Dear Mr. Speaker:

Transmitted herewith is Bill 587, which I have signed into law this date as Public Law 20-68.

In order to end fiscal year 1989 with a balanced budget, I request that the Legislature amend Section 1 to read:

"Section 1. Thirty Thousand Dollars (\$30,000) are appropriated from the fiscal year 1990 revenues of the General Fund to the Department of Agriculture for design and Two Hundred Twenty Thousand Dollars (\$220,000) are appropriated from the fiscal year 1991 revenues of the General Fund to the Department of Agriculture for construction of a slaughterhouse."

Sincerely yours,

Joseph F. Ada

COMMITTEE ON ECONOMIC DEVELOPMENT
Twentieth Guam Legislature

REPORT ON BILL NO. 587

AN ACT TO APPROPRIATE THE SUM OF TWO HUNDRED FIFTY THOUSAND DOLLARS (\$250,000) TO THE DEPARTMENT OF AGRICULTURE FOR THE CONSTRUCTION OF A SLAUGHTERHOUSE

I. PREFACE

The Committees on Economic Development and Ways & Means held a joint public hearing on Monday, 08 May 1989, at 9:00 a.m. at the Session Hall of the Guam Legislature. Members present at the hearing were Chairman Edward D. Reyes, Chairman Carl T.C. Gutierrez, and Senators Ted S. Nelson and J. George Bamba.

II. BACKGROUND

Bill No. 587 was introduced by Senators Herminia D. Dierking, Carl T.C. Gutierrez and Joe T. San Agustin. The bill proposes to appropriate the sum of \$250,000 to the Department of Agriculture for the construction of a slaughterhouse facility in a centrally located area of Guam.

III. TESTIMONY

There were nine individuals who testified at the hearing. They were Commissioners Tito Mantanona (Talofofo) and Nonito Blas (Mangilao); Mr. George Pangelinan (President, Hog Producers of Guam); Mr. Antonio F. Campos (Member, Mangilao Municipal Planning Council); Mr. Benny San Nicolas (part-time farmer); Mr. Vincent Leon Guerrero (resident of Mangilao); Mr. N.A. Passeur; Mr. Farong Abawai (Animal Scientist, UOG); and Mr. Antonio S. Quitugua (Director, Department of Agriculture). Commissioner Blas, Mr. Campos, Mr. Leon Guerrero and Mr. Quitugua all presented written and oral testimony; all others presented oral testimony. All who testified supported the construction of a slaughterhouse facility; the only opposition involved the location of the facility.

The following represents a synopsis of the testimony:

- A. **Commissioner Mantanona**, testifying in favor of the bill, stated the need for the facility. At the same time, Mantanona stated that Guam can save shipping costs for the importation of pork.
- B. **George C. Pangelinan** testified that there was a Slaughterhouse Feasibility Study done in 1978 and again in 1981. Despite both studies, however, a facility has yet to be constructed. Pangelinan further stated that Guam imports approximately fifteen million pounds of pork annually, and the construction of a slaughterhouse facility will encourage hog growers to increase their herds not just for the roasters market but also to fill some of the needs currently being met by importation.

- C. **Antonio F. Campos** testified in favor of the bill, but stated he was opposed to the provision locating the facility in central Guam.
- D. **Benny San Nicolas** stated the slaughterhouse facility was needed on Guam and would encourage local farmers to increase their production.
- E. **Vincent Leon Guerrero** testified in favor of the bill, but, along with other Mangilao residents, opposed the possible location in Mangilao. He stated his concern that Mangilao residents were not consulted nor asked to comment on the proposal, as endorsed by the Governor, which would allow the facility to be located at the Department of Agriculture in Mangilao.
- F. **N.R. Passeur** stated his support of the bill, testifying that a slaughterhouse facility was strongly needed. However, he also stated that the facility be privately-operated and not government-run. He suggested that although there is opposition to the facility being located in Mangilao, it should not be located at Cabras Island due to a pig-killing disease as a result of noise.
- G. **Farong Abawai** testified that the bill would provide services as well as increase annual production of pork on Guam.
- H. **Commissioner Blas** noted his concern that Mangilao residents and his office were not consulted on the plans to locate the facility in Mangilao. He testified that he was not against the intent of the bill, only on the proposed location. Blas presented to the Chairman a petition signed by and representing the sentiments of the residents of Mangilao.
- I. **Antonio S. Quitugua** testified in support of the bill in its entirety, adding that a slaughterhouse facility would encourage and develop a commercial livestock industry. The facility, Quitugua noted, is long overdue for the farmers on Guam, citing that the CNMI had already constructed one.

IV. FINDINGS

The Committees find that:

1. All persons who testified favored the construction of a slaughterhouse facility.
2. A slaughterhouse facility is needed to boost the commercial livestock industry.
3. A slaughterhouse facility would minimize the importation of pork into Guam.
4. The residents and leaders of Mangilao favor the construction of a slaughterhouse facility but not to be located in Mangilao.
5. The slaughterhouse facility should initially be government-

run and operated, but eventually and within a reasonable period of time should be privately-operated.

6. The most commonly-mentioned place where the slaughterhouse facility should be located is Cabras Island.

V. RECOMMENDATIONS

The Committees recommend that Bill No. 587 be passed with the following modifications:

1. That the Governor be mandated to select a site not more than thirty (30) days after the enactment of the Bill into law; and
2. That the slaughterhouse facility be government-run and operated for not more than one (1) year and privately-run and operated thereafter or sooner.

AN ACT TO APPROPRIATE THE SUM OF TWO HUNDRED FIFTY
THOUSAND DOLLARS (\$250,000) TO THE DEPARTMENT OF
AGRICULTURE FOR CONSTRUCTION OF A SLAUGHTERHOUSE

1 BE IT ENACTED BY THE PEOPLE OF THE TERRITORY OF GUAM:

2 SECTION 1. The sum of Two Hundred Fifty Thousand Dollars
3 (\$250,000) is appropriated from the General Fund to the Department of
4 Agriculture for construction of a slaughterhouse.

5 SECTION 2. Not later than thirty (30) days after the enactment of
6 this Bill into law, the Governor shall designate a place where the
7 slaughterhouse facility is to be constructed.

8 SECTION 3. The slaughterhouse facility shall be run and operated
9 by the government for not more than one (1) year and be privately run
10 and operated thereafter or sooner.

Slaughterhouse

May 8, 1989

Dear Mr. Chairman,

I am GEORGE S. PANGELINAN, a resident of Yigo, President of the newly organized Hog Producers of Guam. First of all, I would like to thank you for allowing us to be present and testify on the Slaughter House Bill 587, which would create a great impact on our Hog Industry on Guam. We have waited a long time for this and we are glad it would now materialize.

There was a Slaughter House Feasibility Study made in 1978 and again in 1981. Both failed to construct a Slaughterhouse due to insufficient funds and also finding a suitable location, acceptable by the public. Presently we are looking into renovating the Animal Industry building at the Department of Agriculture since it is centralized and utilities are present in the area. We will have a presentation for the Public to provide educational films to show the public that this is not a "Stinch" operation, unlike the former Piggery operation that was shut down at the Department of Agriculture, due to the fact that the animals were held without adequate waste disposal facility. The slaughterhouse will butcher the animals in the morning and on the same day will be sent to Market.

Presently, Guam is importing approximately fifteen million pounds of pork annually. We will not compete with importation, because most of hogs to be slaughtered is for roasting. The slaughter house would provide an avenue to market our hogs, and provide our island with fresh pork. Guam is a high consumer of pork compared to the mainland; per capita, we consumed 64 compared to 57 percent in the mainland.

Besides the incentive programs such as FMHA, GEDA and Agriculture Revolving Fund, the biggest incentive would be the slaughterhouse. With all the above incentive programs our hog growers will increase their herds, and the market for roasters. Also, the Director of Agriculture is planning to bring in quality breeds to upgrade our breeding stock. Just a thought, "A SLAUGHTER HOUSE IS LIKE A BATHROOM, ITS NOT THE BEST ROOM IN YOUR HOUSE, BUT AN OUTLET WE MUST HAVE".

GEORGE S. PANGELINAN
President

Slaughter house

Testimony

Bill 587

Vincent A. Leon Guerrero

May 8, 1987

Mr. Chairman and members of the committee, I am Vincent A. Leon Guerrero and I am a resident of Mangilao. Thank you for allowing me to present testimony on bill 587 . I wish to say at onset that I am in support of the a bill which calls for the development of a slaughterhouse facility in Guam. I am here today however, to register concern over any plan to locate this slaughterhouse in Mangilao. This is also the opinion of many other residents who are unable to be here today. I understand that a petition of protest is currently being circulated in the hope that it may provide this body with an appreciation of the sentiments of the villagers on the proposal. This bill does not identify the specific site for the facility however, we were made aware of a plan that has been endorsed by the Governor calling for the slaughterhouse to be located at the Department of Agriculture. We are saddened that while our draft Commonwealth document demands notification of plans by the Federal Government on matters which affect the general welfare of the island residents, Mangilao residents were not invited to provide comment on the proposal. Had we been invited, planners for the facility would have learned that there are major infrastructure deficiencies associated with the area. Mangilao

has undergone tremendous changes. These changes have had a negative impact on our water, and power systems. Mangilao over the years has been transformed from a rural area to a more urban situation. Slaughterhouses have no place in such an area. Rather they are more appropriate in an area zoned for heavy industrial use. Mr. Chairman and members of the committee, locating the slaughterhouse at the Department of Agriculture will also have an impact on our village children. You may recall that there is an elementary school located within 500 feet from the site. There is the danger that the site may attract rodents and other unsavory creatures to the surrounding vicinity. Some of you may recall the old piggery when it was located at the Department of Agriculture. The smell had a profound effect on real property values, much in the same way that DOC has had. It was a happy day for many when the piggery finally ceased to operate. This proposal threatens the calm that now exists. It would be unfair to burden many area residents who would not benefit directly from the slaughterhouse if the site was to be allowed. Please remember that the surrounding area in question is zoned R-1, or R-2, as such commercial farm operations are not compatible in this zone. Yet, it will be the surrounding residents that will suffer from the daily smells, increased traffic etc. etc.

Mr. Chairman it is for these reasons that I offer as an alternative site for consideration the area near or around the port authority. The site, within the proximity of the port will allow

for future growth. Having the site close to the port may make export a competitive reality. The closeness to the power plants may provide an economical means to operate the slaughterhouse, as the steam generated and released from the power plants can be tapped. I do not profess to have all the answers in this regard but in talking with engineers, the consensus is that the concept is workable. As most of the farming takes place in the northern and southern ends of the island let us take a look at these areas of the placement of the slaughterhouse. We must resist the temptation to do what is expedient and develop a longer range plan that would meet the needs for many years to come. Thank You.

BILL NUMBER 587

As a member of the Mangilao Municipal Planning Council and a resident of Mangilao, with a family who have experienced, having a piggery farm and a herd of cattle as neighbors, I wholeheartedly oppose that portion of Bill 587 where it plotted the "central area of Guam" as the site for the proposed slaughter house. The smell will be unhealthy.

Since the Department of Agriculture, which is in Mangilao, to be the receipt of the \$250,000.00, the area under the Department in Mangilao is not the place for the slaughter house.

Please, if I may suggest, have the slaughter house located where ~~it~~ it is needed most. The district where the animals are.

ANTONIO F. CAMPOS
Member, MMPC and Concern Citizen

Testimony

Nonito Blas, Commissioner of Mangilao

May 8, 1989

Mr. Chairman, Senators My name is Nonito Blas, Commissioner of Mangilao. I am here today to testify on Bill 587, relative to appropriating \$ 250,000.00 for the construction of a slaughterhouse in central Guam. You may recall a few weeks back in the Pacific Daily News an article appeared which reported plans to convert the Department of Agriculture into a slaughterhouse. I am a bit disturbed that the residents of Mangilao nor I were consulted on the plans. Had we been we would have saved the planners alot of trouble. While I am not against the intentions of this bill I am definitely against any plans to locate such a facility in Mangilao. The fact that our village is in the central part of Guam should not be reason to locate the facility in Mangilao. If this was so then why not locate the

Legislature, the Governor's office, or GMH in the central villages because it would be more convenient and centrally located.

Mr. Chairman, there are long standing problems with the plan to place the facility in Mangilao. First and foremost is the fact that our water system cannot handle what is there now. Residents along Route 10 experience low water pressure due to frequent line breaks. This waterline was put in just after the war. In the meantime our village has grown in the number of houses as well as the number of government and commercial facilities. Secondly, Mangilao is not an agricultural district. What little farming that goes on is done along Route 15 and this area especially along the Pagat area has a worst water system than those along Route 10. The funny thing about it is that under both Routes 10 and 15 a huge 18 inch water main goes through my village but none of it flows out of our pipes. Instead it flows out of the faucets in Merizo. My third point is that the residents simply do

not want it in Mangilao period. In my travels throughout the village the overwhelming feeling with our residents is that they do not want the site anywhere in the village. I submit to you signed petitions against the facility in Mangilao. This petition represents the sentiments of the residents. I hope that you take the time to think this out and recommend an alternate sight. Thank you and Si Yuos Maase.

TESTIMONY ON BILL 587

Slaughterhse

Madame Chairman and members of the Committee, my name is Antonio S. Quitugua, Director of Agriculture. Thank you for giving me this opportunity to testify on Bill No. 587, An Act to appropriate the sum of two hundred fifty thousand dollars (\$250,000) to the Department of Agriculture for construction of a slaughterhouse.

I support the intent of Bill No. 587 in its entirety. The \$250,000 would be used to establish a slaughterhouse on Guam to encourage and develop a commercial livestock industry.

Several million pounds of porks are being imported into Guam annually. These are mostly frozen due to the absence of a slaughterhouse facility on Guam.

A slaughterhouse facility is long over due for our farmers on Guam. It is not a new subject to our Government and our producers; it was just never taken seriously. Our neighboring islands of Tinian, Saipan and Rota have built a slaughterhouse for their hog and cattle producers because they see the need for it. Our Hog Producers need this facility too.

If this facility is built under the USDA guidelines, the butchered animals would be marketed as roasters for fiestas, hotels, restaurants, stores, schools, etc. and eventually we could be exporting it to the other islands.

The personnel to run this facility would need some assistance from the Department in the beginning but would gradually be turned over to the Hog Producers Association for lease on a long term basis.

Construction of a slaughterhouse facility, therefore, would be a big plus to our economy on Guam. Besides providing fresh porks, it could provide a wide range of new jobs and the money would remain on the island.

Thank you very much for allowing me to testify on Bill No. 587 and I look forward to your support in the passage of this bill.

ANTONIO S. QUITUGUA
DIRECTOR OF AGRICULTURE

HOG SLAUGHTER EQUIPMENT LIST

Below is an example of equipment used in slaughterhouses. The type of equipment cited below are for a small slaughter operation from "kill" to butcher ready. The prices quoted were obtained from a San Francisco, CA firm and are F.O.B. The shipping and installation costs are not included. Also, refrigeration units, a chill room and freezer, are not included.

<u>ITEM</u>	<u>PRICE</u>
1. Hog Stunner (electric with applicator rod)	\$ 1,540.00
2. Small Animal Hoist	\$ 7,500.00
3. Hog Scalding Vat (for two hogs with steam pipes and throw-out cradle)	\$ 1,915.00
4. Temperature Controller (with thermometer for hog scalding vat)	\$ 650.00
5. Hog Dehairer (20 head daily capacity at 500 lbs. maximum per head - electric)	\$ 4,400.00
6. Hog Singer (hand held torch-type singer used for final dehairing process, excludes gas tanks - note: a hog singing cabinet is available as labor saving device and uniform singing process - the cabinet is estimated to cost \$5-6,000.00)	\$ 300.00
7. Hog Viscera Inspection and Evisceration Operation Table	\$ 1,484.00
8. Hog Carcass Shower	\$ 5,000.00
9. Hog Head Processing Table (with jaw pulling rack, cutting board and removable meat pan)	\$ 1,769.00
10. Hog Splitting Cleaver - price not available but est. @	\$ 250.00
11. Toenail Puller	\$ 30.00
TOTAL	<u>\$24,838.00</u>
