AN ACT TO *AMEND* §58104 OF CHAPTER 58 OF TITLE 12, GUAM CODE ANNOTATED, AND ITEMS (3) AND (4) OF §26401(a) OF TITLE 11, GUAM CODE ANNOTATED, RELATIVE TO CREATING TAX INCENTIVES IN THE QUALIFYING CERTIFICATE PROGRAM FOR THE MANUFACTURE, DISTRIBUTION AND SALE OF ALTERNATIVE FUELS AND EXEMPTING SUCH FUELS FROM THE LIQUID FUEL TAX.

1 **BE IT ENACTED BY THE PEOPLE OF GUAM:**

2 **Section 1. Legislative Intent.** *I Liheslaturan Guåhan* finds that Guam's year-
3 round tropical climate makes conditions suitable for growing agricultural products
4 that can be used in the production of bio-fuels. Recent research and advancements in
5 bio-fuel production have shown that bio-fuels can be extracted from vegetable

1 sources other than corn kernels *or* soy beans. Such research includes chemical
2 extraction from vegetative waste and microbes known as microalgae.

3 *I Liheslatura* further finds that research into the cultivation of micro-algae as
4 energy crops shows promise for places such as Guam. Microalgae are photosynthetic
5 and heterotrophic, meaning that it requires sunlight and a carbon-based food supply
6 to grow. Guam has both in great abundance. Microalgae can also be grown at a
7 much faster rate than traditional energy crops and require much less land. Studies
8 have also shown that certain microalgae are effective in the production of hydrogen
9 and oxygen through the process of biophotolysis.

10 It is the intent of *I Liheslatura* to encourage the creation of a new bio-fuels
11 industry by providing incentives through the Qualifying Certificate Program and
12 through an exemption from the Liquid Fuel Tax for bio-fuels manufactured on Guam.

13 **Section 2.** §58104 of Title 12, Guam Code Annotated, is hereby *amended* to
14 read:
