff to collect and provide fisheries data under the Western Pacific Fishery Information Network (WPacFIN), as authorized by 16 U.S.C 18 et seq. Guam's participation in this on-going program with other cooperating agencies is necessary to carry out fishery data collection, analysis, and reporting activities that provide information to the National Marine Fisheries Service (NMFS) and the Western Pacific Regional Fishery Management Council (WPRFMC) in support of fisheries management under the Revised Magnuson-Stevens Fishery Conservation and Management Act.

The Guam Bureau of Statistics and Plans (BSP) is the local agency with the responsibility and authority to monitor fishery transshipment activities at Guam's ports of entry and cooperate with agencies in Guam with the expertise and authority to carry out the needed programs in support of NOAA's sustainable fisheries mission and federal and territorial management requirements.

Originally under the Guam Department of Commerce, Guam has participated in the WPacFIN program since 1994, and has established data collection and processing systems that have been enhanced and supported through this project. In 2002, program functions and responsibilities were transferred to the Bureau of Statistics and Plans by Guam Public Law 26-76. This project is cost-effective and beneficial in accomplishing the cooperative fisheries monitoring goals of the Guam Government and the NMFS in support of fisheries management in the region.

II. Background/Need for Federal Funding

The Western Pacific Fishery Information Network (WPacFIN) is a cooperative effort of the National Oceanic and Atmospheric Administration (NOAA), NMFS Pacific Islands Fisheries Science Center (PIFSC); the the Western Pacific Regional Fishery Management Council (the Council); and the Council's member states and territories. Under WPacFIN, cooperating agencies carry out fishery data collection, analysis, and reporting programs, and data management system activities in support of fisheries management under the Revised Magnuson-Stevens Fishery Conservation and Management Act.

The participating agencies of WPacFIN include the American Samoa Department of Marine and Wildlife Resources (DMWR); the Commonwealth of the Northern Mariana Islands Department of Lands and

Natural Resources, Division of Fish and Wildlife (DFW); the Guam Bureau of Statistics and Plans (BSP) and Guam Department of Agriculture, Division of Aquatic and Wildlife Resources (DAWR); and the Hawaii Department of Land and Natural Resources, Division of Aquatic Resources (DAR); and the NOAA-NMFS PIFSC. WPacFIN collaborating agencies collect and process fisheries data in support of the Council and NMFS fisheries data requirements. The WPacFIN program embodies the general principles of a Federal and State partnership in the collection, processing, analysis, and management of fisheries data and builds upon the long history of cooperation between the agencies.

The operational principles of the WPacFIN program are:

- a) To the extent State agencies will take the lead for operating fishery data collection and management projects in their respective jurisdictions.
- b) To the extent that federal Fisheries Management Plans (FMPs) and associated federal regulations impose additional burdens for data collecting, processing, analyzing and reporting, the Federal government is responsible for covering additional costs.
- c) To the extent possible, the Central WPacFIN staff (NMFS, PIFSC) will work with participating State agencies to upgrade and augment their data collection and management programs to meet FMP-related needs, rather than set up parallel or duplicative federal programs.
- d) To the extent needed for fisheries management, data will be shared among participating agencies, subject to data confidentiality requirements and mutual agreements.

The State agencies already conduct a variety of projects and activities that contribute substantially to the achievement of WPacFIN objectives, using available internal funds and grants. The work under this proposed project, within the limitations of available resources, is intended to augment those existing programs so they can meet federal fisheries management needs. The Statement of Work, which indicates the work planned under this project, should be viewed in the context of overall Cooperative State and Federal data collection, processing, and management efforts. The benefits expected under the proposed project will be maximized only as long as the activities and projects continue as planned.

III. Project Goals and Objectives

The project will continue to support data collection and entry activities under the Pacific Fisheries Data Program regarding transshipped species offloaded by longline vessels at Guam's commercial port. Through the cooperative effort of all member agencies, the overall goal of WPacFIN is to provide fisheries data and information of the quality needed by NMFS and the Council to develop, evaluate, amend, and implement FMPs for the Western Pacific Region. The general objectives to meet this goal include: a) to maintain computer based data processing systems that provide State and Federal fisheries data needed by fisheries managers and associated agencies; b) to provide a means to establish priorities and coordinate plans to improve efficiency, effectiveness, and timeliness of data collection, processing and transmittal to the WPacFIN central office with minimal duplication of effort; and c) to promote development, communication and implementation of system-wide data standards to facilitate collecting, processing, analyzing and reporting data.

IV-1. Statement of Work

Project Period: July 1, 2016 to June 30, 2017

A. Methods/Approach

Data collections will be conducted with the assistance of Guam Department of Customs and Quarantine (Maritime Section), from longline vessel agents/shippers utilizing transshipment log sheet forms developed by the former Guam Department of Commerce and packing lists supplied by agents/shippers. These forms will be verified through direct contact with the agent/shipper, or with the shipper's "Export Declaration", "Bill of Lading", "Certificate of Fish Catch", "Certificate of Loading" and/or "Cargo Manifest" forms.

Implement improved vessel identification and quality control procedures by utilizing information contained on the "Notice of Arrival" forms issued by vessel agents. Work with WPacFIN staff on recommendations to improve the vessel database system and convert data to new operating environments as the need for them arises.

Conduct data processing activities (data editing and entry via the BSP, Planning Information Program Division) from longline tuna vessels' offload and transshipment packing list forms.

Provide data feed to the central WPacFIN data base on a quarterly basis in an agreed upon format. Quarterly transfers shall be completed within 45 days of the end of each calendar year quarter and shall include all year-to-date data collected up to the close of the preceding quarters.

Data belong to the Bureau of Statistics and Plans. Data sharing is by cooperative WPacFIN agreement. Non-confidential summaries are published. Confidential access can be granted to qualified users by WPacFIN only with permission from BSP.

Provide semi-annual and final performance reports within 30 days of the end of every six-month period after the project start date, briefly describing the activities undertaken during the period and any problems encountered, and identifying any additional technical support needed from the central WPacFIN staff. The standard Financial Status form (SF-269) shall accompany the Performance Report.

Maintain and operate internet communications capability with the central WPacFIN office to facilitate software enhancement, troubleshooting, and data transmittal.

Collaborate to maintain open lines of direct and efficient communication between the BSP technical staff and the central WPacFIN staff to support day-to-day exchange of technical information and data. This includes operation of the internet communication identified above, as well as use of telephone capabilities as needed.

Conduct basic time series analysis of the data in response to local, regional and international requests for aggregate reports from data collected under the program.

Participate in technical workshops and training sessions (appropriate BSP staff), including workshops, work sessions, and training programs as mutually agreed to between BSP and WPacFIN Program Manager provided either at PIFSC or on-site at BSP.

Participate on WPacFIN meetings and its Technical Subcommittees.

C. Major Products Utilized

Fisheries data is transmitted to the Secretariat of the Pacific Community for research and analysis purposes affecting fisheries resources and activities in Guam and the Pacific region;

Data is also made available to the Western Pacific Regional Fishery Management Council for program planning and policymaking purposes to ensure sustainability of Guam's fisheries resources.

Transshipment data are transmitted via FTP to the central WPacFIN office on a monthly basis.

Transshipment data and statistics are posted on the Western Pacific Fisheries Information website and the Bureau of Statistics and Plans website for general public use and access.

D. Evaluation of Product Outcomes

As required under the cooperative agreement, semi-annual and final progress reports must be submitted on a timely basis. In addition, the required databases submitted to the central WPacFIN office determines the program's effectiveness in fulfilling the goals and objectives set forth in the project. Frequent communication and coordination with NMFS staff regarding system upgrades, security, data integrity, and the timely response to inquiries (local, private, federal, and non-governmental organizations), also provide useful measures in evaluating program performance.

E. Personnel

The Program personnel provide development and administrative support to facilitate the identification, collection, and reporting of fishery transshipment data to meet the goals and objectives of the WPacFIN Program.

C. Major Products Utilized

Fisheries data is transmitted to the Secretariat of the Pacific Community for research and analysis purposes affecting fisheries resources and activities in Guam and the Pacific region;

Data is also made available to the Western Pacific Regional Fishery Management Council for program planning and policymaking purposes to ensure sustainability of Guam's fisheries resources.

Transshipment data are transmitted via FTP to the central WPacFIN office on a monthly basis.

Transshipment data and statistics are posted on the Western Pacific Fisheries Information website and the Bureau of Statistics and Plans website for general public use and access.

D. Evaluation of Product Outcomes

As required under the cooperative agreement, semi-annual and final progress reports must be submitted on a timely basis. In addition, the required data bases submitted to the central WPacFIN office determines the program's effectiveness in fulfilling the goals and objectives set forth in the project. Frequent communication and coordination with NMFS staff regarding system upgrades, security, data integrity, and the timely response to inquiries (local, private, federal, and non-governmental organizations), also provide useful measures in evaluating program performance.

E. Personnel

The Program personnel provide development and administrative support to facilitate the identification, collection, and reporting of fishery transshipment data to meet the goals and objectives of the WPacFIN Program.

COOPERATIVE AGREEMENT BETWEEN THE NOAA FISHERIES AND THE GUAM
BUREAU OF STATISTICS AND PLANS**

PROJECT TITLE: Western Pacific Fishery Information Network Cooperative Agreement Between NOAA Fisheries and the Bureau of Statistics and Plans

APPLICANT NAME: Bureau of Statistics and Plans, Government of Guam

PROGRAM NAME: Western Pacific Fishery Information Network

PROJECT PERIOD: July 1, 2016 to June 30, 2019

Budget Narrative

The project will support the coordination of data collection and entry activities under the Pacific Fisheries Data Program with reference to transshipped species offloaded by foreign longliners at Guam's Commercial Port. Fisheries data collection will provide federal and local officials with essential information to effectively manage and sustain Guam's fishery resource.

The project will supplement fisheries data collection and reporting activities conducted under the Interjurisdictional Fisheries Act (IFA) program to provide information to the National Marine Fisheries Service (NMFS) and the Western Pacific Regional Fishery Management Council in support of fisheries management and sustainability.

Dear Mr. Calvo:

Enclosed is the signed original Negotiated Indirect Cost Rate Agreement that was processed by our office. If you have any questions concerning this agreement, please refer to the signature page for the name and contact number of the negotiator.

As a recipient of federal funds, the regulations require you to maintain a current indirect cost rate agreement. For provisional/final indirect cost rates, Indirect Cost Proposals should be submitted on an annual basis, and they are due within six (6) months after the close of your fiscal year. For predetermined rates and approved rate extensions, proposals are due in our office six (6) months prior to the expiration of your current rate agreement. Please note that proposals are processed on a first-in, first-out basis.

Common fiscal year end dates and proposal due dates are listed below:

Fiscal Year End Date	Proposal Due Date
September 30 th	March 31 st
December 31 st	June 30 th
June 30 th	December 31 st

Please visit our Web site at http://www.doi.gov/ibc/services/Indirect_Cost_Services for guidance and updates on submitting future indirect cost proposals. The website includes helpful tools such as a completeness checklist, indirect cost and lobbying certificates, sample proposals, Excel worksheet templates, and links to other Web sites.

Sincerely,

Deborah A. Moberly

*Base: Total direct salaries and wages, excluding fringe benefits. The rate applies to all programs administered by the non-federal entity. To determine the amount of indirect costs to be billed under this agreement, direct salaries and wages should be summed and multiplied by the rate. All other program costs, including fringe benefits associated with direct salaries and wages, should be eliminated from the calculation.

Treatment of fringe benefits: Fringe benefits applicable to direct salaries and wages are treated as direct costs; fringe benefits applicable to indirect salaries and wages are treated as indirect costs.

A. Limitations: Use of the rate(s) contained in this agreement is subject to any applicable statutory limitations. Acceptance of the rate(s) agreed to herein is predicated upon these conditions: (1) no costs other than those incurred by the subject organization were included in its indirect cost rate proposal, (2) all such costs are the legal obligations of the grantee/contractor, (3) similar types of costs have been accorded consistent treatment, and (4) the same costs that have been treated as indirect costs have not been claimed as direct costs (for example, supplies can be charged directly to a program or activity as long as these costs are not part of the supply costs included in the indirect cost pool for central administration).

B. Audit: All costs (direct and indirect, federal and non-federal) are subject to audit. Adjustments to amounts resulting from audit of the cost allocation plan or indirect cost rate proposal upon which the negotiation of this agreement was based will be compensated for in a subsequent negotiation.

C. Changes: The rate(s) contained in this agreement are based on the organizational structure and the accounting system in effect at the time the proposal was submitted. Changes in organizational structure, or changes in the method of accounting for costs which affect the amount of reimbursement resulting from use of the rate(s) in this agreement, require the prior approval of the responsible negotiation agency. Failure to obtain such approval may result in subsequent audit disallowance.

D. Rate Type:

1. Fixed Carryforward Rate: A fixed carryforward rate is based on an estimate of the costs that will be incurred during the period for which the rate applies. When the actual costs for such periods have been determined, an adjustment will be made to the rate for future periods, if necessary, to compensate for the difference between the costs used to establish the fixed rate and the actual costs.

2. Provisional/Final Rates: Within six (6) months after year end, a final indirect cost rate proposal must be submitted based on actual costs. Billings and charges to contracts and grants must be adjusted if the final rate varies from the provisional rate. If the final rate is greater than the provisional rate and there are no funds available to cover the additional indirect costs, the organization may not recover all indirect costs. Conversely, if the final rate is less than the provisional rate, the organization will be required to pay back the difference to the funding agency.

3. Predetermined Rate: A predetermined rate is an indirect cost rate applicable to a specified current or future period, usually the organization's fiscal year. The rate is based on an estimate of the costs to be incurred during the period. A predetermined rate is not subject to adjustment. (Because of legal constraints, predetermined rates are not permitted for Federal contracts; they may, however, be used for grants or cooperative agreements.)

4. **Rate Extension:** Only final and predetermined rates may be eligible for consideration of rate extensions. Requests for rate extensions of a current rate will be reviewed on a case-by-case basis. If an extension is granted, the non-Federal entity may not request a rate review until the extension period ends. In the last year of a rate extension period, the non-Federal entity must submit a new rate proposal for the next fiscal period.

E. **Agency Notification:** Copies of this document may be provided to other federal offices as a means of notifying them of the agreement contained herein.

F. **Record Keeping:** Organizations must maintain accounting records that demonstrate that each type of cost has been treated consistently either as a direct cost or an indirect cost. Records pertaining to the costs of program administration, such as salaries, travel, and related costs, should be kept on an annual basis.

G. **Reimbursement Ceilings:** Grantee/contractor program agreements providing for ceilings on indirect cost rates or reimbursement amounts are subject to the ceilings stipulated in the contract or grant agreements. If the ceiling rate is higher than the negotiated rates in Section I of this agreement, the negotiated rates will be used to determine the maximum allowable indirect cost.

H. **Use of Other Rates:** If any federal programs are reimbursing indirect costs to this grantee/contractor by a measure other than the approved rate(s) in this agreement, the grantee/contractor should credit such costs to the affected programs, and the approved rate(s) should be used to identify the maximum amount of indirect cost allocable to these programs.

I. **Central Service Costs:** If the proposed central service cost allocation plan for the same period has not been approved by that time, the indirect cost proposal may be prepared including an amount for central services that is based on the latest federally-approved central service cost allocation plan. The difference between these central service amounts and the amounts ultimately approved will be compensated for by an adjustment in a subsequent period.

J. **Other:**

1. The purpose of an indirect cost rate is to facilitate the allocation and billing of indirect costs. Approval of the indirect cost rate does not mean that an organization can recover more than the actual costs of a particular program or activity.

2. Programs received or initiated by the organization subsequent to the negotiation of this agreement are subject to the approved indirect cost rate(s) if the programs receive administrative support from the indirect cost pool. It should be noted that this could result in an adjustment to a future rate.

3. Indirect cost proposals must be developed (and, when required, submitted) within six (6) months after the close of the governmental unit's fiscal year, unless an exception is approved by the cognizant agency for indirect costs.

Initial Negotiation Agreement

Pursuant to 2 CFR 225 (OMB Circular A-87), the U.S. Department of the Interior, Interior Business Center, approves the central services costs cited in the Supplement of this Agreement. This approval is subject to the conditions in Section II below.

Section I: Costs Distributed Through Allocation Plan

The central services costs listed in the Supplement are approved as follows:

<u>Effective Period</u>	<u>Basis</u>
10/01/2014 to 09/30/2015	Fixed with Carryforward

Central services costs are made up of certain specific operating costs of the departments and offices of the Government of the Guam as listed on the attached Supplement.

The Central Services Cost Allocation, as shown in the Supplement, may be included as part of the costs of Guam's departments, agencies, and offices for further allocation to federal grants and contracts performed by the respective departments, agencies, and offices.

Section II: General

Page 1 of 2

A. Limitations: Use of the central services costs contained in this agreement is subject to any statutory or administrative limitations and when ultimately allocated to individual grants or contracts through the indirect cost rates of each department, agency, and office are applicable only to the extent that funds are available. Acceptance of the amounts agreed to herein is predicated upon the conditions: (1) that no costs other than those incurred by the Government of Guam were included for distribution in its Territory-Wide Central Services Cost Allocation Plan as finally accepted and that such costs are legal obligations of the Government of the Guam and allowable under the governing cost principles, (2) that similar types of costs have been accorded consistent accounting treatment, and (3) that the information provided by the Government of the Guam which was used as the basis for acceptance of the amounts or rates agreed to herein is not subsequently found to be materially incomplete or inaccurate.

B. Changes: The fixed with carryforward amounts, if any, contained in this Agreement are based on the organizational structure and the accounting system in effect at the time the plan was prepared and the Agreement was negotiated. These amounts are subject to modification if changes are made in the organizational structure or in the methods of accounting for costs which affect the amount of reimbursement resulting from use of the amounts. The authorized representative of the Interior Business Center must be notified of such changes prior to their effective date. Failure to provide this notification may result in subsequent cost disallowances.

C. Fixed Amount: If fixed amounts are contained in this Agreement, they are based on an estimate of the costs that will be incurred during the period to which the amounts apply. When the actual costs for such period are determined, adjustments will be made in subsequent negotiations to compensate for the differences between the costs used to establish the fixed amounts and the actual costs.

D. Billed Costs: Charges for the services will be billed in accordance with rates established by the Territory and recorded on the books of the operating department, agency, or office responsible for providing the services. Such charges will be based on actual, allowable costs, as defined in 2 CFR 225 (Circular A-87), incurred by the operating department, agency, or office responsible for providing the services. Variances resulting from differences between billed allowable costs and the actual allowable costs for a particular accounting period will be compensated for by adjusting the rates in a subsequent period.

E. Notification to Federal Agencies: Copies of this document may be provided to other federal agencies as a means of notifying them of the Agreement contained herein.
