Enclosed please find Substitute Bill No. 56 (COR), "AN ACT TO CREATE THE 'DIPATTAMENTON I KAOHAO GUINAHAN CHAMORRO,' OR 'DEPARTMENT OF CHAMORRO AFFAIRS'", which I have signed into law today as Public Law No. 25-69.

This legislation gathers together the various departments, agencies, divisions, and programs within the government of Guam which have, as their mission, the preservation, promotion, and enhancement of the cultural traditions and practices of our island.

The new "Dipåttamenton i Kaohao Guinahan Chamorro" will give imperus to what is truly Guam, the Chamorro culture, and the many other cultures which have joined in to make Guam unique.

The legislation was originally transmitted by the Executive to i Liheslatura, the Legislature, as a proposal to create the "Chamorro Heritage Institute". The original bill was a design for an autonomous agency, with 5 subdivisions focusing on now-existing and separated programs. The legislation, as passed, changed the name of this new autonomous agency, and deleted some essential transitional matters. Hopefully, these can be revisited in the dialogue between the transition team and i Liheslatura.

Dicarda I Dandalli, co

Speaker/SB56/PL25 9 July, 1999 - Page 2

I am delighted to be the Guam Governor who signs this legislation into law. I want to thank, especially, the members of the Chamorro Heritage Institute Planning Council, headed by Dr. Katherine Aguon, for their dedication and hard work in the drafting of the legislation, in assisting in the floor discussion, and interacting with the legislature during the passage of the bill. I also commend i Liheslatura for the considerable time and attention that was paid to the creation of this most important endeavor in our government. Our culture is our identity and our pride; a most valuable social and economic asset.

Very truly yours,

Carl T. C. Gutierrez
I Maga'lahen Guåhan
Governor of Guam

It is a further purpose of this Chapter to enable the Corporation to aid private enterprise without unfairly competing with it in the expansion of cultural and historical resources for Guam.

- (a) Specific. The Corporation has the following specific purposes and is authorized to:
  - (i) conduct, or cause to be conducted, research and investigation into natural, cultural, medicinal and historic resources, and to publicize the results of these activities as deemed necessary;
  - (ii) except as specifically prohibited in this Chapter, make loans to any person, firm, partnership or corporation licensed to do business on Guam in furtherance of the purposes and activities stated in this Chapter (All loans made shall be of sound value or secured to reasonably assure repayment. Each loan made by the Corporation may be sold to a commercial lending institution for a sum not less than the principal balance of the loan, and the proceeds of the loan shall be returned to the capital fund of the Corporation, subject to the terms specified in a resolution of the Board of Trustees of the Corporation. Our island also is blessed with many beautiful and scenic sites that have been set aside as parks for the enjoyment of residents and visitors alike. Bill No. 56 (COR)

Introduced by:

AN ACT TO CREATE THE "DIPÅTTAMENTON I CHAMORRO", OR "CHAMORRO HERITAGE INSTITUTE".

## BE IT ENACTED BY THE PEOPLE OF GUAM:

Section 1. Legislative Intent. We are a strong and enduring people, proud of our ancient heritage and ready to meet the challenges of the modern high-tech world in which we live. As we prepare to enter a new millennium and assure our place in the community of nations, we draw from the legacy of the past four millennia of Chamorro presence on this island. The continuity of Chamorro language and culture is at a precipice and is in danger of extinction unless we as a community, consciously and deliberately, take the necessary measures to assure the preservation, maintenance, development, and integrity of our rich indigenous heritage. The establishment of the "Dipåttamenton I Chamorro", or Chamorro Heritage Institute, is a major undertaking that will give utmost priority to this quest.

The lives of the Chamorro people have been influenced for centuries by colonization, conquest, war, natural disasters, and tremendous demographic changes in Guam's population.

Chamorro language and culture, however threatened, have continued to survive and co-exist with other ethnic groups in our diverse community. The creation of the "Dipåttamenton I Chamorro", while giving prominence to the Chamorro heritage, will embrace the cultural histories and contributions of all people who have made Guam their home.

1	"Dipåttamenton I Chamorro" represents a unique reorganization effort in government.
2	The bringing together of cultural programs, agencies, and divisions within government, which
3	have a shared vision and mandate, into an integrated institutional framework makes this the
4	first effort of its kind in the government of Guam. The corporate structure being established
5	will enable these programs to resource share, facilitate communications, share expertise,
6	collaborate on the development and planning of projects, develop and enhance cultural
7	facilities and tourist attractions while minimizing the burden on the General Fund. Most
8	importantly, the Corporation will prove to be effective and efficient, provide opportunities to
9	obtain new resources, facilitate international partnerships and support for cultural resource
10	sharing, and enhance collaboration with educational institutions. Not only will this effort
11	assure Guam's identity in a global and regional context, it will uplift the Chamorro spirit in
12	our homeland.
13	Section 2. Creation of Chamorro Heritage Institute. A new Chapter 87 is added to
14	Division 8 of Title 5, Guam Code Annotated, to read:
15	"Chapter 87
16	Dipåttamenton I Chamorro

21	There is created a non-stock, non-profit public corporation to be known as the 'Dipåttamenton
22	I Chamorro' or 'Chamorro Heritage Institute' (hereinafter referred to as the 'Corporation')
23	with functions, powers and responsibilities as provided in this chapter.
24	§87102. Principal Offices. The principal office of the Corporation shall be located in
25	Guam and the Corporation is deemed to be a resident of Guam.

### MINA' BENTE SINGKO NA LIHESLATURAN GUAHAN 1999 (FIRST) Regular Session

Bill No. 56 (COR)

As Substituted by the Committee

Introduced by:

1

Mark Forbes

AN ACT TO CREATE THE "DIPÅTTAMENTON I KAOHAO GUINAHAN CHAMORRO," OR "DEPARTMENT OF CHAMORRO AFFAIRS."

#### BE IT ENACTED BY THE PEOPLE OF GUAM:

We are a strong and enduring people, Section 1. Legislative Intent. 2 proud of our ancient heritage and ready to meet the challenges of the modern 3 high-tech world in which we live. As we prepare to enter a new millennium and 4 assure our place in the community of nations, we draw from the legacy of the 5 past four millennia of Chamorro presence on this island. The continuity of 6 Chamorro language and culture is at a precipice and is in danger of extinction unless we as a community, consciously and deliberately, take the necessary 8 9 measures to assure the preservation, maintenance, development, and integrity of our rich indigenous heritage. The establishment of the "Dipåttamenton I Kaohao 10 Guinahan Chamorro," or Department of Chamorro Affairs, is a major 11 12 undertaking that will give utmost priority to this quest.

The lives of the Chamorro people have been influenced for centuries by colonization, conquest, war, natural disasters, and tremendous demographic changes in Guam's population. Chamorro language and culture, however threatened, have continued to survive and co-exist with other ethnic groups in our diverse community. The creation of the "Dipåttamenton I Kaohao Guinahan Chamorro," while giving prominence to the Chamorro heritage, will embrace the cultural histories and contributions of all people who have made Guam their home.

"Dipåttamenton I Kaohao Guinahan Chamorro" represents a unique reorganization effort in government. The bringing together of cultural programs, agencies, and divisions within government, which have a shared vision and mandate, into an integrated institutional framework makes this the first effort of its kind in the government of Guam. The corporate structure being established will enable these programs to resource share, facilitate communications, share expertise, collaborate on the development and planning of projects, develop and enhance cultural facilities and tourist attractions while minimizing the burden on the General Fund. Most importantly, the Corporation will prove to be effective and efficient, provide opportunities to obtain new resources, facilitate international partnerships and support for cultural resource sharing, and enhance collaboration with educational institutions. Not only will this effort assure Guam's identity in a global and regional context, it will uplift the Chamorro spirit in our homeland.

**Section 2. Creation of Department of Chamorro Affairs**. A new 24 Chapter 87 is added to Division 8 of Title 5, Guam Code Annotated, to read:

- 1 the personnel and compensation law; to require bonds from those that the
- 2 Corporation may designate, the premiums to be paid by the Corporation; and to

If we truly believe in the preservation of our heritage, we must act now. This is not to say that we must renounce everything American or Spanish. Indeed, there were aspects of civilization that were brought to our shores by the Spaniards and Americans that were noble and have become part of our lives. The point I am making is simply that we must preserve and pass on the attributes and legacies that made us what we are today. I like to say that I am an American by choice, a distant descendant of a Spaniard named Palomo who came to Guam in 1725, and possessing a soul that is totally Chamorro. At least a few drops of Chamorro blood run in my vein.

With respect to specifics on the two bills, the following are my comments:

- 1. Merging of culture and heritage-oriented government agencies and parts of agencies would result in better coordination, more efficiency, less cost, and creates a more unified approach in determining general policies. Sharing of resources would be a distinct benefit. Archaeologists, curators, language specialists, historians, accountants, personnel specialists and other technical personnel would be shared by all.
- 2. Creation of a public corporation would lend more credence to community participation and there will be less bureaucracy. This will not simply be a corporate entity within a government but a public corporation that works with and for the benefit of the entire community.
- 3. This committee should give serious thought to giving subsidiary boards some authority in making decisions. When the original bill was submitted for introduction by Governor Carl T.C. Gutierrez in the 24th Guam Legislature, I consulted with the American Association of Museums to see whether the proposed legislation would meet the criteria in obtaining Federal funds and other assistance. In its response to my request, the AAM stated, in part: "IMLS (Institute of Museum and Library Services) is most emphatic that museums within a parent organization must operate independently in order to receive grants in their own name (as opposed to a grant in the parent's name). To be independent they must have a separate advisory body, separate staff, and separate budget." A copy of the AAM's letter, along with my letter requesting AAM's advice, is attached. I certainly would be happy to submit amendments to satisfy this requirement. This question may also be applicable to other subsidiary boards. For your information, the IMLS and AAM have been very helpful to the Guam Museum during the recent past, and we expect more assistance from them in the months and years ahead.
- 4. Bill Nos. 38 and 56 should be reviewed and merged as one since their ultimate goal is, to a great extent, the same. Cultural tourism seems to be the wave of the future and if it can help finance our operation, we should

welcome it. This is where the Guam Visitors Bureau and the Guam Economic Development Authority can help promote our cultural attributes and thus help meet our financial obligations.

Passage of this important legislation means a commitment to the preservation of our culture and heritage. It means an acknowledgment of our past and a desire to pass on our noble values and heritage to posterity.

Sincerely,

ANTONIO M. PALOMO

The section of the legislation relating to the Arts and Humanities Division that you pointed out in your letter mentions that this Division would "...apply for, receive, and disburse the <u>basic state grant</u> from the National Endowment for the Arts and the National Endowment for the Humanities." (Emphasis mine.) One could assume from reading this that the Museums Division could apply for specific grant projects for the museums and not have to go through the Arts and Humanities Division. However, you might wish to clarify this.

I hope this explanation is helpful. Please let us know if you have further questions.

Edward H. Able, Jr.

- be open and providing museum services to the general public (an institution which exhibits objects to the general public for at least 120 days a year fulfills this requirements); and
- be located in one of the fifty States of the Union, the District of Columbia, the Commonwealth of Puerro Rico, Guam, American Samoa, the Virgin Islands, the Commonwealth of the Northern Mariana Islands, the Republic of the Marshall Islands, the Federated States of Micronesia, or the Republic of Palau.

Regulations pertaining to eligibility are included at the end of the booklet.

## MUSEUM

To apply for a MAP grant, you must provide your museum hours (on Application Form page 2.4). Describe the hours that your museum is open to the public each day of the week throughout the year, as in the following example:

MONTH TO MONTH	SUN	MON	TUES	WED	THURS	FRI	SAT
January to March				1-5	1-5	12-5	
April to December		1-5	1-5	1-5	1-5	1-5	12-5

#### MUSEUMS WITHIN MULTIPURPOSE ORGANIZATIONS

If your museum is located within a multipurpose public or private nonprofit organization such as a municipality, university, historical society, foundation or cultural center, you may apply for IMLS funds. To be eligible, however, you must function as a discrete unit within your parent organization.

In addition, your museum must:

- have at least one full-time professional staff member, or the equivalent, paid or unpaid, who is responsible solely for your museum's services and operations; and
- have a fully segregated and itemized operating budger within that of your parent organization; and
- **be able to separately and distinctly fulfill all IMLS eligibility and application requirements.**

Support, auxiliary, one parent organizations that apply on behalf of museums which they own or operate or with which they are affiliated are not eligible to apply for IMLS funds on their own behalf. Funds may be used for the designated project only; they may not be used for other purposes by the larger organization.

Dear Sir/Madam:

The Governor of Guam recently submitted proposed legislation to the Guam Legislature which would, if enacted into law, establish a Chamorro Heritage Institute which would merge all Government of Guam agencies involved in historical and cultural activities, including language, arts, and historical and archival preservation. The Guam Museum is among these agencies.

The Guam Museum is a relatively new agency of the Government of Guam, having been created by law as a separate institution in 1992 after having been under the umbrella of the Guam Public Library for many years.

The Museum currently is governed by a Board of Trustees invested with certain powers, including the adoption of museum policies by resolution, the power to enter into contracts, and the authority to disburse funds from the Guam Museum Fund, to which admission and other fees, along with donations and contributions are deposited.

Under the proposed legislation, the Guam Museum will be governed by a super Board of Trustees, whose authority will encompass all the various agencies, which become divisions of the Chamorro Heritage Institute. The current board will continue to exist but only as an advisory board. All properties, real and personal, belonging to the museum will be transferred to the Institute.

While I personally support the preservation of Guam's cultural heritage, and the proposed merger of agencies may be the way to do it, our current trustees and I are concerned whether the proposal might inhibit the ability of the Guam Museum to perform its mission, including the ability to apply and receive Federal grants and other assistance.

We would be most appreciative if your good organization will review the proposed legislation and advise us on possible changes. You will note that on the section relating to the Arts and Humanities Division (pages 45 through 51), that division generally has a free hand on pursuing its goals and programs on behalf of the Corporation, which is not so with the other divisions.

Dear Mr. Chairman:

Ha'anen Maolek. The Guam Council on the Arts and Humanities Agency supports the passage of:

Bill No. 56 "An Act to Create the "Dipåttamenton I Chamorro", or "Chamorro Heritage Institute"

with two amendments recommended. The amendments are relative to:

- (1) The Art in Public Places (1% for the Arts) portion of the legislation; and
- (2) Division name being given to the Arts and Humanities Division.

These were both addressed at the August 25, 1998 hearing on Bill No. 410, and to which received full support during the hearing, and a copy of the testimony and correspondence relative to these items is attached for your review.

KAHA respectfully requests that these two items be included in the measure before the Guam Legislature through Bill No. 56.

Si Yu'os Ma'ase for your understanding in this matter and for your continued support in the perpetuation of the arts and culture of our Island of Guam.

It is most crucial that the intent of the 1% law be followed to the letter and not compromised or diluted in any way by art-related projects no matter how much merit they may offer. Art related projects that the Corporation may consider a worthy investment may not necessarily qualify if the benefit is not strictly for the artists and would thus circumvent the spirit of the law. The law is very specific about it's intent and it is Guam KAHA's responsibility to ensure that this is honored. Given these facts, even the humanities entity of Guam KAHA may not qualify.

On page 40 of the Chamorro Institute's Planning proposal it states, GUAM KAHA "shall be the sole responsible entity for the implementation and administration of Guam's Art in Public Places, or 1% for Art Program. The Corporation shall oversee the necessary legal compliance of said program as it pertains to public and non-public development projects in consultation with" Guam KAHA.

The enactment of the 1% Law was to address a universal issue that artists are always faced with. Their needs are always secondary to their art. Art is an expression encapsulating the soul of a people and though associating money with art is always considered in bad taste, one must not lose sight of the needs of the artists. Artwork should not necessarily supersede the creator but it almost always does. The 1% law protects the artist from this injustice that they often encounter in their profession. Guam KAHA should have complete jurisdiction over the 1% law because it is our duty to not only perpetuate and protect the art and culture of the People of Guam, but to ensure that the needs and rights of our local artists are upheld. Also, Guam KAHA has the expertise to oversee all aspects of the 1% law and should be allowed to continue their status quo position and responsibilities without any interference. Governor Gutierrez has stated in the past that monies of the 1% Law should be placed in trust with Guam KAHA. We are in complete agreement with the Governor.

Guam KAHA represents much more than a government agency that implements and administers Guam Art in Public Places or 1% for the Art Programs as stated in your proposal for the Chamorro Heritage Institute. The translation of the Chamorro word KAHA means "Treasure Box." Guam KAHA is the keeper or "Treasure Box" of the People of Guam. Our local artists are as much treasures of the People as their artwork, therefore, Guam KAHA should also be the keeper or "Box" of our local artists.

I have just been informed that the Planning Group has requested for the KAHA representative to re-draft the 1% law to incorporate language in which 50% of the 1% would go to the Corporation for art-related projects. Such a request is exactly what we are opposed to since it goes against the very grain of the intent of the law. The entire discussion presented in this correspondence on the necessity to keep the program completely under the jurisdiction of KAHA has now been validated by this new request which would dilute the 1% law by 50% to benefit the Corporation. Because of this new request, I believe further discussions on Guam KAHA's concerns are in order.

#### KAHA Division Name

Another serious concern that affects the Guam Council on the Arts and Humanities Agency is relative to a proposed name change of the agency and of the new name being proposed by the Chamorro Heritage Institute Planning Group.

We are happy to see the Division names emphasized in Chamorro, something which is long overdue, however, from the initial meetings with the Planning Group, the request to retain the present Chamorro translation of the agency was made. This request was made for two reasons.

First, KAHA in the Chamorro translation means "Treasure Box" (this was explained in the previous statements under the 1% law). Because of this explanation, we feel strongly that KAHA is most appropriate for the agency because in essence Guam KAHA is the keeper of the Treasures of the People of Guam.

Second, because of our goals to implement Cultural Tourism we feel that the word KAHA is already established not only in the local community but in the tourist industry as well. It is crucial that we maintain an established name that has become familiar without compromising the integrity of the Chamorro meaning of what our agency represents in our community. The word KAHA does just that.

I fully support the Chamorro Heritage Institute and their vision for our island. However, the issues which have been addressed in this letter must have further discussion before Guam KAHA signs their approval of the agency's portion of the Planning Group's proposal to the Governor.

As the present Executive Director of Guam KAHA, I have been given the responsibility as well as the confidence to fulfill my obligations to our local artists as well as to the People of Guam. For this reason, I am seeking your consideration and understanding in regards to the two issues stated above.

Si Yu'os Ma'ase for your kind attention to this matter.

Mas fi'et.
